KEY REFERENCES USED IN THESE NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Unless the context requires otherwise, references to "we," "us" or "our" within these Notes to Unaudited Condensed Consolidated Financial Statements are intended to mean the business and operations of Enterprise Products Partners L.P. and its consolidated subsidiaries.

References to the "Partnership" or "Enterprise" mean Enterprise Products Partners L.P. on a standalone basis.

References to "EPO" mean Enterprise Products Operating LLC, which is an indirect wholly owned subsidiary of the Partnership, and its consolidated subsidiaries, through which the Partnership conducts its business. We are managed by our general partner, Enterprise Products Holdings LLC ("Enterprise GP"), which is a wholly owned subsidiary of Dan Duncan LLC, a privately held Texas limited liability company.

The membership interests of Dan Duncan LLC are owned by a voting trust, the current trustees ("DD LLC Trustees") of which are: (i) Randa Duncan Williams, who is also a director and Chairman of the Board of Directors (the "Board") of Enterprise GP; (ii) Richard H. Bachmann, who is also a director and Vice Chairman of the Board of Enterprise GP; and (iii) W. Randall Fowler, who is also a director and the Co-Chief Executive Officer and Chief Financial Officer of Enterprise GP. Ms. Duncan Williams and Messrs. Bachmann and Fowler also currently serve as managers of Dan Duncan LLC.

References to "EPCO" mean Enterprise Products Company, a privately held Texas corporation, and its privately held affiliates. The outstanding voting capital stock of EPCO is owned by a voting trust, the current trustees ("EPCO Trustees") of which are: (i) Ms. Duncan Williams, who serves as Chairman of EPCO; (ii) Mr. Bachmann, who serves as the President and Chief Executive Officer of EPCO; and (iii) Mr. Fowler, who serves as an Executive Vice President and the Chief Financial Officer of EPCO. Ms. Duncan Williams and Messrs. Bachmann and Fowler also currently serve as directors of EPCO.

We, Enterprise GP, EPCO and Dan Duncan LLC are affiliates under the collective common control of the DD LLC Trustees and the EPCO Trustees. EPCO, together with its privately held affiliates, owned approximately 32.3% of the Partnership's common units outstanding at September 30, 2022.

With the exception of per unit amounts, or as noted within the context of each disclosure, the dollar amounts presented in the tabular data within these disclosures are stated in millions of dollars.

Note 1. Partnership Organization and Operations

We are a publicly traded Delaware limited partnership, the common units of which are listed on the New York Stock Exchange ("NYSE") under the ticker symbol "EPD." Our preferred units are not publicly traded. We were formed in April 1998 to own and operate certain natural gas liquids ("NGLs") related businesses of EPCO and are a leading North American provider of midstream energy services to producers and consumers of natural gas, NGLs, crude oil, petrochemicals and refined products. We are owned by our limited partners (preferred and common unitholders) from an economic perspective. Enterprise GP, which owns a non-economic general partner interest in us, manages our Partnership. We conduct substantially all of our business operations through EPO and its consolidated subsidiaries.

Our fully integrated, midstream energy asset network (or "value chain") links producers of natural gas, NGLs and crude oil from some of the largest supply basins in the United States ("U.S."), Canada and the Gulf of Mexico with domestic consumers and international markets. Our midstream energy operations include:

- natural gas gathering, treating, processing, transportation and storage;
- NGL transportation, fractionation, storage, and marine terminals (including those used to export liquefied petroleum gases, or "LPG," and ethane);
- crude oil gathering, transportation, storage, and marine terminals;
- propylene production facilities (including propane dehydrogenation ("PDH") facilities), butane isomerization, octane enhancement, isobutane dehydrogenation ("iBDH") and high purity isobutylene ("HPIB") production facilities;
- petrochemical and refined products transportation, storage, and marine terminals (including those used to export ethylene and polymer grade propylene ("PGP")); and
- a marine transportation business that operates on key U.S. inland and intracoastal waterway systems.

Like many publicly traded partnerships, we have no employees. All of our management, administrative and operating functions are performed by employees of EPCO pursuant to an administrative services agreement (the "ASA") or by other service providers. See Note 15 for information regarding related party matters.

Our results of operations for the nine months ended September 30, 2022 are not necessarily indicative of results expected for the full year of 2022. In our opinion, the accompanying Unaudited Condensed Consolidated Financial Statements include all adjustments consisting of normal recurring accruals necessary for fair presentation. Although we believe the disclosures in these financial statements are adequate and make the information presented not misleading, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP") have been condensed or omitted pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC").

These Unaudited Condensed Consolidated Financial Statements and Notes thereto should be read in conjunction with the Audited Consolidated Financial Statements and Notes thereto included in our annual report on Form 10-K for the year ended December 31, 2021 (the "2021 Form 10-K") filed with the SEC on February 28, 2022.

Note 2. Summary of Significant Accounting Policies

Apart from those matters described in this footnote, there have been no updates to our significant accounting policies since those reported under Note 2 of the 2021 Form 10-K.

Allowance for Credit Losses

We estimate our allowance for credit losses at each reporting date using a current expected credit loss model, which requires the measurement of expected credit losses for financial assets (e.g., accounts receivable) based on historical experience with customers, current economic conditions, and reasonable and supportable forecasts. We may also increase the allowance for credit losses in response to the specific identification of customers involved in bankruptcy proceedings and similar financial difficulties.

The following table presents our allowance for credit losses activity since December 31, 2021:

| Allowance for credit losses, December 31, 2021 | \$ 53 |
|---|----------|
| Charged to costs and expenses | 6 |
| Charged to other accounts | 1 |
| Deductions | (5) |
| Allowance for credit losses, September 30, 2022 | \$ 55 |

Cash, Cash Equivalents and Restricted Cash

The following table provides a reconciliation of cash and cash equivalents, and restricted cash reported within the Unaudited Condensed Consolidated Balance Sheets that sum to the total of the amounts shown in the Unaudited Condensed Statements of Consolidated Cash Flows.

| | September 3 2022 | 0, | De | ecember 31, 2021 |
|---|---------------------|-----|----|---------------------|
| Cash and cash equivalents | \$ | 167 | \$ | 2,820 |
| Restricted cash | | 88 | | 145 |
| Total cash, cash equivalents and restricted cash shown in the Unaudited Condensed Statements of Consolidated Cash Flows | \$ | 255 | \$ | 2,965 |

Restricted cash primarily represents amounts held in segregated bank accounts by our clearing brokers as margin in support of our commodity derivative instruments portfolio and related physical purchases and sales of natural gas, NGLs, crude oil, refined products and power. Additional cash may be restricted to maintain our commodity derivative instruments portfolio as prices fluctuate or margin requirements change. See Note 14 for information regarding our derivative instruments and hedging activities.

Note 3. Inventories

Our inventory amounts by product type were as follows at the dates indicated:

| | mber 30, 022 | Dec | ember 31, 2021 |
|-------------------------------------|-----------------|-----|-------------------|
| NGLs | \$ 2,444 | \$ | 2,027 |
| Petrochemicals and refined products | 455 | | 343 |
| Crude oil | 243 | | 285 |
| Natural gas | 31 | | 26 |
| Total | \$ 3,173 | \$ | 2,681 |

Due to fluctuating commodity prices, we recognize lower of cost or net realizable value adjustments when the carrying value of our available-for-sale inventories exceeds their net realizable value. The following table presents our total cost of sales amounts and lower of cost or net realizable value adjustments for the periods indicated:

| | For the Thr Ended Sept | | For the Nir Ended Sept | |
|---|-------------------------------|-------------|---------------------------|--------------|
| | 2022 | 2021 | 2022 | 2021 |
| Cost of sales (1) Lower of cost or net realizable value adjustments | \$ 12,319 | \$ 8,113 | \$ 35,325 | \$ 21,216 |
| recognized in cost of sales | 11 | 1 | 18 | 14 |

Cost of sales is a component of "Operating costs and expenses" as presented on our Unaudited Condensed Statements of Consolidated Operations. Fluctuations in these amounts are primarily due to changes in energy commodity prices and sales volumes associated with our marketing activities

Note 4. Property, Plant and Equipment

The historical costs of our property, plant and equipment and related balances were as follows at the dates indicated:

| _ | Estimated Useful Life in Years | September 30, 2022 | December 31, 2021 |
|---|--------------------------------------|-----------------------|----------------------|
| Plants, pipelines and facilities (1) | 3-45(5) | \$ 54,145 | \$ 51,636 |
| Underground and other storage facilities (2) | 5-40(6) | 4,322 | 4,327 |
| Transportation equipment (3) | 3-10 | 217 | 209 |
| Marine vessels (4) | 15-30 | 923 | 918 |
| Land | | 387 | 379 |
| Construction in progress | | 2,470 | 1,616 |
| Subtotal | | 62,464 | 59,085 |
| Less accumulated depreciation | | 18,360 | 17,083 |
| Subtotal property, plant and equipment, net Capitalized major maintenance costs for reaction-based | | 44,104 | 42,002 |
| plants, net of accumulated amortization (7) | | 63 | 86 |
| Property, plant and equipment, net | | \$ 44,167 | \$ 42,088 |

Plants, pipelines and facilities include processing plants; NGL, natural gas, crude oil and petrochemical and refined products pipelines; terminal loading and unloading facilities; buildings; office furniture and equipment; laboratory and shop equipment and related assets.

Underground and other storage facilities include underground product storage caverns; above ground storage tanks; water wells and related assets.

Transportation equipment includes tractor-trailer tank trucks and other vehicles and similar assets used in our operations. Marine vessels include tow boats, barges and related equipment used in our marine transportation business.

In general, the estimated useful lives of major assets within this category are: processing plants, 20-35 years; pipelines and related equipment, 5-45 years; terminal facilities, 10-35 years; buildings, 20-40 years; office furniture and equipment, 3-20 years; and laboratory and shop equipment, 5-35 years.

In general, the estimated useful lives of assets within this category are: underground storage facilities, 5-35 years; storage tanks, 10-40 years; and water wells, 5-35 years.

For reaction-based plants, we use the deferral method when accounting for major maintenance activities. Under the deferral method, major maintenance costs are capitalized and amortized over the period until the next major overhaul project. On a weighted-average basis, the expected amortization period for these costs is 1.7 years.

Property, plant and equipment at September 30, 2022 and December 31, 2021 includes \$113 million and \$81 million, respectively, of asset retirement costs capitalized as an increase in the associated long-lived asset.

The following table presents information regarding our asset retirement obligations, or AROs, since December 31, 2021:

| ARO liability balance, December 31, 2021 | \$ 176 |
|---|-----------|
| Liabilities incurred (1) | 14 |
| Revisions in estimated cash flows (2) | 25 |
| Liabilities settled (3) | (3) |
| Accretion expense (4) | 7 |
| ARO liability balance, September 30, 2022 | \$ 219 |

- Represents the initial recognition of estimated ARO liabilities during period

- Represents subsequent adjustments to estimated ARO liabilities during period.
 Represents cash payments to settle ARO liabilities during period.
 Represents net change in ARO liability balance attributable to the passage of time and other adjustments, including true-up amounts associated with revised closure estimates.

Of the \$219 million total ARO liability recorded at September 30, 2022, \$13 million was reflected as a current liability and \$206 million as a long-term liability.

The following table summarizes our depreciation expense and capitalized interest amounts for the periods indicated:

| | For the Three M Ended Septemb | | | | | Nine Months September 30, | | |
|--------------------------|----------------------------------|------|----|------|-------------|------------------------------|-------|--|
| | | 2022 | | 2021 | 2022 | | 2021 | |
| Depreciation expense (1) | \$ | 446 | \$ | 424 | \$ 1,329 | \$ | 1,273 | |
| Capitalized interest (2) | | 22 | | 23 | 60 | | 64 | |

Depreciation expense is a component of "Costs and expenses" as presented on our Unaudited Condensed Statements of Consolidated Operations

Note 5. Investments in Unconsolidated Affiliates

The following table presents our investments in unconsolidated affiliates by business segment at the dates indicated. We account for these investments using the equity method.

| | ember 30, 2022 | December 31, 2021 |
|---|-------------------|--------------------------|
| NGL Pipelines & Services | \$ 645 | \$ 656 |
| Crude Oil Pipelines & Services | 1,676 | 1,738 |
| Natural Gas Pipelines & Services | 32 | 31 |
| Petrochemical & Refined Products Services | 3 | 3 |
| Total | \$ 2,356 | \$ 2,428 |

The following table presents our equity in income of unconsolidated affiliates by business segment for the periods indicated:

| | | For the Th Ended Sep | | For the Ni Ended Sep | |
|---|----|-------------------------|-----------|-------------------------|-----------|
| | 2 | 022 | 2021 | 2022 | 2021 |
| NGL Pipelines & Services | \$ | 39 | \$ 31 | \$ 109 | \$ 88 |
| Crude Oil Pipelines & Services | | 70 | 105 | 221 | 354 |
| Natural Gas Pipelines & Services | | 2 | 1 | 4 | 4 |
| Petrochemical & Refined Products Services | | | | 1 | 1 |
| Total | \$ | 111 | \$ 137 | \$ 335 | \$ 447 |

We capitalize interest costs incurred on funds used to construct property, plant and equipment while the asset is in its construction phase. The capitalized interest is recorded as part of the asset to which it relates and is amortized over the asset's estimated useful life as a component of depreciation expense. When capitalized interest is recorded, it reduces interest expense from what it would be otherwise.

