

Enterprise and Enbridge Announce Completion of Seaway Pipeline Reversal

May 17, 2012

HOUSTON & CALGARY, Alberta--(BUSINESS WIRE)--May. 17, 2012-- Enterprise Products Partners L.P. (NYSE: EPD) and Enbridge Inc. (NYSE/TSX: ENB) today announced that modifications to the Seaway crude oil pipeline allowing it to transport crude oil from Cushing, Oklahoma to the U.S. Gulf Coast have been completed. The pipeline is in the process of being commissioned, and the first flows of crude oil into the line are expected to begin this weekend. The reversal of the 500-mile, 30-inch diameter pipeline, which had been in northbound service since 1995, provides North American producers with the infrastructure needed to access more than 4 million barrels per day ("BPD") of Gulf Coast refinery demand.

The reversal will initially provide 150,000 BPD of capacity, which is expected to increase to more than 400,000 BPD in the first quarter of 2013 with additional modifications and increased pumping capabilities.

Seaway Crude Pipeline Company LLC is a 50/50 joint venture owned by affiliates of Enterprise Products Partners and Enbridge Inc. In addition to the pipeline that transports crude oil from Cushing to the Gulf Coast, the Seaway system is comprised of a terminal and distribution network originating in Texas City, Texas, which serves refineries locally and in the Houston area. The Seaway system also includes dock facilities at Freeport and Texas City. For additional information, please visit www.seawaypipeline.com.

Enterprise Products Partners L.P. is one of the largest publicly traded partnerships and a leading North American provider of midstream energy services to producers and consumers of natural gas, NGLs, crude oil, refined products and petrochemicals. The partnership's assets include approximately: 50,600 miles of onshore and offshore pipelines; 190 million barrels of storage capacity for NGLs, petrochemicals, refined products and crude oil; and 14 billion cubic feet of natural gas storage capacity. Services include: natural gas gathering, treating, processing, transportation and storage; NGL transportation, fractionation, storage, and import and export terminaling; offshore production platform services; crude oil and refined products transportation, storage and terminaling; petrochemical transportation and storage; and a marine transportation business that operates primarily on the United States inland and Intracoastal Waterway systems and in the Gulf of Mexico. Additional information is available online at www.enterpriseproducts.com.

Enbridge Inc. is a North American leader in delivering energy and one of the Global 100 Most Sustainable Corporations. As a transporter of energy, Enbridge operates, in Canada and the U.S., the world's longest crude oil and liquids transportation system. The Company also has a significant and growing involvement in natural gas gathering, transmission and midstream businesses, and an increasing involvement in power transmission. As a distributor of energy, Enbridge owns and operates Canada's largest natural gas distribution company, and provides distribution services in Ontario, Quebec, New Brunswick and New York State. As a generator of energy, Enbridge has interests in close to 860 megawatts of renewable and alternative energy generating capacity and is expanding its interests in wind and solar energy, geothermal and hybrid fuel cells. Enbridge employs approximately 6,400 people, primarily in Canada and the U.S. and is ranked as one of Canada's Greenest Employers, and one of the Top 100 Companies to Work for in Canada. Enbridge's common shares trade on the Toronto and New York stock exchanges under the symbol ENB. For more information, visit www.enbridge.com.

This press release includes "forward-looking statements" as defined by the Securities and Exchange Commission and "forward-looking information" within the meaning of applicable Canadian securities legislation (collectively, "forward-looking statements"). All statements, other than statements of historical fact, included herein that address activities, events, developments or transactions that Enterprise and Enbridge expect, believe or anticipate will or may occur in the future, including anticipated benefits and other aspects of such activities, events, developments or transactions, are forward-looking statements. Although Enterprise and Enbridge believe that the forward-looking statements included herein are based on information and assumptions which are current, reasonable and complete, these statements are necessarily subject to a variety of risks and uncertainties, including required approvals by regulatory agencies, the possibility that the anticipated benefits from such activities, events, developments or transactions cannot be fully realized, the possibility that costs or difficulties related thereto will be greater than expected, the impact of competition and other risks and uncertainties included in the reports filed with the Securities and Exchange Commission by Enterprise and Enbridge, respectively, and in the filings made by Enbridge with Canadian securities regulatory authorities. While Enterprise and Enbridge make these forward-looking statements in good faith, should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may differ materially from those expected. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. Except as required by law, neither Enterprise nor Enbridge intends to update or revise its forward-looking statements, whether as a result of new information, future events or otherwise.
