

Enterprise Begins Open Season for Expanded Refined Products Services

July 9, 2018

HOUSTON--(BUSINESS WIRE)--Jul. 9, 2018-- Enterprise Products Partners L.P. (NYSE: EPD) announced today that its affiliate, Enterprise TE Products Pipeline Company LLC, is conducting an open season to gauge shipper support for incremental volumes of ultra-low sulfur diesel and motor gasoline on the company's existing 14-inch diameter pipeline that originates in Seymour, Indiana and terminates in the Chicago, Illinois area. To accommodate the additional throughput, Enterprise would increase the capacity on a portion of the 14-inch diameter pipeline in order to receive incremental product in the Indianapolis, Indiana area and deliver such product to the Griffith, Indiana area in Lake County.

Pending sufficient shipper commitments during the open season, expanded service would be expected to begin in December 2018. The open season is being held in response to increased shipper demand for refined products deliveries into the Chicago area market.

The Binding Open Season Commitment Period will begin July 9, 2018 at noon CDT and continue until 5 p.m. CDT on August 10, 2018. Requests for additional information may be directed to James Taylor at (713) 381-5105 or jktaylor@eprod.com.

Enterprise TE Products Pipeline LLC owns and operates a network of pipeline systems spanning more than 4,800 miles, including the 3,317-mile TE Products system that transports refined products and natural gas liquids from the upper Texas Gulf Coast to multiple destinations across the Central and Midwestern United States. The TE Products system features segments extending to Chicago; Lima, Ohio; Selkirk, New York; and a location near Philadelphia, Pennsylvania. The portion of the TE Products system east of Seymour is primarily dedicated to propane transportation.

Enterprise Products Partners L.P. is one of the largest publicly traded partnerships and a leading North American provider of midstream energy services to producers and consumers of natural gas, NGLs, crude oil, refined products and petrochemicals. Our services include: natural gas gathering, treating, processing, transportation and storage; NGL transportation, fractionation, storage and import and export terminals; crude oil gathering, transportation, storage and terminals; petrochemical and refined products transportation, storage and terminals; and a marine transportation business that operates primarily on the United States inland and Intracoastal Waterway systems. The partnership's assets include approximately 49,000 miles of pipelines; 250 million barrels of storage capacity for NGLs, crude oil, refined products and petrochemicals; and 14 billion cubic feet of natural gas storage capacity.