Note 6. Intangible Assets and Goodwill

Identifiable Intangible Assets

The following table summarizes our intangible assets by business segment at the dates indicated:

| | | | | ember 30, 2022 | | December 31, 2021 | | | | | .1 | | |
|--|----|----------------|----|---------------------------|----|-------------------|----|----------------|----|---------------------------|----|-------------------|--|
| | | Gross Value | | ccumulated mortization | | Carrying Value | _ | Gross Value | | ccumulated mortization | | Carrying Value | |
| NGL Pipelines & Services: | | | | | | | | | | | | | |
| Customer relationship intangibles | \$ | 449 | \$ | (245) | \$ | 204 | \$ | 449 | \$ | (236) | \$ | 213 | |
| Contract-based intangibles | | 749 | | (79) | | 670 | | 165 | | (61) | | 104 | |
| Segment total | | 1,198 | | (324) | | 874 | | 614 | | (297) | | 317 | |
| Crude Oil Pipelines & Services: | | | | | | | | | | | | | |
| Customer relationship intangibles | | 2,195 | | (411) | | 1,784 | | 2,195 | | (355) | | 1,840 | |
| Contract-based intangibles | | 283 | | (269) | | 14 | | 283 | | (263) | | 20 | |
| Segment total | | 2,478 | | (680) | | 1,798 | | 2,478 | | (618) | | 1,860 | |
| Natural Gas Pipelines & Services: | | | | | | | | | | | | | |
| Customer relationship intangibles | | 1,350 | | (579) | | 771 | | 1,350 | | (550) | | 800 | |
| Contract-based intangibles | | 639 | | (192) | | 447 | | 232 | | (183) | | 49 | |
| Segment total | | 1,989 | | (771) | | 1,218 | | 1,582 | | (733) | | 849 | |
| Petrochemical & Refined Products Services: | | | | | | | | | | | | | |
| Customer relationship intangibles | | 181 | | (79) | | 102 | | 181 | | (75) | | 106 | |
| Contract-based intangibles | | 45 | | (27) | | 18 | | 45 | | (26) | | 19 | |
| Segment total | | 226 | | (106) | | 120 | | 226 | | (101) | | 125 | |
| Total intangible assets | \$ | 5,891 | \$ | (1,881) | \$ | 4,010 | \$ | 4,900 | \$ | (1,749) | \$ | 3,151 | |

The following table presents the amortization expense of our intangible assets by business segment for the periods indicated:

| | For the Th Ended Sep | | | For the Ni Ended Sep | |
|---|-----------------------------|----|-----|-------------------------|-----------|
| | 2022 | 2 | 021 | 2022 | 2021 |
| NGL Pipelines & Services | \$ 10 | \$ | 6 | \$ 27 | \$ 18 |
| Crude Oil Pipelines & Services | 21 | | 20 | 62 | 57 |
| Natural Gas Pipelines & Services | 13 | | 11 | 38 | 32 |
| Petrochemical & Refined Products Services | 2 | | 2 | 5 | 6 |
| Total | \$ 46 | \$ | 39 | \$ 132 | \$ 113 |

The following table presents our forecast of amortization expense associated with existing intangible assets for the periods indicated:

| Remainder of 2022 | | 2023 | | | 2024 | | | 2025 | | | 2026 | | |
|-------------------|----|----------|-----|---------|------|------|---|------|-----|---|------|-----|--|
| s | 50 | \$ 20 | 0 : | <u></u> | , | 22 : | s | | 230 | S | | 237 | |

Goodwill

Goodwill represents the excess of the purchase price of an acquired business over the amounts assigned to assets acquired and liabilities assumed in the transaction. The following table presents changes in the carrying amount of goodwill for the period presented:

| | NGL ipelines Services | Crude Oil Pipelines & Services | Natural Gas Pipelines & Services | P | Petrochemical & Refined Products Services | Consolidated Total |
|-------------------------------------|-----------------------------|--------------------------------------|--|----|--|-----------------------|
| Balance at December 31, 2021 | \$ 2,652 | \$ 1,841 | \$ _ | \$ | 956 | \$ 5,449 |
| Goodwill related to acquisition (1) | 159 | | _ | | _ | 159 |
| Balance at September 30, 2022 | \$ 2,811 | \$ 1,841 | \$ | \$ | 956 | \$ 5,608 |

This amount represents the goodwill recognized in connection with our acquisition of Navitas Midstream in February 2022. See Note 12 for additional information regarding this acquisition.

Note 7. Debt Obligations

The following table presents our consolidated debt obligations (arranged by company and maturity date) at the dates indicated:

| | September 30, 2022 | December 31, 2021 |
|--|---------------------------------------|----------------------|
| EPO senior debt obligations: | | |
| Commercial Paper Notes, variable-rates | \$ 1,405 | \$ - |
| Senior Notes VV, 3.50% fixed-rate, due February 2022 | _ | 750 |
| Senior Notes CC, 4.05% fixed-rate, due February 2022 | - | 650 |
| Senior Notes HH, 3.35% fixed-rate, due March 2023 | 1,250 | 1,250 |
| September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement, variable-rate, due September 2023 (1) | _ | - |
| Senior Notes JJ, 3.90% fixed-rate, due February 2024 | 850 | 850 |
| Senior Notes MM, 3.75% fixed-rate, due February 2025 | 1,150 | 1,150 |
| Senior Notes PP, 3.70% fixed-rate, due February 2026 | 875 | 875 |
| September 2021 \$3.0 Billion Multi-Year Revolving Credit Agreement, variable-rate, due September 2026 (2) | - | - |
| Senior Notes SS, 3.95% fixed-rate, due February 2027 | 575 | 575 |
| Senior Notes WW, 4.15% fixed-rate, due October 2028 | 1,000 | 1,000 |
| Senior Notes YY, 3.125% fixed-rate, due July 2029 | 1,250 | 1,250 |
| Senior Notes AAA, 2.80% fixed-rate, due January 2030 | 1,250 | 1,250 |
| Senior Notes D, 6.875% fixed-rate, due March 2033 | 500 | 500 |
| Senior Notes H, 6.65% fixed-rate, due October 2034 | 350 | 350 |
| Senior Notes J, 5.75% fixed-rate, due March 2035 | 250 | 250 |
| Senior Notes W, 7.55% fixed-rate, due April 2038 | 400 | 400 |
| Senior Notes R, 6.125% fixed-rate, due October 2039 | 600 | 600 |
| Senior Notes Z, 6.45% fixed-rate, due September 2040 | 600 | 600 |
| Senior Notes BB, 5.95% fixed-rate, due February 2041 | 750 | 750 |
| Senior Notes DD, 5.70% fixed-rate, due February 2042 | 600 | 600 |
| Senior Notes EE, 4.85% fixed-rate, due August 2042 | 750 | 750 |
| Senior Notes GG, 4.45% fixed-rate, due February 2043 | 1,100 | 1,100 |
| Senior Notes II, 4.85% fixed-rate, due March 2044 | 1,400 | 1,400 |
| Senior Notes KK, 5.10% fixed-rate, due February 2045 | 1,150 | 1,150 |
| Senior Notes QQ, 4.90% fixed-rate, due May 2046 | 975 | 975 |
| Senior Notes UU, 4.25% fixed-rate, due February 2048 | 1,250 | 1,250 |
| Senior Notes XX, 4.80% fixed-rate, due February 2049 | 1,250 | 1,250 |
| | 1,250 | 1,250 |
| Senior Notes ZZ, 4.20% fixed-rate, due January 2050 | · · · · · · · · · · · · · · · · · · · | <i>'</i> |
| Senior Notes BBB, 3.70% fixed-rate, due January 2051 | 1,000 | 1,000 |
| Senior Notes DDD, 3.20% fixed-rate, due February 2052 | 1,000 | 1,000 |
| Senior Notes EEE, 3.30% fixed-rate, due February 2053 | 1,000 | 1,000 |
| Senior Notes NN, 4.95% fixed-rate, due October 2054 | 400 | 400 |
| Senior Notes CCC, 3.95% fixed rate, due January 2060 | 1,000 | 1,000 |
| Total principal amount of senior debt obligations | 27,180 | 27,175 |
| EPO Junior Subordinated Notes C, variable-rate, due June 2067 (3) EPO Junior Subordinated Notes D, fixed/variable-rate, due August 2077 (4) | 232 | 232 |
| EPO Junior Subordinated Notes E, fixed/variable-rate, due August 2077 (5) | 350 | 700 |
| EPO Junior Subordinated Notes F, fixed/variable-rate, due February 2078 (6) | 1,000 700 | 1,000 700 |
| TEPPCO Junior Subordinated Notes, variable-rate, due June 2067 (3) | 14 | 14 |
| Total principal amount of senior and junior debt obligations | 29,476 | 29,821 |
| Other, non-principal amounts | (274) | (286) |
| Less current maturities of debt | (2,654) | (1,400) |
| Total long-term debt | \$ 26,548 | \$ 28,135 |

Under the terms of the agreement, EPO may borrow up to \$1.5 billion (which may be increased by up to \$200 million to \$1.7 billion at EPO's election provided certain conditions are met). Under the terms of the agreement, EPO may borrow up to \$3.0 billion (which may be increased by up to \$500 million to \$3.5 billion at EPO's election provided certain conditions are met). Variable rate is reset quarterly and based on 3-month London Interbank Offered Rate ("LIBOR"), plus 2.778%.

References to "TEPPCO" mean TEPPCO Partners, L.P. prior to its merger with one of our wholly owned subsidiaries in October 2009.

Fixed rate of 4.875% through August 15, 2022; thereafter, a variable rate reset quarterly and based on 3-month LIBOR plus 2.986%. Fixed rate of 5.250% through August 15, 2022; thereafter, a variable rate reset quarterly and based on 3-month LIBOR plus 3.033%. Fixed rate of 5.375% through February 14, 2028; thereafter, a variable rate reset quarterly and based on 3-month LIBOR plus 2.57%.

Variable Interest Rates

The following table presents the range of interest rates and weighted-average interest rates paid on our consolidated variable-rate debt during the nine months ended September 30, 2022:

| | Range of Interest | Weighted-Average |
|--|-------------------|--------------------|
| | Rates Paid | Interest Rate Paid |
| Commercial Paper Notes | 0.20% to 3.52% | 1.27% |
| EPO Junior Subordinated Notes C and TEPPCO Junior Subordinated Notes | 2.95% to 5.86% | 3.86% |
| EPO Junior Subordinated Notes D | 5.91% | 5.91% |

Amounts borrowed under EPO's September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement and September 2021 \$3.0 Billion Multi-Year Revolving Credit Agreement bear interest, at EPO's election, equal to: (i) the Secured Overnight Financing Rate ("SOFR") or LIBOR, as applicable, plus an additional variable spread; or (ii) an alternate base rate, which is the greatest of (a) the Prime Rate in effect on such day, (b) the Federal Funds Effective Rate in effect on such day plus 0.5%, or (c) Adjusted Term SOFR or LIBOR, as applicable, for an interest period of one month in effect on such day plus 1%, and a variable spread. The applicable spreads are determined based on EPO's debt ratings.

In July 2017, the Financial Conduct Authority in the U.K. announced a desire to phase out LIBOR as a benchmark by the end of June 2023. Financial industry working groups are developing replacement rates and methodologies to transition existing agreements that depend on LIBOR as a reference rate. We currently do not expect the transition from LIBOR to have a material financial impact on us.

Scheduled Maturities of Debt

The following table presents the scheduled maturities of principal amounts of EPO's consolidated debt obligations at September 30, 2022 for the next five years, and in total thereafter:

| | | Scheduled Maturities of Debt | | | | | | | | | | | |
|---------------------------|--------------|------------------------------|------|----------|------|----------|------|----------|------|----------|------------|--------|--|
| | Total | Remainder of 2022 | 2023 | | 2024 | | 2025 | | 2026 | | Thereafter | | |
| Commercial Paper Notes | \$ 1,405 | \$ 1,405 | \$ | _ | \$ | _ | \$ | _ | \$ | _ | \$ | _ | |
| Senior Notes | 25,775 | _ | | 1,250 | | 850 | | 1,150 | | 875 | | 21,650 | |
| Junior Subordinated Notes | 2,296 | <u> </u> | | <u> </u> | | <u>–</u> | | <u> </u> | | <u>–</u> | | 2,296 | |
| Total | \$ 29,476 | \$ 1,405 | \$ | 1,250 | \$ | 850 | \$ | 1,150 | \$ | 875 | \$ | 23,946 | |

In February 2022, EPO repaid all of the \$750 million and \$650 million in principal amount of its Senior Notes VV and CC, respectively, using remaining cash on hand attributable to its September 2021 senior notes offering and proceeds from issuances under its commercial paper program.

Partial Redemption of Junior Subordinated Notes D

In August 2022, EPO redeemed \$350 million of the \$700 million outstanding principal amount of its Junior Subordinated Notes D at a redemption price equal to 100% of the principal amount of the notes being redeemed plus accrued and unpaid interest thereon to, but not including, the redemption date. The redemption was funded using cash on hand and proceeds from issuances under EPO's commercial paper program.

September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement

In September 2022, EPO entered into a new 364-Day Revolving Credit Agreement (the "September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement") that replaced its September 2021 364-Day Revolving Credit Agreement. There were no principal amounts outstanding under the September 2021 364-Day Revolving Credit Agreement when it was replaced by the September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement. As of September 30, 2022, there are no principal amounts outstanding under the September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement.

Under the terms of the September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement, EPO may borrow up to \$1.5 billion (which may be increased by up to \$200 million to \$1.7 billion at EPO's election, provided certain conditions are met) at a variable interest rate for a term of up to 364 days, subject to the terms and conditions set forth therein. The September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement matures in September 2023. To the extent that principal amounts are outstanding at the maturity date, EPO may elect to have the entire principal balance then outstanding continued as non-revolving term loans for a period of one additional year, payable in September 2024. Borrowings under the September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement may be used for working capital, capital expenditures, acquisitions and general company purposes.

The September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement contains customary representations, warranties, covenants (affirmative and negative) and events of default, the occurrence of which would permit the lenders to accelerate the maturity date of any amounts borrowed under this credit agreement. The September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement also restricts EPO's ability to pay cash distributions to the Partnership, if an event of default (as defined in the credit agreement) has occurred and is continuing at the time such distribution is scheduled to be paid or would result therefrom.

EPO's obligations under the September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement are not secured by any collateral; however, they are guaranteed by the Partnership.

Letters of Credit

At September 30, 2022, EPO had \$100 million of letters of credit outstanding primarily related to our commodity hedging activities.

Lender Financial Covenants

We were in compliance with the financial covenants of our consolidated debt agreements at September 30, 2022.

Parent-Subsidiary Guarantor Relationships

The Partnership acts as guarantor of the consolidated debt obligations of EPO, with the exception of the remaining debt obligations of TEPPCO. If EPO were to default on any of its guaranteed debt, the Partnership would be responsible for full and unconditional repayment of such obligations.

Note 8. Capital Accounts

Common Limited Partner Interests

The following table summarizes changes in the number of our common units outstanding since December 31, 2021:

| Common units outstanding at December 31, 2021 | 2,176,379,587 |
|--|---------------|
| Common units issued in connection with the vesting of phantom unit awards, net | 4,051,207 |
| Other | 22,350 |
| Common units outstanding at March 31, 2022 | 2,180,453,144 |
| Common unit repurchases under 2019 Buyback Program | (1,408,121) |
| Common units issued in connection with the vesting of phantom unit awards, net | 204,357 |
| Common units outstanding at June 30, 2022 | 2,179,249,380 |
| Common unit repurchases under 2019 Buyback Program | (2,925,842) |
| Common units issued in connection with the vesting of phantom unit awards, net | 182,222 |
| Common units outstanding at September 30, 2022 | 2,176,505,760 |

Registration Statements

We have a universal shelf registration statement on file with the SEC which allows the Partnership and EPO (each on a standalone basis) to issue an unlimited amount of equity and debt securities, respectively.

In addition, the Partnership has a registration statement on file with the SEC covering the issuance of up to \$2.5 billion of its common units in amounts, at prices and on terms based on market conditions and other factors at the time of such offerings (referred to as the Partnership's at-the-market ("ATM") program). The Partnership did not issue any common units under its ATM program during the nine months ended September 30, 2022. The Partnership's capacity to issue additional common units under the ATM program remains at \$2.5 billion as of September 30, 2022.

We may issue additional equity and debt securities to assist us in meeting our future liquidity requirements, including those related to capital investments.

Common Unit Repurchases Under 2019 Buyback Program

In January 2019, we announced that the Board of Enterprise GP had approved a \$2.0 billion multi-year unit buyback program (the "2019 Buyback Program"), which provides the Partnership with an additional method to return capital to investors. The 2019 Buyback Program authorizes the Partnership to repurchase its common units from time to time, including through open market purchases and negotiated transactions. No time limit has been set for completion of the program, and it may be suspended or discontinued at any time.

During the three and nine months ended September 30, 2022, the Partnership repurchased 2,925,842 and 4,333,963 common units, respectively, under the 2019 Buyback Program through open market purchases. The total cost of these repurchases, including commissions and fees, was \$72 million and \$107 million, respectively. During the three and nine months ended September 30, 2021, the Partnership repurchased 3,367,377 and 4,077,193 common units, respectively, under the 2019 Buyback Program through open market purchases. The total cost of these repurchases, including commissions and fees, was \$75 million and \$89 million, respectively. Common units repurchased under the 2019 Buyback Program are immediately cancelled upon acquisition. At September 30, 2022, the remaining available capacity under the 2019 Buyback Program was \$1.4 billion.

Common Units Issued in Connection With the Vesting of Phantom Unit Awards

After taking into account tax withholding requirements, the Partnership issued 4,437,786 new common units to employees in connection with the vesting of phantom unit awards during the nine months ended September 30, 2022. See Note 13 for information regarding our phantom unit awards.

Common Units Delivered Under DRIP and EUPP

The Partnership has registration statements on file with the SEC in connection with its distribution reinvestment plan ("DRIP") and employee unit purchase plan ("EUPP"). In July 2019, the Partnership announced that, beginning with the quarterly distribution payment paid in August 2019, it would use common units purchased on the open market, rather than issuing new common units, to satisfy its delivery obligations under the DRIP and EUPP. This election is subject to change in future quarters depending on the Partnership's need for equity capital.

During the nine months ended September 30, 2022, agents of the Partnership purchased 4,735,703 common units on the open market and delivered them to participants in the DRIP and EUPP. Apart from \$2 million attributable to the plan discount available to all participants in the EUPP, the funds used to effect these purchases were sourced from the DRIP and EUPP participants. No other Partnership funds were used to satisfy these obligations. We plan to use open market purchases to satisfy DRIP and EUPP reinvestments in connection with the distribution expected to be paid on November 14, 2022.

Preferred Units

There were 50,412 of our Series A Cumulative Convertible Preferred Units ("preferred units") outstanding at September 30, 2022.

We present the capital accounts attributable to our preferred unitholders as mezzanine equity on our consolidated balance sheets since the terms of the preferred units allow for cash redemption by such unitholders in the event of a Change of Control (as defined in our partnership agreement), without regard to the likelihood of such an event.

During the nine months ended September 30, 2022, the Partnership made quarterly cash distributions to its preferred unitholders of \$3 million.

Accumulated Other Comprehensive Income (Loss)

The following tables present the components of accumulated other comprehensive income (loss) as reported on our Unaudited Condensed Consolidated Balance Sheets at the dates indicated:

| | Cash Flow Hedges | | | | | | | |
|--|---|------|----|-----|-------|-------|----|------|
| | Commodity Interest Rate Derivative Derivative Instruments Instruments | | | | Other | Total | | |
| Accumulated Other Comprehensive Income (Loss), December 31, 2021 | \$ | 137 | \$ | 147 | \$ | 2 | \$ | 286 |
| Other comprehensive income (loss) for period, before reclassifications | | 126 | | - | | - | | 126 |
| Reclassification of losses (gains) to net income during period | | (54) | | 15 | | _ | | (39) |
| Total other comprehensive income (loss) for period | | 72 | | 15 | | | | 87 |
| Accumulated Other Comprehensive Income (Loss), September 30, 2022 | \$ | 209 | \$ | 162 | \$ | 2 | \$ | 373 |

| | De | nmodity rivative ruments | Interest Deriva Instrum | tive | Other | | | Total |
|--|----|--------------------------------|-------------------------------|------|-------|---|----|-------|
| Accumulated Other Comprehensive Income (Loss), December 31, 2020 | \$ | (93) | \$ | (74) | \$ | 2 | \$ | (165) |
| Other comprehensive income (loss) for period, before reclassifications | | (852) | | 183 | | - | | (669) |
| Reclassification of losses (gains) to net income during period | | 634 | | 28 | | | | 662 |
| Total other comprehensive income (loss) for period | | (218) | | 211 | | | | (7) |
| Accumulated Other Comprehensive Income (Loss), September 30, 2021 | \$ | (311) | \$ | 137 | \$ | 2 | \$ | (172) |

The following table presents reclassifications of (income) loss out of accumulated other comprehensive income into net income during the periods indicated:

| | | For the Three Months Ended September 30, | | | | | For the Nine Months Ended September 30, | | | | |
|--|------------------------------|--|------|----|------|----|---|----|------|--|--|
| Losses (gains) on cash flow hedges: Location | | 2022 | | | 2021 | | 2022 | | 2021 | | |
| Interest rate derivatives | Interest expense | \$ | 1 | \$ | 10 | \$ | 15 | \$ | 28 | | |
| Commodity derivatives | Revenue | | 35 | | 117 | | (12) | | 615 | | |
| Commodity derivatives | Operating costs and expenses | | (26) | | | | (42) | | 19 | | |
| Total | | \$ | 10 | \$ | 127 | \$ | (39) | \$ | 662 | | |

For information regarding our interest rate and commodity derivative instruments, see Note 14.

Cash Distributions

On October 4, 2022, we announced that the Board declared a quarterly cash distribution of \$0.4750 per common unit, or \$1.90 per common unit on an annualized basis, to be paid to the Partnership's common unitholders with respect to the third quarter of 2022. The quarterly distribution is payable on November 14, 2022 to unitholders of record as of the close of business on October 31, 2022. The total amount to be paid is \$1.04 billion, which includes \$9 million for distribution equivalent rights ("DERs") on phantom unit awards.

The payment of quarterly cash distributions is subject to management's evaluation of our financial condition, results of operations and cash flows in connection with such payments and Board approval. Management will evaluate any future increases in cash distributions on a quarterly basis.

Note 9. Revenues

We classify our revenues into sales of products and midstream services. Product sales relate primarily to our various marketing activities whereas midstream services represent our other integrated businesses (i.e., gathering, processing, transportation, fractionation, storage and terminaling). The following table presents our revenues by business segment, and further by revenue type, for the periods indicated:

| | For the Three Months Ended September 30, | | | For the Nine Months Ended September 30, | | | |
|---|--|----|--------|--|--------|----|--------|
| | 2022 | | 2021 | | 2022 | | 2021 |
| NGL Pipelines & Services: | | | | | | | |
| Sales of NGLs and related products | \$ 5,519 | \$ | 3,169 | \$ | 16,139 | \$ | 9,151 |
| Segment midstream services: | | | | | | | |
| Natural gas processing and fractionation | 340 | | 253 | | 1,143 | | 688 |
| Transportation | 250 | | 235 | | 708 | | 745 |
| Storage and terminals | 128 | | 159 | | 381 | | 403 |
| Total segment midstream services | 718 | | 647 | | 2,232 | | 1,836 |
| Total NGL Pipelines & Services | 6,237 | | 3,816 | | 18,371 | | 10,987 |
| Crude Oil Pipelines & Services: | | | | | | | |
| Sales of crude oil | 4,455 | | 2,890 | | 13,202 | | 6,868 |
| Segment midstream services: | | | | | | | |
| Transportation | 162 | | 233 | | 650 | | 692 |
| Storage and terminals | 107 | | 112 | | 329 | | 344 |
| Total segment midstream services | 269 | | 345 | | 979 | | 1,036 |
| Total Crude Oil Pipelines & Services | 4,724 | | 3,235 | | 14,181 | | 7,904 |
| Natural Gas Pipelines & Services: | | | | | | | |
| Sales of natural gas | 1,556 | | 732 | | 3,795 | | 2,543 |
| Segment midstream services: | | | | | | | |
| Transportation | 330 | | 248 | | 901 | | 733 |
| Total segment midstream services | 330 | | 248 | | 901 | | 733 |
| Total Natural Gas Pipelines & Services | 1,886 | | 980 | | 4,696 | | 3,276 |
| Petrochemical & Refined Products Services: | | | | | | | |
| Sales of petrochemicals and refined products | 2,346 | | 2,539 | | 6,470 | | 6,524 |
| Segment midstream services: | | | | | | | |
| Fractionation and isomerization | 56 | | 81 | | 172 | | 214 |
| Transportation, including marine logistics | 149 | | 116 | | 426 | | 357 |
| Storage and terminals | 70 | | 65 | | 220 | | 175 |
| Total segment midstream services | 275 | | 262 | | 818 | | 746 |
| Total Petrochemical & Refined Products Services | 2,621 | | 2,801 | | 7,288 | | 7,270 |
| Total consolidated revenues | \$ 15,468 | \$ | 10,832 | \$ | 44,536 | \$ | 29,437 |

Substantially all of our revenues are derived from contracts with customers as defined within Accounting Standards Codification ("ASC") 606, Revenue from Contracts with Customers.

Unbilled Revenue and Deferred Revenue

The following table provides information regarding our contract assets and contract liabilities at September 30, 2022:

| Contract Asset | Location | Balance |
|---|------------------------------------|-----------------------|
| Unbilled revenue (current amount) | Prepaid and other current assets | <u>\$</u> 4 |
| Total | | <u>\$</u> 4 |
| | | |
| | | |
| Contract Liability | Location | Balance |
| Contract Liability Deferred revenue (current amount) | Location Other current liabilities | Balance \$ 203 |
| | | |
| Deferred revenue (current amount) | Other current liabilities | \$ 203 |

The following table presents significant changes in our unbilled revenue and deferred revenue balances for the nine months ended September 30, 2022:

| | Unbilled Revenue | | Deferred Revenue |
|--|---------------------|-------|---------------------|
| Balance at December 31, 2021 | \$ | 15 | \$ 446 |
| Amount included in opening balance transferred to other accounts during period (1) | | (15) | (166) |
| Amount recorded during period (2) | | 137 | 723 |
| Amounts recorded during period transferred to other accounts (1) | | (133) | (501) |
| Other changes | | | (5) |
| Balance at September 30, 2022 | \$ | 4 | \$ 497 |

⁽¹⁾ Unbilled revenues are transferred to accounts receivable once we have an unconditional right to consideration from the customer. Deferred revenues are recognized as revenue upon satisfaction of our performance obligation to the customer.

Remaining Performance Obligations

The following table presents estimated fixed future consideration from revenue contracts that contain minimum volume commitments, deficiency and similar fees and the term of the contracts exceeds one year. These amounts represent the revenues we expect to recognize in future periods from these contracts as of September 30, 2022.

| | Period | Fix Conside | |
|--------------------------------------|--------|----------------|--------|
| Three Months Ended December 31, 2022 | | \$ | 940 |
| One Year Ended December 31, 2023 | | | 3,452 |
| One Year Ended December 31, 2024 | | | 3,272 |
| One Year Ended December 31, 2025 | | | 2,866 |
| One Year Ended December 31, 2026 | | | 2,666 |
| Thereafter | | | 12,178 |
| Total | | \$ | 25,374 |

Note 10. Business Segments and Related Information

Our operations are reported under four business segments: (i) NGL Pipelines & Services, (ii) Crude Oil Pipelines & Services, (iii) Natural Gas Pipelines & Services and (iv) Petrochemical & Refined Products Services. Our business segments are generally organized and managed according to the types of services rendered (or technologies employed) and products produced and/or sold.

Financial information regarding these segments is evaluated regularly by our co-chief operating decision makers in deciding how to allocate resources and in assessing our operating and financial performance. The co-principal executive officers of our general partner have been identified as our co-chief operating decision makers. While these two officers evaluate results in a number of different ways, the business segment structure is the primary basis for which the allocation of resources and financial results are assessed.

The following information summarizes the assets and operations of each business segment:

- Our NGL Pipelines & Services business segment includes our natural gas processing and related NGL marketing activities, NGL pipelines, NGL fractionation facilities, NGL and related product storage facilities, and NGL marine terminals.
- Our Crude Oil Pipelines & Services business segment includes our crude oil pipelines, crude oil storage and marine terminals, and related crude oil
 marketing activities.

⁽²⁾ Unbilled revenue represents revenue that has been recognized upon satisfaction of a performance obligation, but cannot be contractually invoiced (or billed) to the customer at the balance sheet date until a future period. Deferred revenue is recorded when payment is received from a customer prior to our satisfaction of the associated performance obligation.

- Our Natural Gas Pipelines & Services business segment includes our natural gas pipeline systems that provide for the gathering, treating and transportation of natural gas. This segment also includes our natural gas marketing activities.
- Our Petrochemical & Refined Products Services business segment includes our (i) propylene production facilities, which include propylene fractionation units and a PDH facility, and related pipelines and marketing activities, (ii) butane isomerization complex and related deisobutanizer operations, (iii) octane enhancement, iBDH and HPIB production facilities, (iv) refined products pipelines, terminals and related marketing activities, (v) ethylene export terminal and related operations; and (vi) marine transportation business.

Segment Gross Operating Margin

We evaluate segment performance based on our financial measure of gross operating margin. Gross operating margin is an important performance measure of the core profitability of our operations and forms the basis of our internal financial reporting. We believe that investors benefit from having access to the same financial measures that our management uses in evaluating segment results. Gross operating margin is exclusive of other income and expense transactions, income taxes, the cumulative effect of changes in accounting principles and extraordinary charges. Gross operating margin is presented on a 100% basis before any allocation of earnings to noncontrolling interests. Our calculation of gross operating margin may or may not be comparable to similarly titled measures used by other companies.

The following table presents our measurement of total segment gross operating margin for the periods presented. The GAAP financial measure most directly comparable to total segment gross operating margin is operating income.

| | For the Three Months Ended September 30, | | | | For the Nine Months Ended September 30, | | | |
|--|---|-------|----|-------|--|----|-------|--|
| | 20 | 22 | | 2021 | 2022 | | 2021 | |
| Operating income | \$ | 1,712 | \$ | 1,513 | \$ 5,142 | \$ | 4,700 | |
| Adjustments to reconcile operating income to total segment gross operating margin (addition or subtraction indicated by sign): | | | | | | | | |
| Depreciation, amortization and accretion expense in operating costs and expenses (1) | | 524 | | 503 | 1,569 | | 1,498 | |
| Asset impairment charges in operating costs and expenses | | 29 | | 29 | 48 | | 113 | |
| Net losses (gains) attributable to asset sales and related matters in operating costs and expenses | | 1 | | (3) | 3 | | 8 | |
| General and administrative costs | | 55 | | 47 | 179 | | 155 | |
| Non-refundable payments received from shippers attributable to make-up rights (2) | | 39 | | 26 | 112 | | 67 | |
| Subsequent recognition of revenues attributable to make-up rights (3) | | (18) | | (35) | (63) | | (113) | |
| Total segment gross operating margin | \$ | 2,342 | \$ | 2,080 | \$ 6,990 | \$ | 6,428 | |

(1) Excludes amortization of major maintenance costs for reaction-based plants, which are a component of gross operating margin.

(2) Since make-up rights entail a future performance obligation by the pipeline to the shipper, these receipts are recorded as deferred revenue for GAAP purposes; however, these receipts are included in gross operating margin in the period of receipt since they are nonrefundable to the shipper.

(3) As deferred revenues attributable to make-up rights are subsequently recognized as revenue under GAAP, gross operating margin must be adjusted to remove such amounts to prevent duplication since the associated non-refundable payments were previously included in gross operating margin.

Gross operating margin by segment is calculated by subtracting segment operating costs and expenses from segment revenues, with both segment totals reflecting the adjustments noted in the preceding table, as applicable, and before the elimination of intercompany transactions. The following table presents gross operating margin by segment for the periods indicated:

| | For the Three Months Ended September 30, | | | | | For the Nine Months Ended September 30, | | | |
|---|--|-------|----|-------|----|---|----|-------|--|
| | 2022 | | | 2021 | | 2022 | | 2021 | |
| Gross operating margin by segment: | | | | | | | | | |
| NGL Pipelines & Services | \$ | 1,296 | \$ | 1,023 | \$ | 3,848 | \$ | 3,207 | |
| Crude Oil Pipelines & Services | | 415 | | 423 | | 1,237 | | 1,242 | |
| Natural Gas Pipelines & Services | | 278 | | 223 | | 727 | | 960 | |
| Petrochemical & Refined Products Services | | 353 | | 411 | | 1,178 | | 1,019 | |
| Total segment gross operating margin | \$ | 2,342 | \$ | 2,080 | \$ | 6,990 | \$ | 6,428 | |

Summarized Segment Financial Information

Information by business segment, together with reconciliations to amounts presented on, or included in, our Unaudited Condensed Statements of Consolidated Operations, is presented in the following table:

| | | Reportable Bus | siness Segments | | | |

| Operating costs and expenses: | | | | |
| Cost of sales | \$ 12,319 | \$ 8,113 | \$ 35,325 | \$ 21,216 |
| Other operating costs and expenses (1) | 926 | 758 | 2,567 | 2,175 |
| Depreciation, amortization and accretion | 537 | 512 | 1,607 | 1,517 |
| Asset impairment charges | 29 | 29 | 48 | 113 |
| Net losses (gains) attributable to asset sales and related matters | 1 | (3) | 3 | 8 |
| General and administrative costs | 55 | 47 | 179 | 155 |
| Total consolidated costs and expenses | \$ 13,867 | \$ 9,456 | \$ 39,729 | \$ 25,184 |

⁽¹⁾ Represents the cost of operating our plants, pipelines and other fixed assets excluding: depreciation, amortization and accretion charges; asset impairment charges; and net losses (gains) attributable to asset sales and related matters.

Fluctuations in our product sales revenues and cost of sales amounts are explained in large part by changes in energy commodity prices. In general, higher energy commodity prices result in an increase in our revenues attributable to product sales; however, these higher commodity prices would also be expected to increase the associated cost of sales as purchase costs are higher. The same type of relationship would be true in the case of lower energy commodity sales prices and purchase costs.

Note 11. Earnings Per Unit

The following table presents our calculation of basic and diluted earnings per common unit for the periods indicated:

| | | For the The Ended Sep | | | | For the Ni Ended Sep | |
|---|-----------|--------------------------|----|-------|----|-------------------------|-------------|
| | 2 | 022 | 2 | 2021 | | 2022 | 2021 |
| BASIC EARNINGS PER COMMON UNIT | | | | | | | |
| Net income attributable to common unitholders | \$ | 1,360 | \$ | 1,153 | \$ | 4,067 | \$ 3,606 |
| Earnings allocated to phantom unit awards (1) | | (11) | | (9) | | (34) | (29) |
| Net income allocated to common unitholders | \$ | 1,349 | \$ | 1,144 | \$ | 4,033 | \$ 3,577 |
| Basic weighted-average number of common units outstanding | | 2,179 | | 2,184 | | 2,179 | 2,184 |
| Basic earnings per common unit | \$ | 0.62 | \$ | 0.52 | \$ | 1.85 | \$ 1.64 |
| DILUTED EARNINGS PER COMMON UNIT | | | | | | | |
| Net income attributable to common unitholders | \$ | 1,360 | \$ | 1,153 | \$ | 4,067 | \$ 3,606 |
| Net income attributable to preferred units | | 1 | | 1 | | 3 | 3 |
| Net income attributable to limited partners | <u>\$</u> | 1,361 | \$ | 1,154 | \$ | 4,070 | \$ 3,609 |
| Diluted weighted-average number of units outstanding: | | | | | | | |
| Distribution-bearing common units | | 2,179 | | 2,184 | | 2,179 | 2,184 |
| Phantom units (2) | | 18 | | 18 | | 19 | 18 |
| Preferred units (2) | | 2 | | 2 | | 2 | 2 |
| Total | | 2,199 | | 2,204 | _ | 2,200 | 2,204 |
| Diluted earnings per common unit | <u>\$</u> | 0.62 | \$ | 0.52 | \$ | 1.85 | \$ 1.64 |

Note 12. Business Combinations

On February 17, 2022, an affiliate of Enterprise acquired all of the member interests in Navitas Midstream Partners, LLC ("Navitas Midstream") for \$3.2 billion in cash. We funded the cash consideration using proceeds from the issuance of short-term notes under EPO's commercial paper program and cash on hand.

Navitas Midstream's assets (the "Midland Basin System") include approximately 1,750 miles of pipelines and over 1.0 Bcf/d of cryogenic natural gas processing capacity. The acquired business expands our natural gas processing and NGL businesses to the Midland Basin in West Texas.

The acquisition of Navitas Midstream was accounted for under the acquisition method in accordance with ASC 805, Business Combinations. The preliminary allocation of purchase consideration was based upon the estimated fair value of the tangible and identifiable intangible assets acquired and liabilities assumed in the acquisition. The preliminary allocation was made to major categories of assets and liabilities based on management's best estimates and supported by an independent third-party analysis.

Phantom units are considered participating securities for purposes of computing basic earnings per unit. See Note 13 for information regarding the phantom units.

We use the "if-converted method" to determine the potential dilutive effect of the vesting of phantom unit awards and the conversion of preferred units outstanding. See Note 13 for information regarding phantom unit awards. See Note 8 for information regarding preferred units.

The following table presents the preliminary fair value allocation of assets acquired and liabilities assumed in the acquisition at February 17, 2022 (the effective date of the acquisition). The allocation is provisional and subject to ongoing efforts to clarify the values assigned to tangible and identifiable intangible assets.

| Purchase price for 100% interest in Navitas Midstream | \$ 3,231 |
|---|-------------|
| Recognized amounts of identifiable assets acquired and liabilities assumed: | |
| Cash and cash equivalents | \$ 27 |
| Property, plant and equipment | 2,080 |
| Contract-based intangible asset | 989 |
| Assumed liabilities, net of acquired other assets (1) | (24) |
| Total identifiable net assets | \$ 3,072 |
| Goodwill | \$ 159 |

⁽¹⁾ Assumed liabilities primarily include accounts payable, other current liabilities, lease liabilities and asset retirement obligations. Acquired other assets primarily include accounts receivable, other current assets and right-of-use ("ROU") assets. None of these amounts were considered individually significant.

The estimated fair value of the acquired property, plant and equipment was determined using the cost approach. The fair value of property, plant and equipment primarily consisted of personal property of \$1.6 billion, real property of \$250 million and construction in progress of \$175 million. See Note 4 for additional information regarding our property, plant and equipment.

The contract-based intangible asset represents the estimated value we assigned to the acquired long-term contracts with customers that dedicate future lease production to our system. The estimated fair value of the acquired contract-based intangible assets was determined using an income approach, specifically a discounted cash flow analysis. The fair value estimate incorporates Level 3 inputs including: (i) management's long-term forecast of cash flows generated by the Midland Basin System based on the estimated economic life of the hydrocarbon resource basin served and resource depletion rates; and (ii) a discount rate of 15.5%, which is based on a benchmarking analysis with reference to the implied rate of return on the Navitas Midstream acquisition and a market participant weighted average cost of capital. We will amortize the value assigned to this intangible asset using a units-of-production method. The estimated useful life of the acquired contract-based intangible asset is 30 years.

We recorded \$159 million of goodwill in connection with this transaction. In general, we attribute this goodwill to our ability to leverage the acquired business with our existing NGL asset base to create future business opportunities.

The financial results for the processing activities of the acquired business will continue to be reported under the NGL Pipelines & Services business segment and the gathering activities will continue to be reported under the Natural Gas Pipelines & Services business segment.

The contribution of this newly acquired business to our consolidated revenues and net income was not material during the three and nine months ended September 30, 2022. Additionally, acquisition related costs were not material during the three and nine months ended September 30, 2022.

On a historical pro forma basis, our revenues, costs and expenses, operating income, net income attributable to common unitholders and earnings per unit for the three and nine months ended September 30, 2022 and 2021 would not have differed materially from those we actually reported had the acquisition been completed on January 1, 2021 rather than February 17, 2022.

Note 13. Equity-Based Awards

An allocated portion of the fair value of EPCO's equity-based awards is charged to us under the ASA. The following table summarizes compensation expense we recognized in connection with equity-based awards for the periods indicated:

| | For the Thi Ended Sep | | | For the Nine Months Ended September 30, | | |
|---------------------------|--------------------------|----------|-----------|--|------|--|
| | 2022 | 2021 | 2022 | | 2021 | |
| Equity-classified awards: | | | | | | |
| Phantom unit awards | \$ 39 | \$ 35 | \$ 117 | \$ | 111 | |
| Profits interest awards | 1 | 1 | 3 | | 5 | |
| Total | \$ 40 | \$ 36 | \$ 120 | \$ | 116 | |

The fair value of equity-classified awards is amortized to earnings over the requisite service or vesting period. Equity-classified awards are expected to result in the issuance of the Partnership's common units upon vesting.

Phantom Unit Awards

Subject to customary forfeiture provisions, phantom unit awards allow recipients to acquire the Partnership's common units once a defined vesting period expires (at no cost to the recipient apart from fulfilling required service and other conditions). The following table presents phantom unit award activity for the period indicated:

| | Number of Units | Ave: Date | Veighted- crage Grant e Fair Value er Unit (1) |
|---|--------------------|--------------|---|
| Phantom unit awards at December 31, 2021 | 17,170,919 | \$ | 24.31 |
| Granted (2) | 7,968,880 | \$ | 24.11 |
| Vested | (6,419,005) | \$ | 25.11 |
| Forfeited | (469,864) | \$ | 23.92 |
| Phantom unit awards at September 30, 2022 | 18,250,930 | \$ | 23.95 |

(1) Determined by dividing the aggregate grant date fair value of awards (before an allowance for forfeitures) by the number of awards issued.

Each phantom unit award includes a DER, which entitles the participant to nonforfeitable cash payments equal to the product of the number of phantom unit awards outstanding for the participant and the cash distribution per common unit paid by the Partnership to its common unitholders. Cash payments made in connection with DERs are charged to partners' equity when the phantom unit award is expected to result in the issuance of common units; otherwise, such amounts are expensed.

The following table presents supplemental information regarding phantom unit awards for the periods indicated:

| | | For the Th Ended Sep | | | | For the Ni Ended Sep | | |
|--|----|-------------------------|----|---|----|-------------------------|------|-----|
| | 2 | 2022 2021 | | | | 2022 | 2021 | |
| Cash payments made in connection with DERs | \$ | 9 | \$ | 8 | \$ | 26 | \$ | 23 |
| Total intrinsic value of phantom unit awards that vested during period | | 6 | | 4 | | 155 | | 123 |

For the EPCO group of companies, the unrecognized compensation cost associated with phantom unit awards was \$193 million at September 30, 2022, of which our share of such cost is currently estimated to be \$158 million. Due to the graded vesting provisions of these awards, we expect to recognize our share of the unrecognized compensation cost for these awards over a weighted-average period of 2.0 years.

⁽²⁾ The aggregate grant date fair value of phantom unit awards issued during 2022 was \$192 million based on a grant date market price of the Partnership's common units ranging from \$24.10 to \$26.62 per unit. An estimated annual forfeiture rate of 2.0% was applied to these awards.

Profits Interest Awards

EPCO has two limited partnerships (referred to as "Employee Partnerships") that serve as long-term incentive arrangements for key employees of EPCO by providing them a profits interest in one or more of the Employee Partnerships. At September 30, 2022, our share of the total unrecognized compensation cost related to the Employee Partnerships was \$6 million, which we expect to recognize over a weighted-average period of 1.2 years.

Note 14. Hedging Activities and Fair Value Measurements

In the normal course of our business operations, we are exposed to certain risks, including changes in interest rates and commodity prices. In order to manage risks associated with assets, liabilities and certain anticipated future transactions, we use derivative instruments such as futures, forward contracts, swaps, options and other instruments with similar characteristics. Substantially all of our derivatives are used for non-trading activities.

Interest Rate Hedging Activities

We may utilize interest rate swaps, forward-starting swaps, options to enter into forward-starting swaps ("swaptions"), and similar derivative instruments to manage our exposure to changes in interest rates charged on borrowings under certain consolidated debt agreements. This strategy may be used in controlling our overall cost of capital associated with such borrowings.

We do not have any interest rate derivative instruments outstanding at September 30, 2022.

Commodity Hedging Activities

The prices of natural gas, NGLs, crude oil, petrochemicals and refined products are subject to fluctuations in response to changes in supply and demand, market conditions and a variety of additional factors that are beyond our control. In order to manage such price risks, we enter into commodity derivative instruments such as physical forward contracts, futures contracts, fixed-for-float swaps and basis swaps.

At September 30, 2022, our predominant commodity hedging strategies consisted of (i) hedging anticipated future purchases and sales of commodity products associated with transportation, storage and blending activities, (ii) hedging natural gas processing margins and (iii) hedging the fair value of commodity products held in inventory.

The following table summarizes our portfolio of commodity derivative instruments outstanding at September 30, 2022 (volume measures as noted):

| | Vol | ume (1) | Accounting |
|---|-------------|---------------|------------------------------------|
| Derivative Purpose | Current (2) | Long-Term (2) | Treatment |
| Derivatives designated as hedging instruments: | | | |
| Natural gas processing: | | | |
| Forecasted natural gas purchases for plant thermal reduction (billion cubic feet ("Bcf")) | 16.9 | 0.2 | Cash flow hedge |
| Forecasted sales of NGLs (MMBbls) | 0.4 | n/a | Cash flow hedge |
| Octane enhancement: | | | |
| Forecasted sales of octane enhancement products (MMBbls) | 22.3 | 1.2 | Cash flow hedge |
| Natural gas marketing: | | | |
| Natural gas storage inventory management activities (Bcf) | 3.5 | n/a | Fair value hedge |
| | | | |
| NGL marketing: Forecasted purchases of NGLs and related hydrocarbon products (MMBbls) | 142.4 | 10.4 | Cash flow hedge |
| Forecasted sales of NGLs and related hydrocarbon products (MMBbls) | 158.7 | 4.0 | Cash flow hedge |
| | 150.7 | | cush now neage |
| Refined products marketing: Forecasted purchases of refined products (MMBbls) | 0.2 | n/a | Cook flow hodge |
| Forecasted sales of refined products (MMBbls) | 0.2 | n/a | Cash flow hedge Cash flow hedge |
| * | 0.2 | II/a | Cash flow fleuge |
| Crude oil marketing: | | | |
| Forecasted purchases of crude oil (MMBbls) | 7.1 | 0.2 | Cash flow hedge |
| Forecasted sales of crude oil (MMBbls) | 4.5 | 0.1 | Cash flow hedge |
| Petrochemical marketing: | | | |
| Forecasted sales of petrochemical products (MMBbls) | 1.0 | n/a | Cash flow hedge |
| Commercial energy: | | | |
| Forecasted purchases of power related to asset operations (terawatt hours ("TWh")) | 1.3 | 3.3 | Cash flow hedge |
| erivatives not designated as hedging instruments: | | | |
| Natural gas risk management activities (Bcf) (3) | 20.1 | n/a | Mark-to-market |
| NGL risk management activities (MMBbls) (3) | 45.3 | 5.7 | Mark-to-market |
| Refined products risk management activities (MMBbls) (3) | 4.1 | n/a | Mark-to-market |
| Crude oil risk management activities (MMBbls) (3) | 25.6 | 3.6 | Mark-to-market |

⁽¹⁾ Volume for derivatives designated as hedging instruments reflects the total amount of volumes hedged whereas volume for derivatives not designated as hedging instruments reflects the absolute value of derivative notional volumes.

February 2023 and December 2024, respectively.
(3) Reflects the use of derivative instruments to manage risks associated with our transportation, processing and storage assets.

The carrying amount of our inventories subject to fair value hedges was \$20 million and \$102 million at September 30, 2022 and December 31, 2021, respectively.

⁽²⁾ The maximum term for derivatives designated as cash flow hedges, derivatives designated as fair value hedges and derivatives not designated as hedging instruments is December 2025, February 2023 and December 2024 respectively

Tabular Presentation of Fair Value Amounts, and Gains and Losses on Derivative Instruments and Related Hedged Items

The following table provides a balance sheet overview of our derivative assets and liabilities at the dates indicated:

| | | Asset De | erivatives | | | Liability Derivatives | | | | | | |
|---|--------------------------------|---------------|---|--------|-----|---|-------|------------------------------------|---------------------------------------|-------|---------------|--|
| | September | 30, 2022 | December | 31, 20 | 21 | September | 30, 2 | 022 | December | r 31, | 2021 | |

| Commodity derivatives | \$ | 256 | \$ | - | \$ | 256 | \$ | (233) | \$ | - | \$ | (17) | \$ | 6 |

Derivative assets and liabilities recorded on our Unaudited Condensed Consolidated Balance Sheets are presented on a gross-basis and determined at the individual transaction level. The tabular presentation above provides a means for comparing the gross amount of derivative assets and liabilities, excluding associated accounts payable and receivable, to the net amount that would likely be receivable or payable under a default scenario based on the existence of rights of offset in the respective derivative agreements. Any cash collateral paid or received is reflected in these tables, but only to the extent that it represents variation margins. Any amounts associated with derivative prepayments or initial margins that are not influenced by the derivative asset or liability amounts or those that are determined solely on their volumetric notional amounts are excluded from these tables.

The following tables present the effect of our derivative instruments designated as fair value hedges on our Unaudited Condensed Statements of Consolidated Operations for the periods indicated:

| Derivatives in Fair Value Hedging Relationships | | Location | Gain (Loss) Recognized in Income on Derivative | | | | | | | | | | |
|--|---------|----------|--|-------------------------|-------------------------|------------------------------|----|-------------------------|------|-------|--|--|--|
| | | | | For the Th Ended Se | ree Month otember 30 | | | For the Ni Ended Sep | | | | | |
| | | 2 | 022 | 2021 | | 2022 | | | 2021 | | | | |
| Commodity derivatives | Revenue | | \$ | 8 | \$ | (50) | \$ | (116) | \$ | (237) | | | |
| Total | | | <u>\$</u> | 8 | \$ | (50) | \$ | (116) | \$ | (237) | | | |
| Derivatives in Fair Value Hedging Relationships | | Location | | | | Gain (Loss) F Income on F | | | | | | | |
| | | | | For the Th Ended Sep | ree Month otember 30 | | | For the Ni Ended Sep | | | | | |
| | | | 2 | 022 | 2 | 2021 | | 2022 | | 2021 | | | |
| Commodity derivatives | Revenue | | \$ | 41 | \$ | 21 | \$ | 66 | \$ | 230 | | | |
| Total | | | \$ | 41 | \$ | 21 | \$ | 66 | \$ | 230 | | | |

The gain (loss) corresponding to the hedge ineffectiveness on the fair value hedges was negligible for all periods presented. The remaining gain (loss) for each period presented is primarily attributable to prompt-to-forward month price differentials that were excluded from the assessment of hedge effectiveness.

The following tables present the effect of our derivative instruments designated as cash flow hedges on our Unaudited Condensed Statements of Consolidated Operations and Unaudited Condensed Statements of Consolidated Comprehensive Income for the periods indicated:

| Derivatives in Cash Flow Hedging Relationships | | Oth | | nange in Value orehensive Inc | gnized in Loss) on Deriva | tive | | |
|--|--|-----|----|----------------------------------|--|------|-------------|--|
| | For the Three Months Ended September 30, | | | | For the Nine Months Ended September 30, | | | |
| | 2 | 022 | | 2021 | 2022 | 2021 | | |
| Interest rate derivatives | \$ | - | \$ | _ | \$ - | \$ | 183 | |
| Commodity derivatives – Revenue (1) | | 176 | | (110) | 78 | | (843) | |
| Commodity derivatives - Operating costs and expenses (1) | | 10 | | 10 | 48 | | <u>(9</u>) | |
| Total | \$ | 186 | \$ | (100) | \$ 126 | \$ | (669) | |

⁽¹⁾ The fair value of these derivative instruments will be reclassified to their respective locations on the Unaudited Condensed Statement of Consolidated Operations when the forecasted transactions affect earnings.

| Derivatives in Cash Flow Hedging Relationships | Location | Gain (Loss) Reclassified from Accumulated Other Comprehensive Income (Loss) to Income | | | | | | | | | |
|---|------------------------------|--|----|-------|----|------|----|--------------------|--|--|--|
| | | For the Three Months Ended September 30, | | | | | | Months iber 30, | | | |
| | | 2022 | | 2021 | | 2022 | | 2021 | | | |
| Interest rate derivatives | Interest expense | \$ (1) | \$ | (10) | \$ | (15) | \$ | (28) | | | |
| Commodity derivatives | Revenue | (35) | | (117) | | 12 | | (615) | | | |
| Commodity derivatives | Operating costs and expenses | 26 | | _ | | 42 | | (19) | | | |
| Total | | \$ (10) | \$ | (127) | \$ | 39 | \$ | (662) | | | |

Over the next twelve months, we expect to reclassify \$4 million of losses attributable to interest rate derivative instruments from accumulated other comprehensive loss to earnings as an increase in interest expense. Likewise, we expect to reclassify \$246 million of net gains attributable to commodity derivative instruments from accumulated other comprehensive income to earnings, with \$250 million as an increase in revenue and \$4 million as an increase in operating costs and expenses.

The following table presents the effect of our derivative instruments not designated as hedging instruments on our Unaudited Condensed Statements of Consolidated Operations for the periods indicated:

| Derivatives Not Designated as Hedging Instruments | Location | Gain (Loss) Recognized in Income on Derivative | | | | | | | | | |
|---|------------------------------|--|----|---------------------------------|------|----|------|-----|--|--|--|
| | | For the Thi Ended Sep | | For the Nine M Ended Septeml | | | | | | | |
| | | 2022 2021 | | | 2022 | | 2021 | | | | |
| Commodity derivatives | Revenue | \$ 32 | \$ | 108 | \$ | 77 | \$ | 144 | | | |
| Commodity derivatives | Operating costs and expenses | 7 | | 1 | | 14 | | 1 | | | |
| Total | | \$ 39 | \$ | 109 | \$ | 91 | \$ | 145 | | | |

The \$91 million net gain recognized for the nine months ended September 30, 2022 (as noted in the preceding table) from derivatives not designated as hedging instruments consists of \$107 million of net realized gains and \$16 million of net unrealized mark-to-market losses attributable to commodity derivatives.

Fair Value Measurements

The following tables set forth, by level within the Level 1, 2 and 3 fair value hierarchy, the carrying values of our financial assets and liabilities at the dates indicated. These assets and liabilities are measured on a recurring basis and are classified based on the lowest level of input used to estimate their fair value. Our assessment of the relative significance of such inputs requires judgment.

The values for commodity derivatives are presented before and after the application of Chicago Mercantile Exchange ("CME") Rule 814, which deems that financial instruments cleared by the CME are settled daily in connection with variation margin payments. As a result of this exchange rule, CME-related derivatives are considered to have no fair value at the balance sheet date for financial reporting purposes; however, the derivatives remain outstanding and subject to future commodity price fluctuations until they are settled in accordance with their contractual terms. Derivative transactions cleared on exchanges other than the CME (e.g., the Intercontinental Exchange or ICE) continue to be reported on a gross basis.

| Financial assets: | | | | | | | | |
| Commodity derivatives: | | | | | | | | |
| Value before application of CME Rule 814 | • | 122 \$ 1,110 | | \$ | 1,232 | | | |
| Impact of CME Rule 814 | () | 122) (871 | <u> </u> | | (993) | | | |
| Total commodity derivatives | | - 239 | _ | | 239 | | | |
| Total | <u>\$</u> | _ \$ 239 | <u> </u> | \$ | 239 | | | |
| Financial liabilities: | | | | | | | | |
| Commodity derivatives: | | | | | | | | |
| Value before application of CME Rule 814 | \$ | 199 \$ 1,001 | 1 \$ - | \$ | 1,200 | | | |
| Impact of CME Rule 814 | • | 199) (745 | | Ψ | (944) | | | |
| Total commodity derivatives | | - 256 | | | 256 | | | |
| Total | S | - \$ 256 | | S | 256 | | | |

In the aggregate, the fair value of our commodity hedging portfolios at September 30, 2022 was a net derivative asset of \$154 million prior to the impact of CME Rule 814.

Financial assets and liabilities recorded on the balance sheet at September 30, 2022 using significant unobservable inputs (Level 3) are not material to the Unaudited Condensed Consolidated Financial Statements.

Other Fair Value Information

The carrying amounts of cash and cash equivalents (including restricted cash balances), accounts receivable, commercial paper notes and accounts payable approximate their fair values based on their short-term nature. The estimated total fair value of our fixed-rate debt obligations was \$23.5 billion and \$33.5 billion at September 30, 2022 and December 31, 2021, respectively. The aggregate carrying value of these debt obligations was \$27.5 billion and \$29.6 billion at September 30, 2022 and December 31, 2021, respectively. These values are primarily based on quoted market prices for such debt or debt of similar terms and maturities (Level 2) and our credit standing. Changes in market rates of interest affect the fair value of our fixed-rate debt. The carrying values of our variable-rate long-term debt obligations approximate their fair values since the associated interest rates are market-based. We do not have any long-term investments in debt or equity securities recorded at fair value.

Note 15. Related Party Transactions

The following table summarizes our related party transactions for the periods indicated:

| | | For the Th Ended Sep | | | For the Ni Ended Sep | | |
|--|---------|-------------------------|----|-----------|-------------------------|-------|-------------|
| | 2022 20 | | | 2021 2022 | | | 2021 |
| Revenues – related parties: | | | | | | | |
| Unconsolidated affiliates | \$ | 20 | \$ | 31 | \$ | 55 | \$ 54 |
| Costs and expenses – related parties: | | | | | | | |
| EPCO and its privately held affiliates | \$ | 334 | \$ | 288 | \$ | 940 | \$ 863 |
| Unconsolidated affiliates | | 55 | | 84 | | 176 | 201 |
| Total | \$ | 389 | \$ | 372 | \$ | 1,116 | \$ 1,064 |

The following table summarizes our related party accounts receivable and accounts payable balances at the dates indicated:

| | mber 30, 022 | ember 31, 2021 |
|--|-----------------|-------------------|
| Accounts receivable - related parties: | | |
| EPCO and its privately held affiliates | \$ 1 | \$ 1 |
| Unconsolidated affiliates | 28 | 20 |
| Total | \$ 29 | \$ 21 |
| | | |
| Accounts payable - related parties: | | |
| EPCO and its privately held affiliates | \$ 144 | \$ 151 |
| Unconsolidated affiliates | 11 | 16 |
| Total | \$ 155 | \$ 167 |

We believe that the terms and provisions of our related party agreements are fair to us; however, such agreements and transactions may not be as favorable to us as we could have obtained from unaffiliated third parties.

Relationship with EPCO and Affiliates

We have an extensive and ongoing relationship with EPCO and its privately held affiliates (including Enterprise GP, our general partner), which are not a part of our consolidated group of companies.

At September 30, 2022, EPCO and its privately held affiliates (including Dan Duncan LLC and certain Duncan family trusts) beneficially owned the following limited partner interests in us:

| | Common Units |
|--|--------------|
| Total Number of Limited Partner Interests Held | Outstanding |
| 702,397,405 common units | 32.3% |
| | |

Of the total number of Partnership common units held by EPCO and its privately held affiliates, 92,976,464 have been pledged as security under the separate credit facilities of EPCO and its privately held affiliates at September 30, 2022. These credit facilities contain customary and other events of default, including defaults by us and other affiliates of EPCO. An event of default, followed by a foreclosure on the pledged collateral, could ultimately result in a change in ownership of these units and affect the market price of the Partnership's common units.

The Partnership and Enterprise GP are both separate legal entities apart from each other and apart from EPCO and its other affiliates, with assets and liabilities that are also separate from those of EPCO and its other affiliates. EPCO and its privately held affiliates use cash on hand and cash distributions they receive from us and other investments to fund their other activities and to meet their respective debt obligations, if any. During the nine months ended September 30, 2022 and 2021, we paid EPCO and its privately held affiliates cash distributions totaling \$955 million and \$918 million, respectively.

We have no employees. All of our administrative and operating functions are provided either by employees of EPCO (pursuant to the ASA) or by other service providers. We and our general partner are parties to the ASA. The following table presents our related party costs and expenses attributable to the ASA with EPCO for the periods indicated:

| | For the Three Months Ended September 30, | | | | | For the Nine Montl Ended September 3 | | | |
|-------------------------------------|---|------|------|-----|------|---|----|------|--|
| | | 2022 | 2021 | | 2022 | | | 2021 | |
| Operating costs and expenses | \$ | 295 | \$ | 253 | \$ | 821 | \$ | 755 | |
| General and administrative expenses | | 34 | | 34 | | 106 | | 98 | |
| Total costs and expenses | \$ | 329 | \$ | 287 | \$ | 927 | \$ | 853 | |

We lease office space from privately held affiliates of EPCO at rental rates that approximate market rates. For each of the three months ended September 30, 2022 and 2021, we recognized \$3 million of related party operating lease expense in connection with these office space leases. For each of the nine months ended September 30, 2022 and 2021, we recognized \$10 million of related party operating lease expense in connection with these office space leases.

Note 16. Income Taxes

The following table presents the components of our consolidated provision for income taxes for the periods indicated (dollars in millions):

| | For the Thi Ended Sep | | | | onths er 30, | | |
|---|--------------------------|------|------|------|-----------------|----|----------|
| | 2022 | 2021 | | 2022 | | | 2021 |
| Deferred tax expense attributable to OTA Holdings, Inc. ("OTA") | \$ (7) | \$ | (7) | \$ | (21) | \$ | (20) |
| Revised Texas Franchise Tax ("Texas Margin Tax") | (10) | | (10) | | (29) | | (37) |
| Other | (1) | | 1 | | (4) | | <u> </u> |
| Provision for income taxes | \$ (18) | \$ | (16) | \$ | (54) | \$ | (57) |

Our federal, state and foreign income tax benefit (provision) is summarized below:

| | | For the Nine Months Ended September 30, | | | | | | |
|---|------|--|----|------|------|-------------|----|------|
| | 2022 | | 20 | 021 | 2022 | | 2 | 021 |
| Current portion of income tax benefit (provision): | | | | | | | | |
| Federal | \$ | (1) | \$ | 1 | \$ | (1) | \$ | 2 |
| State | | (9) | | (8) | | (26) | | (25) |
| Foreign | | | | | | (3) | | (1) |
| Total current portion | | (10) | | (7) | | (30) | | (24) |
| Deferred portion of income tax benefit (provision): | | | | | | | | |
| Federal | | (6) | | (7) | | (19) | | (19) |
| State | | (2) | | (2) | | <u>(5</u>) | | (14) |
| Total deferred portion | | (8) | | (9) | | (24) | _ | (33) |
| Total provision for income taxes | \$ | (18) | \$ | (16) | \$ | (54) | \$ | (57) |

A reconciliation of the provision for income taxes with amounts determined by applying the statutory U.S. federal income tax rate to income before income taxes is as follows:

| | For the Three Months Ended September 30, | | | | | For the Nin Ended Sept | |
|---|--|--------|----|--------|----|---------------------------|-------------|
| | 2022 | | | 2021 | | 2022 | 2021 |
| Pre-Tax Net Book Income ("NBI") | \$ | 1,410 | \$ | 1,198 | \$ | 4,217 | \$ 3,748 |
| | | | | | | | |
| Texas Margin Tax (1) | | (10) | | (10) | | (29) | (37) |
| State income tax provision, net of federal benefit Federal income tax provision computed by applying | | - | | _ | | (1) | (1) |
| Federal income tax provision computed by applying the federal statutory rate to NBI of corporate entities | | (4) | | (3) | | (11) | (10) |
| Valuation allowance (2) | | (3) | | (3) | | (10) | (9) |
| Other | | (1) | | | | (3) | <u> </u> |
| Provision for income taxes | \$ | (18) | \$ | (16) | \$ | (54) | \$ (57) |
| | | | | | | | |
| Effective income tax rate | | (1.3)% | | (1.3)% | | (1.3)% | (1.5)% |

Although the Texas Margin Tax is not considered a state income tax, it has the characteristics of an income tax since it is determined by applying a tax rate to a base that considers our Texas-sourced revenues and expenses.

The following table presents the significant components of deferred tax assets and deferred tax liabilities at the dates indicated:

| | September 30, 2022 | | December 31, 2021 |
|---|-----------------------|-----|----------------------|
| Deferred tax liabilities: | | | |
| Attributable to investment in OTA | \$ | 405 | \$ 384 |
| Attributable to property, plant and equipment | | 122 | 118 |
| Attributable to investments in other entities | | 6 | 5 |
| Other | | 36 | 14 |
| Total deferred tax liabilities | | 569 | 521 |
| Deferred tax assets: | | | |
| Net operating loss carryovers (1) | | 10 | 14 |
| Temporary differences related to Texas Margin Tax | | 4 | 3 |
| Total deferred tax assets | | 14 | 17 |
| Valuation allowance | | 10 | 14 |
| Total deferred tax assets, net of valuation allowance | | 4 | 3 |
| Total net deferred tax liabilities | \$ | 565 | \$ 518 |

The loss amount presented as of September 30, 2022 has an indefinite carryover period. All losses are subject to limitations on their utilization.

Management believes that it is more likely than not that the net deferred tax assets attributable to OTA will not be fully realizable. Accordingly, we provided for a valuation allowance against OTA's net deferred tax assets.

ENTERPRISE PRODUCTS PARTNERS L.P. NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 17. Commitments and Contingent Liabilities

Litigation

As part of our normal business activities, we may be named as defendants in legal proceedings, including those arising from regulatory and environmental matters. Although we are insured against various risks to the extent we believe it is prudent, there is no assurance that the nature and amount of such insurance will be adequate, in every case, to fully indemnify us against losses arising from future legal proceedings. We will vigorously defend the Partnership in litigation matters.

There were no accruals for litigation contingencies at September 30, 2022. Our accruals for litigation contingencies were immaterial at December 31, 2021. We have classified our accruals for litigation contingencies in our Unaudited Condensed Consolidated Balance Sheets as a component of "Other current liabilities" or "Other long-term liabilities" based on management's estimate regarding the timing of settlement.

PDH 1 Litigation

In July 2013, we executed a contract with Foster Wheeler USA Corporation ("Foster Wheeler") pursuant to which Foster Wheeler was to serve as the general contractor responsible for the engineering, procurement, construction and installation of our first propane dehydrogenation facility ("PDH 1"). In November 2014, Foster Wheeler was acquired by an affiliate of AMEC plc to form Amec Foster Wheeler plc, and Foster Wheeler is now known as Amec Foster Wheeler USA Corporation ("AFW"). In December 2015, Enterprise and AFW entered into a transition services agreement under which AFW was partially terminated from the PDH 1 project. In December 2015, Enterprise engaged a second contractor, Optimized Process Designs LLC, to complete the construction and installation of PDH 1.

On September 2, 2016, we terminated AFW for cause and filed a lawsuit in the 151st Judicial Civil District Court of Harris County, Texas against AFW and its parent company, Amec Foster Wheeler plc, asserting claims for breach of contract, breach of warranty, fraudulent inducement, string-along fraud, gross negligence, professional negligence, negligent misrepresentation and attorneys' fees. Trial for the case began on April 19, 2022, and closing arguments were completed on July 22, 2022. We intend to diligently prosecute these claims and seek all direct, consequential, and exemplary damages to which we may be entitled.

Contractual Obligations

Scheduled Maturities of Debt

We have long-term and short-term payment obligations under debt agreements. In total, the principal amount of our consolidated debt obligations were \$29.5 billion and \$29.8 billion at September 30, 2022 and December 31, 2021, respectively. See Note 7 for additional information regarding our scheduled future maturities of debt principal.

ENTERPRISE PRODUCTS PARTNERS L.P. NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Lease Accounting Matters

There has been no significant change in our operating lease obligations since those disclosed in the 2021 Form 10-K.

The following table presents information regarding operating leases where we are the lessee at September 30, 2022:

| Asset Category | ROU Asset Carrying Value (1) | | Lease Liability Carrying Value (2) | Weighted- Average Remaining Term | Weighted- Average Discount Rate (3) |
|---------------------------------|---------------------------------------|--------|---|---|--|
| Storage and pipeline facilities | \$ | 194 \$ | 195 | 10 years | 3.6% |
| Transportation equipment | | 16 | 17 | 3 years | 3.1% |
| Office and warehouse space | | 159 | 192 | 14 years | 2.9% |
| Total | \$ | 369 \$ | 404 | | |

ROU asset amounts are a component of "Other assets" on our Unaudited Condensed Consolidated Balance Sheet.

The following table disaggregates our total operating lease expense for the periods indicated:

| | | For the Th Ended Sep | | | onths er 30, | | | |
|---|------|-------------------------|----|------|-----------------|------|------|----|
| | 2022 | | | 2021 | | 2022 | 2021 | |
| Long-term operating leases: | | | | | | | | |
| Fixed lease expense: | | | | | | | | |
| Non-cash lease expense (amortization of ROU assets) | \$ | 16 | \$ | 10 | \$ | 43 | \$ | 29 |
| Related accretion expense on lease liability balances | | 3 | | 4 | | 9 | | 10 |
| Total fixed lease expense | | 19 | | 14 | | 52 | | 39 |
| Variable lease expense | | 3 | | | | 4 | | 1 |
| Subtotal operating lease expense | | 22 | | 14 | | 56 | | 40 |
| Short-term operating leases | | 25 | | 15 | | 65 | | 41 |
| Total operating lease expense | \$ | 47 | \$ | 29 | \$ | 121 | \$ | 81 |

Cash payments attributable to operating lease liabilities were \$19 million and \$11 million for the three months ended September 30, 2022 and 2021, respectively. For the nine months ended September 30, 2022 and 2021, cash paid for operating lease liabilities was \$47 million and \$29 million, respectively.

Operating lease income for the three months ended September 30, 2022 and 2021 was \$4 million and \$3 million, respectively. For the nine months ended September 30, 2022 and 2021, operating lease income was \$10 million and \$9 million, respectively.

Purchase Obligations

Our consolidated purchase obligations at September 30, 2022 did not differ materially from those reported in our 2021 Form 10-K.

At September 30, 2022, lease liabilities of \$60 million and \$344 million were included within "Other current liabilities" and "Other long-term liabilities," respectively.

The discount rate for each category of assets represents the weighted average of either (i) the implicit rate applicable to the underlying leases (where determinable) or (ii) our incremental borrowing rate adjusted for collateralization (if the implicit rate is not determinable). In general, the discount rates are based on either information available at the lease commencement date or January 1, 2019 for leases existing at the adoption date for ASC 842, Leases.

ENTERPRISE PRODUCTS PARTNERS L.P. NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 18. Supplemental Cash Flow Information

The following table provides information regarding the net effect of changes in our operating accounts and cash payments for interest and income taxes for the periods indicated:

| | | Nine Months eptember 30, |
|---|-----------------|--------------------------|
| | 2022 | 2021 |
| Decrease (increase) in: | | |
| Accounts receivable – trade | \$ 365 | \$ (1,541) |
| Accounts receivable – related parties | (9 |) 2 |
| Inventories | (475) | 520 |
| Prepaid and other current assets | 272 | 410 |
| Other assets | 54 | 103 |
| Increase (decrease) in: | | |
| Accounts payable – trade | (134 |) 36 |
| Accounts payable – related parties | (12 |) (25) |
| Accrued product payables | (216) | 2,502 |
| Accrued interest | (233 | (230) |
| Other current liabilities | (220) | (696) |
| Other long-term liabilities | (74 | (34) |
| Net effect of changes in operating accounts | \$ (682 |) \$ 1,047 |
| Cash payments for interest, net of \$60 and \$64 capitalized during the nine months ended September 30, 2022 and 2021, respectively | <u>\$ 1,141</u> | \$ 1,144 |
| Cash payments for federal and state income taxes | <u>\$</u> _ | <u>\$ 17</u> |

We incurred liabilities for construction in progress that had not been paid at September 30, 2022 and December 31, 2021 of \$236 million and \$183 million, respectively. Such amounts are not included under the caption "Capital expenditures" on the Unaudited Condensed Statements of Consolidated Cash Flows.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

For the Three and Nine Months Ended September 30, 2022 and 2021

The following information should be read in conjunction with our Unaudited Condensed Consolidated Financial Statements and accompanying Notes included in this quarterly report on Form 10-Q and the Audited Consolidated Financial Statements and related Notes, together with our discussion and analysis of financial position and results of operations, included in our annual report on Form 10-K for the year ended December 31, 2021 (the "2021 Form 10-K"), as filed on February 28, 2022 with the U.S. Securities and Exchange Commission ("SEC"). Our financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") in the United States ("U.S.").

Cautionary Statement Regarding Forward-Looking Information

This quarterly report on Form 10-Q for the nine months ended September 30, 2022 (our "quarterly report") contains various forward-looking statements and information that are based on our beliefs and those of our general partner, as well as assumptions made by us and information currently available to us. When used in this document, words such as "anticipate," "project," "expect," "plan," "seek," "goal," "estimate," "forecast," "intend," "could," "should," "would," "will," "believe," "may," "scheduled," "pending," "potential" and similar expressions and statements regarding our plans and objectives for future operations are intended to identify forward-looking statements. Although we and our general partner believe that our expectations reflected in such forward-looking statements (including any forward-looking statements/expectations of third parties referenced in this quarterly report) are reasonable, neither we nor our general partner can give any assurances that such expectations will prove to be correct.

Forward-looking statements are subject to a variety of risks, uncertainties and assumptions as described in more detail under Part I, Item 1A of our 2021 Form 10-K and within Part II, Item 1A of this quarterly report. If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, our actual results may vary materially from those anticipated, estimated, projected or expected. You should not put undue reliance on any forward-looking statements. The forward-looking statements in this quarterly report speak only as of the date hereof. Except as required by federal and state securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or any other reason.

Key References Used in this Management's Discussion and Analysis

Unless the context requires otherwise, references to "we," "us" or "our" within this quarterly report are intended to mean the business and operations of Enterprise Products Partners L.P. and its consolidated subsidiaries.

References to the "Partnership" or "Enterprise" mean Enterprise Products Partners L.P. on a standalone basis.

References to "EPO" mean Enterprise Products Operating LLC, which is an indirect wholly owned subsidiary of the Partnership, and its consolidated subsidiaries, through which the Partnership conducts its business. We are managed by our general partner, Enterprise Products Holdings LLC ("Enterprise GP"), which is a wholly owned subsidiary of Dan Duncan LLC, a privately held Texas limited liability company.

The membership interests of Dan Duncan LLC are owned by a voting trust, the current trustees ("DD LLC Trustees") of which are: (i) Randa Duncan Williams, who is also a director and Chairman of the Board of Directors (the "Board") of Enterprise GP; (ii) Richard H. Bachmann, who is also a director and Vice Chairman of the Board of Enterprise GP; and (iii) W. Randall Fowler, who is also a director and the Co-Chief Executive Officer and Chief Financial Officer of Enterprise GP. Ms. Duncan Williams and Messrs. Bachmann and Fowler also currently serve as managers of Dan Duncan LLC.

References to "EPCO" mean Enterprise Products Company, a privately held Texas corporation, and its privately held affiliates. The outstanding voting capital stock of EPCO is owned by a voting trust, the current trustees ("EPCO Trustees") of which are: (i) Ms. Duncan Williams, who serves as Chairman of EPCO; (ii) Mr. Bachmann, who serves as the President and Chief Executive Officer of EPCO; and (iii) Mr. Fowler, who serves as an Executive Vice President and the Chief Financial Officer of EPCO. Ms. Duncan Williams and Messrs. Bachmann and Fowler also currently serve as directors of EPCO.

We, Enterprise GP, EPCO and Dan Duncan LLC are affiliates under the collective common control of the DD LLC Trustees and the EPCO Trustees. EPCO, together with its privately held affiliates, owned approximately 32.3% of the Partnership's common units outstanding at September 30, 2022.

As generally used in the energy industry and in this quarterly report, the acronyms below have the following meanings:

| /d | = | per day | MMBPD | = | million barrels per day |
|--------|---|-------------------------------|--------|---|--------------------------------|
| BBtus | = | billion British thermal units | MMBtus | = | million British thermal units |
| Bcf | = | billion cubic feet | MMcf | = | million cubic feet |
| BPD | = | barrels per day | MWac | = | megawatts, alternating current |
| MBPD | = | thousand barrels per day | MWdc | = | megawatts, direct current |
| MMBbls | = | million barrels | TBtus | = | trillion British thermal units |

As used in this quarterly report, the phrase "quarter-to-quarter" means the third quarter of 2022 compared to the third quarter of 2021. Likewise, the phrase "period-to-period" means the nine months ended September 30, 2022 compared to the nine months ended September 30, 2021.

Overview of Business

We are a publicly traded Delaware limited partnership, the common units of which are listed on the New York Stock Exchange ("NYSE") under the ticker symbol "EPD." Our preferred units are not publicly traded. We were formed in April 1998 to own and operate certain natural gas liquids ("NGLs") related businesses of EPCO and are a leading North American provider of midstream energy services to producers and consumers of natural gas, NGLs, crude oil, petrochemicals and refined products. We are owned by our limited partners (preferred and common unitholders) from an economic perspective. Enterprise GP, which owns a non-economic general partner interest in us, manages our Partnership. We conduct substantially all of our business operations through EPO and its consolidated subsidiaries.

Our fully integrated, midstream energy asset network (or "value chain") links producers of natural gas, NGLs and crude oil from some of the largest supply basins in the U.S., Canada and the Gulf of Mexico with domestic consumers and international markets. Our midstream energy operations include:

- natural gas gathering, treating, processing, transportation and storage;
- · NGL transportation, fractionation, storage, and marine terminals (including those used to export liquefied petroleum gases ("LPG") and ethane);
- · crude oil gathering, transportation, storage, and marine terminals;
- propylene production facilities (including propane dehydrogenation ("PDH") facilities), butane isomerization, octane enhancement, isobutane dehydrogenation ("iBDH") and high purity isobutylene ("HPIB") production facilities;
- petrochemical and refined products transportation, storage, and marine terminals (including those used to export ethylene and polymer grade propylene ("PGP")); and
- a marine transportation business that operates on key U.S. inland and intracoastal waterway systems.

The safe operation of our assets is a top priority. We are committed to protecting the environment and the health and safety of the public and those working on our behalf by conducting our business activities in a safe and environmentally responsible manner. For additional information, see "Environmental, Safety and Conservation" within the Regulatory Matters section of Part I, Items 1 and 2 of the 2021 Form 10-K.

Like many publicly traded partnerships, we have no employees. All of our management, administrative and operating functions are performed by employees of EPCO pursuant to an administrative services agreement (the "ASA") or by other service providers.

Our financial position, results of operations and cash flows are subject to certain risks. For information regarding such risks, see "Risk Factors" included under Part I, Item 1A of the 2021 Form 10-K and Part II, Item 1A of this quarterly report.

We provide investors access to additional information regarding the Partnership and our consolidated businesses, including information relating to governance procedures and principles, through our website, <u>www.enterpriseproducts.com</u>.

Recent Developments

Enterprise Announces Three Expansions in the Permian Basin

In August 2022, we announced three new projects to support ongoing production growth in the Permian Basin. The announcement included the following projects (including their respective scheduled completion dates):

- our Plant 7 natural gas processing plant in the Midland Basin (first quarter of 2024);
- our Mentone III natural gas processing plant in the Delaware Basin (first quarter of 2024); and
- a 275 MBPD expansion of our Shin Oak NGL Pipeline (first half of 2025).

Enterprise and OLCV Sign Letter of Intent for Gulf Coast CO₂ Transportation and Sequestration Project

In April 2022, Enterprise and Oxy Low Carbon Ventures, LLC ("OLCV"), a subsidiary of Occidental, announced that we have executed a letter of intent to work toward a potential carbon dioxide ("CO₂") transportation and sequestration solution for the Texas Gulf Coast. The joint project would initially be focused on providing services to emitters in the industrial corridors from the greater Houston to Beaumont/Port Arthur areas. The initiative would combine Enterprise's leadership position in the midstream energy sector with OLCV's extensive experience in subsurface characterization and CO₂ sequestration.

Enterprise would develop the CO₂ aggregation and transportation network utilizing a combination of new and existing pipelines along its expansive Gulf Coast footprint. OLCV, through its 1PointFive business unit, is developing sequestration hubs on the Gulf Coast and across the U.S., some of which are expected to be anchored by direct air capture facilities. The hubs will provide access to high quality pore space and efficient transportation infrastructure, bringing more options to emitters looking to explore viable carbon management strategies. Enterprise and OLCV have begun exploring the commercialization of the potential joint service offering with customers.

Enterprise Announces Seven New Projects During Analyst and Investor Day

On April 12, 2022, Enterprise hosted a meeting with securities analysts and investors where we announced seven new projects that we expect will be completed by 2025. The announced projects included the following (including their respective scheduled completion dates):

- a 400 MMcf/d expansion of our Acadian Gas System (second quarter of 2023);
- our Plant 6 natural gas processing plant in the Midland Basin (second quarter of 2023);
- a twelfth NGL fractionator ("Frac XII") in Chambers County, Texas (third quarter of 2023);
- our Mentone II natural gas processing plant in the Delaware Basin (fourth quarter of 2023);
- our Texas Western Products System, created by repurposing a portion of our Mid-America Pipeline System's Rocky Mountain segment and adding westbound service to our Chaparral Pipeline business to transport refined products from the U.S. Gulf Coast to markets in West Texas, New Mexico, Colorado and Utah (fourth quarter of 2023);
- an Ethane Terminal located along the coast between Corpus Christi, Texas and New Orleans, Louisiana (2025); and
- an expansion of our Morgan's Point terminal to increase ethylene export capacity (2023 and 2025).

Enterprise Announces Acquisition of Navitas Midstream

In January 2022, we announced that an affiliate of Enterprise entered into a definitive agreement to acquire Navitas Midstream Partners, LLC ("Navitas Midstream") from an affiliate of Warburg Pincus LLC in a debt-free transaction for \$3.25 billion in cash consideration (subject to adjustment in accordance with the agreement). Navitas Midstream's assets include approximately 1,750 miles of pipelines and over 1.0 Bcf/d of cryogenic natural gas processing capacity. The purchase price was paid in cash at closing on February 17, 2022. We funded the cash consideration for this acquisition using proceeds from the issuance of short-term notes under EPO's commercial paper program and cash on hand. See Note 12 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report for additional information regarding this acquisition.

Selected Energy Commodity Price Data

The following table presents selected average index prices for natural gas and selected NGL and petrochemical products for the periods indicated:

| | Natural Gas, \$/MMBtu | Ethane, \$/gallon | Propane, \$/gallon | Normal Butane, \$/gallon | Isobutane, \$/gallon | Natural Gasoline, \$/gallon | Polymer Grade Propylene, \$/pound | Refinery Grade Propylene, \$/pound | Indicative Gas Processing Gross Spread \$/gallon |
|------------------|-----------------------------|----------------------|-----------------------|--------------------------------|-------------------------|-----------------------------------|--|---|--|
| | (1) | (2) | (2) | (2) | (2) | (2) | (3) | (3) | (4) |
| 2021 by quarter: | | | | | | | | | |
| 1st Quarter | \$2.71 | \$0.24 | \$0.89 | \$0.94 | \$0.93 | \$1.33 | \$0.73 | \$0.44 | \$0.38 |
| 2nd Quarter | \$2.83 | \$0.26 | \$0.87 | \$0.97 | \$0.98 | \$1.46 | \$0.67 | \$0.27 | \$0.41 |
| 3rd Quarter | \$4.02 | \$0.35 | \$1.16 | \$1.34 | \$1.34 | \$1.62 | \$0.82 | \$0.36 | \$0.51 |
| 4th Quarter | \$5.84 | \$0.39 | \$1.24 | \$1.46 | \$1.46 | \$1.82 | \$0.66 | \$0.33 | \$0.41 |
| 2021 Averages | \$3.85 | \$0.31 | \$1.04 | \$1.18 | \$1.18 | \$1.56 | \$0.72 | \$0.35 | \$0.43 |
| | | | | | | | | | |
| 2022 by quarter: | | | | | | | | | |
| 1st Quarter | \$4.96 | \$0.40 | \$1.30 | \$1.59 | \$1.60 | \$2.21 | \$0.63 | \$0.39 | \$0.55 |
| 2nd Quarter | \$7.17 | \$0.59 | \$1.24 | \$1.50 | \$1.68 | \$2.17 | \$0.61 | \$0.40 | \$0.46 |
| 3rd Quarter | \$8.20 | \$0.55 | \$1.08 | \$1.19 | \$1.44 | \$1.72 | \$0.47 | \$0.28 | \$0.26 |
| 2022 Averages | \$6.78 | \$0.51 | \$1.21 | \$1.43 | \$1.57 | \$2.03 | \$0.57 | \$0.36 | \$0.42 |

Polymer grade propylene prices represent average contract pricing for such product as reported by IHS. Refinery grade propylene ("RGP") prices represent weighted-average spot prices (3) for such product as reported by IHS.

The weighted-average indicative market price for NGLs was \$0.95 per gallon in the third quarter of 2022 versus \$0.84 per gallon in the third quarter of 2021. Likewise, the weighted-average indicative market price for NGLs was \$0.99 per gallon during the nine months ended September 30, 2022 compared to \$0.70 per gallon during the same period in 2021.

The following table presents selected average index prices for crude oil for the periods indicated:

| | WTI Crude Oil, \$/barrel | Midland Crude Oil, \$/barrel | Houston Crude Oil \$/barrel | LLS Crude Oil, \$/barrel |
|------------------|--------------------------------|------------------------------------|-----------------------------------|--------------------------------|
| | (1) | (2) | (2) | (3) |
| 2021 by quarter: | | | | |
| 1st Quarter | \$57.84 | \$59.00 | \$59.51 | \$59.99 |
| 2nd Quarter | \$66.07 | \$66.41 | \$66.90 | \$67.95 |
| 3rd Quarter | \$70.56 | \$70.74 | \$71.17 | \$71.51 |
| 4th Quarter | \$77.19 | \$77.82 | \$78.27 | \$78.41 |
| 2021 Averages | \$67.92 | \$68.49 | \$68.96 | \$69.47 |
| 2022 by quarter: | | | | |
| 1st Quarter | \$94.29 | \$96.43 | \$96.77 | \$96.77 |
| 2nd Quarter | \$108.41 | \$109.66 | \$109.96 | \$110.17 |
| 3rd Quarter | \$91.56 | \$93.41 | \$93.77 | \$94.17 |
| 2022 Averages | \$98.09 | \$99.83 | \$100.17 | \$100.37 |

WTI prices are based on commercial index prices at Cushing, Oklahoma as measured by the NYMEX. Midland and Houston crude oil prices are based on commercial index prices as reported by Argus.

Natural gas prices are based on Henry-Hub Inside FERC commercial index prices as reported by Platts, which is a division of S&P Global, Inc.
NGL prices for ethane, propane, normal butane, isobutane and natural gasoline are based on Mont Belvieu, Texas Non-TET commercial index prices as reported by Oil Price Information Service by IHS Markit ("IHS").

The "Indicative Gas Processing Gross Spread" represents our generic estimate of the gross economic benefit from extracting NGLs from natural gas production based on certain pricing assumptions. Specifically, it is the amount by which the assumed economic value of a composite gallon of NGLs in Chambers County, Texas exceeds the value of the equivalent amount of energy in natural gas at Henry Hub, Louisiana. Our estimate of the indicative spread does not consider the operating costs incurred by a natural gas processing facility to extract the NGLs nor the transportation and fractionation costs to deliver the NGLs to market. In addition, the actual gas processing spread earned at each plant is further influenced by regional pricing and extraction dynamics.

Light Louisiana Sweet ("LLS") prices are based on commercial index prices as reported by Platts.

Fluctuations in our consolidated revenues and cost of sales amounts are explained in large part by changes in energy commodity prices. An increase in our consolidated marketing revenues due to higher energy commodity sales prices may not result in an increase in gross operating margin or cash available for distribution, since our consolidated cost of sales amounts would also be expected to increase due to comparable increases in the purchase prices of the underlying energy commodities. The same type of relationship would be true in the case of lower energy commodity sales prices and purchase costs.

We attempt to mitigate commodity price exposure through our hedging activities and the use of fee-based arrangements. See Note 14 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report and "Quantitative and Qualitative Disclosures About Market Risk" under Part I, Item 3 of this quarterly report for information regarding our commodity hedging activities.

Impact of Inflation

After being relatively moderate in recent years, inflation in the United States increased significantly in late 2021 into 2022. This rise in inflation, coupled with supply chain disruptions, labor shortages and increased commodity prices, has generally resulted in higher costs in 2022. However, to the extent that a rising cost environment impacts our results, there are typically offsetting benefits either inherent in our business or that result from other steps we take proactively to reduce the impact of inflation on our net operating results. These benefits include: (1) provisions included in our long-term fee-based revenue contracts that offset cost increases in the form of rate escalations based on positive changes in the U.S. Consumer Price Index, Producer Price Index for Finished Goods or other factors; (2) provisions in other revenue contracts that enable us to pass through higher energy costs to customers in the form of gas, electricity and fuel rebills or surcharges; and (3) higher commodity prices, which generally enhance our results in the form of increased volumetric throughput and demand for our services. Additionally, we take measures to mitigate the impact of cost increases in certain commodities, including a portion of our electricity needs, using fixed-price, term purchase agreements. For these reasons, the increased cost environment, caused in part by inflation, has not had a material impact on our historical results of operations for the periods presented in this report. However, a significant or prolonged period of high inflation could adversely impact our results if costs were to increase at a rate greater than the increase in the revenues we receive.

See "Capital Investments" within this Part I, Item 2 for a discussion of the impact of inflation on our capital investment decisions. Additionally, see Part II, Item 1A "Risk Factors - Changes in price levels could negatively impact our revenue, our expenses, or both, which could adversely affect our business."

Income Statement Highlights

The following table summarizes the key components of our consolidated results of operations for the periods indicated (dollars in millions):

| | For the Three Months Ended September 30, | | | | | For the Nine Months Ended September 30, | | | | |
|--|---|--------|------|--------|------|--|------|--------|--|--|
| | | | 2021 | | 2022 | | 2021 | | | |
| Revenues | \$ | 15,468 | \$ | 10,832 | \$ | 44,536 | \$ | 29,437 | | |
| Costs and expenses: | | | | | | | | | | |
| Operating costs and expenses: | | | | | | | | | | |
| Cost of sales | | 12,319 | | 8,113 | | 35,325 | | 21,216 | | |
| Other operating costs and expenses | | 926 | | 758 | | 2,567 | | 2,175 | | |
| Depreciation, amortization and accretion expenses | | 537 | | 512 | | 1,607 | | 1,517 | | |
| Asset impairment charges | | 29 | | 29 | | 48 | | 113 | | |
| Net losses (gains) attributable to asset sales and related matters | | 1 | | (3) | | 3 | | 8 | | |
| Total operating costs and expenses | | 13,812 | | 9,409 | | 39,550 | | 25,029 | | |
| General and administrative costs | | 55 | | 47 | | 179 | | 155 | | |
| Total costs and expenses | | 13,867 | | 9,456 | | 39,729 | | 25,184 | | |
| Equity in income of unconsolidated affiliates | | 111 | | 137 | | 335 | | 447 | | |
| Operating income | | 1,712 | | 1,513 | | 5,142 | | 4,700 | | |
| Other income (expense): | | | | | | | | | | |

| Other, net | | 7 | | 1 | | 12 | | 3 | | |
| Total other expense, net | | (302) | | (315) | | (925) | | (952) | | |
| Income before income taxes | | 1,410 | | 1,198 | | 4,217 | | 3,748 | | |
| Provision for income taxes | | (18) | | (16) | | (54) | | (57) | | |
| Net income | | 1,392 | | 1,182 | | 4,163 | | 3,691 | | |
| Net income attributable to noncontrolling interests | | (31) | | (28) | | (93) | | (82) | | |
| Net income attributable to preferred units | | (1) | | (1) | | (3) | | (3) | | |
| Net income attributable to common unitholders | \$ | 1,360 | \$ | 1,153 | \$ | 4,067 | \$ | 3,606 | | |

Revenues

The following table presents each business segment's contribution to consolidated revenues for the periods indicated (dollars in millions):

| | For the Three Months Ended September 30, | | | | | For the Nine Months Ended September 30, | | | | | |
|--|---|----|--------|----|--------|--|--------|--|--|--|--|
| | 2022 | | 2021 | 2 | 022 | | 2021 | | | | |
| NGL Pipelines & Services: | | | | | | | | | | | |
| Sales of NGLs and related products | \$ 5,519 | \$ | 3,169 | \$ | 16,139 | \$ | 9,151 | | | | |
| Midstream services | 718 | | 647 | | 2,232 | | 1,836 | | | | |
| Total | 6,237 | | 3,816 | | 18,371 | | 10,987 | | | | |
| Crude Oil Pipelines & Services: | | | | | | | | | | | |
| Sales of crude oil | 4,455 | | 2,890 | | 13,202 | | 6,868 | | | | |
| Midstream services | 269 | | 345 | | 979 | | 1,036 | | | | |
| Total | 4,724 | | 3,235 | | 14,181 | | 7,904 | | | | |
| Natural Gas Pipelines & Services: | | | | | | | | | | | |
| Sales of natural gas | 1,556 | | 732 | | 3,795 | | 2,543 | | | | |
| Midstream services | 330 | | 248 | | 901 | | 733 | | | | |
| Total | 1,886 | | 980 | | 4,696 | | 3,276 | | | | |
| Petrochemical & Refined Products Services: | | | | | | | | | | | |
| Sales of petrochemicals and refined products | 2,346 | | 2,539 | | 6,470 | | 6,524 | | | | |
| Midstream services | 275 | | 262 | | 818 | | 746 | | | | |
| Total | 2,621 | | 2,801 | | 7,288 | | 7,270 | | | | |
| Total consolidated revenues | \$ 15,468 | \$ | 10,832 | \$ | 44,536 | \$ | 29,437 | | | | |

Third Quarter of 2022 Compared to Third Quarter of 2021. Total revenues for the third quarter of 2022 increased \$4.6 billion when compared to the third quarter of 2021 primarily due to a \$4.5 billion increase in marketing revenues.

Revenues from the marketing of NGLs, crude oil and natural gas increased a combined \$4.7 billion quarter-to-quarter primarily due to higher average sales prices, which accounted for a \$3.6 billion increase, and higher sales volumes, which accounted for an additional \$1.1 billion increase.

Revenues from midstream services for the third quarter of 2022 increased a net \$90 million when compared to the third quarter of 2021. Revenues from our natural gas pipeline assets increased \$82 million quarter-to-quarter primarily due to the addition of the Midland Basin Gathering System from the Navitas Midstream acquisition and higher demand for natural gas transportation and gathering services in Texas and Louisiana. Revenues from our natural gas processing facilities increased \$69 million quarter-to-quarter primarily due to higher market values for the equity NGL-equivalent production volumes we receive as non-cash consideration for processing services. Lastly, revenues from our crude oil pipeline assets decreased \$70 million quarter-to-quarter primarily due to lower deficiency revenues as a result of the expiration of minimum volume commitments under certain long-term gathering agreements on our EFS Midstream System.

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Total revenues for the nine months ended September 30, 2021 increased \$15.1 billion when compared to the nine months ended September 30, 2021 primarily due to a \$14.5 billion increase in marketing revenues.

Revenues from the marketing of NGLs, crude oil and natural gas increased a combined \$14.6 billion period-to-period primarily due to higher average sales prices, which accounted for an \$11.2 billion increase, and higher sales volumes, which accounted for an additional \$3.4 billion increase.

Revenues from midstream services for the nine months ended September 30, 2022 increased a net \$579 million when compared to the nine months ended September 30, 2021. Revenues from our natural gas processing facilities increased \$411 million period-to-period primarily due to higher market values for the equity NGL-equivalent production volumes we receive as non-cash consideration for processing services. Revenues from our natural gas pipeline assets increased \$167 million period-to-period primarily due to the addition of the Midland Basin Gathering System from the Navitas Midstream acquisition and higher demand for natural gas transportation and gathering services in Texas and Louisiana. Lastly, revenues from our crude oil pipeline assets decreased \$41 million period-to-period primarily due to lower deficiency revenues as a result of the aforementioned expiration of minimum volume commitments on our EFS Midstream System.

Operating costs and expenses

Total operating costs and expenses for the three and nine months ended September 30, 2022 increased \$4.4 billion and \$14.5 billion, respectively, when compared to the same periods in 2021.

Cost of sales

Third Quarter of 2022 Compared to Third Quarter of 2021. Cost of sales for the third quarter of 2022 increased \$4.2 billion when compared to the third quarter of 2021. The cost of sales associated with our marketing of NGLs, crude oil and natural gas increased a combined \$4.4 billion quarter-to-quarter primarily due to higher average purchase prices, which accounted for a \$3.3 billion increase, and higher sales volumes, which accounted for an additional \$1.1 billion increase.

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Cost of sales for the nine months ended September 30, 2022 increased \$14.1 billion when compared to the nine months ended September 30, 2021. The cost of sales associated with our marketing of NGLs, crude oil and natural gas increased a combined \$14.6 billion period-to-period primarily due to higher average purchase prices, which accounted for an \$11.5 billion increase, and higher sales volumes, which accounted for an additional \$3.1 billion increase.

Other operating costs and expenses

Other operating costs and expenses for the three and nine months ended September 30, 2022 increased \$168 million and \$392 million, respectively, when compared to the same periods in 2021 primarily due to higher utility and employee compensation costs.

<u>Depreciation, amortization and accretion expenses</u>

Depreciation, amortization and accretion expense for the three and nine months ended September 30, 2022 increased a combined \$25 million and \$90 million, respectively, when compared to the same periods in 2021. The addition of assets attributable to the Navitas Midstream acquisition accounted for \$25 million of the quarter-to-quarter increase and \$61 million of the period-to-period increase. The remainder of the quarter-to-quarter and period-to-period increases are due to assets placed into full or limited service since the end of the respective periods in 2021 (the Gillis Lateral natural gas pipeline and the Baymark ethylene pipeline) and major maintenance activities accounted for under the deferral method.

Asset impairment charges

Non-cash asset impairment charges for the nine months ended September 30, 2022 decreased \$65 million, when compared to the same period in 2021. We recorded non-cash asset impairment charges of \$44 million during the nine months ended September 30, 2021 for the sale of a coal bed natural gas gathering system and related Val Verde treating facility, both of which were components of our San Juan Gathering System. The remainder of our asset impairment charges for the nine months ended September 30, 2022 and 2021 are attributable to the write-off of assets that are no longer expected to be used or constructed.

General and administrative costs

General and administrative costs for the third quarter of 2022 increased \$8 million when compared to the third quarter of 2021 primarily due to higher professional services costs. General and administrative costs for the nine months ended September 30, 2022 increased \$24 million when compared to the same period in 2021 primarily due to higher employee compensation and professional services costs.

Equity in income of unconsolidated affiliates

Equity income from our unconsolidated affiliates for the three and nine months ended September 30, 2022 decreased \$26 million and \$112 million, respectively, when compared to the same periods in 2021 primarily due to lower earnings from investments in crude oil pipelines.

Operating income

Operating income for the three and nine months ended September 30, 2022 increased \$199 million and \$442 million, respectively, when compared to the same periods in 2021 due to the previously described quarter-to-quarter and period-to-period changes.

Interest expense

The following table presents the components of our consolidated interest expense for the periods indicated (dollars in millions):

| | For the Three Months Ended September 30, | | | | | For the Nine Months Ended September 30, | | | |
|---|---|------|----|------|----|---|----|------|--|
| | 2 | 022 | | 2021 | | 2022 | | 2021 | |
| Interest charged on debt principal outstanding (1) | \$ | 321 | \$ | 322 | \$ | 962 | \$ | 970 | |
| Impact of interest rate hedging program, including related amortization | | 1 | | 10 | | 15 | | 28 | |
| Interest costs capitalized in connection with construction projects (2) | | (22) | | (23) | | (60) | | (64) | |
| Other (3) | | 9 | | 7 | | 20 | | 21 | |
| Total | \$ | 309 | \$ | 316 | \$ | 937 | \$ | 955 | |

(1) The weighted-average interest rates on debt principal outstanding during the three and nine months ended September 30, 2022 were 4.33% and 4.32%, respectively. The weighted-average interest rates on debt principal outstanding during the three and nine months ended September 30, 2021 were 4.35% and 4.36%, respectively.

(2) We capitalize interest costs incurred on funds used to construct property, plant and equipment while the asset is in its construction phase. Capitalized interest amounts become part of the historical cost of an asset and are charged to earnings (as a component of depreciation expense) on a straight-line basis over the estimated useful life of the asset once the asset enters its intended service. When capitalized interest is recorded, it reduces interest expense from what it would be otherwise. Capitalized interest amounts fluctuate based on the timing of when projects are placed into service, our capital investment levels and the interest rates charged on borrowings.

projects are placed into service, our capital investment levels and the interest rates charged on borrowings.

Primarily reflects facility commitment fees charged in connection with our revolving credit facilities and amortization of debt issuance costs. Amounts presented for the three and nine months ended September 30, 2022 include \$4 million of debt issuance costs that were written off in connection with the partial redemption of our Junior Subordinated Notes D in August 2022

Interest charged on debt principal outstanding, which is a key driver of interest expense, decreased \$1 million quarter-to-quarter and \$8 million period-to-period primarily due to the retirement of \$1.4 billion of fixed-rate senior notes in February 2022 and the redemption of \$350 million of variable-rate junior subordinated notes in August 2022 using a combination of available cash, commercial paper and proceeds from a senior notes issuance in September 2021 with a lower interest rate. These actions resulted in lower weighted-average interest rates on outstanding debt obligations during the comparative periods.

For additional information regarding our debt obligations, see Note 7 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report. For a discussion of our capital projects, see "Capital Investments" within this Part I, Item 2.

Income taxes

Our provision for income taxes for the three and nine months ended September 30, 2022 increased \$2 million and decreased \$3 million, respectively, when compared to the same periods in 2021 primarily due to changes in income tax expense related to state tax obligations under the Revised Texas Franchise Tax (the "Texas Margin Tax").

Business Segment Highlights

Our operations are reported under four business segments: (i) NGL Pipelines & Services, (ii) Crude Oil Pipelines & Services, (iii) Natural Gas Pipelines & Services and (iv) Petrochemical & Refined Products Services. Our business segments are generally organized and managed according to the types of services rendered (or technologies employed) and products produced and/or sold.

We evaluate segment performance based on our financial measure of gross operating margin. Gross operating margin is an important performance measure of the core profitability of our operations and forms the basis of our internal financial reporting. We believe that investors benefit from having access to the same financial measures that our management uses in evaluating segment results.

The following table presents gross operating margin by segment and total gross operating margin, a non-generally accepted accounting principle ("non-GAAP") financial measure, for the periods indicated (dollars in millions):

| | For the Three Months Ended September 30, | | | | | For the Ni Ended Sep | | |
|---|--|-------|----|-------|----|-------------------------|----|-------|
| | | 2022 | | 2021 | | 2022 | | 2021 |
| Gross operating margin by segment: | | | | | | | | |
| NGL Pipelines & Services | \$ | 1,296 | \$ | 1,023 | \$ | 3,848 | \$ | 3,207 |
| Crude Oil Pipelines & Services | | 415 | | 423 | | 1,237 | | 1,242 |
| Natural Gas Pipelines & Services | | 278 | | 223 | | 727 | | 960 |
| Petrochemical & Refined Products Services | | 353 | | 411 | | 1,178 | | 1,019 |
| Total segment gross operating margin (1) | | 2,342 | | 2,080 | | 6,990 | | 6,428 |
| Net adjustment for shipper make-up rights | | (21) | | 9 | | (49) | | 46 |
| Total gross operating margin (non-GAAP) | \$ | 2,321 | \$ | 2,089 | \$ | 6,941 | \$ | 6,474 |

⁽¹⁾ Within the context of this table, total segment gross operating margin represents a subtotal and corresponds to measures similarly titled within our business segment disclosures found under Note 10 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report.

Total gross operating margin includes equity in the earnings of unconsolidated affiliates, but is exclusive of other income and expense transactions, income taxes, the cumulative effect of changes in accounting principles and extraordinary charges. Total gross operating margin is presented on a 100% basis before any allocation of earnings to noncontrolling interests. Our calculation of gross operating margin may or may not be comparable to similarly titled measures used by other companies. Segment gross operating margin for NGL Pipelines & Services and Crude Oil Pipelines & Services reflect adjustments for shipper make-up rights that are included in management's evaluation of segment results. However, these adjustments are excluded from non-GAAP total gross operating margin.

The GAAP financial measure most directly comparable to total gross operating margin is operating income. For a discussion of operating income and its components, see the previous section titled "Income Statement Highlights" within this Part I, Item 2. The following table presents a reconciliation of operating income to total gross operating margin for the periods indicated (dollars in millions):

| | | For the Three Months Ended September 30, | | | | | Months mber 30, |
|--|----|--|------|-------|---------|------|--------------------|
| | 2 | : | 2021 | 2022 | | 2021 | |
| Operating income | \$ | 1,712 | \$ | 1,513 | \$ 5,14 | 2 : | \$ 4,700 |
| Adjustments to reconcile operating income to total gross operating margin (addition or subtraction indicated by sign): | | | | | | | |
| Depreciation, amortization and accretion expense in operating costs and expenses (1) | | 524 | | 503 | 1,56 | 9 | 1,498 |
| Asset impairment charges in operating costs and expenses | | 29 | | 29 | 4 | 8 | 113 |
| Net losses (gains) attributable to asset sales and related matters in operating costs and expenses | | 1 | | (3) | | 3 | 8 |
| General and administrative costs | | 55 | | 47 | 17 | 9 | 155 |
| Total gross operating margin (non-GAAP) | \$ | 2,321 | \$ | 2,089 | \$ 6,94 | 1 : | \$ 6,474 |

⁽¹⁾ Excludes amortization of major maintenance costs for reaction-based plants, which are a component of gross operating margin.

Each of our business segments benefits from the supporting role of our marketing activities. The main purpose of our marketing activities is to support the utilization and expansion of assets across our midstream energy asset network by increasing the volumes handled by such assets, which results in additional fee-based earnings for each business segment. In performing these support roles, our marketing activities also seek to participate in supply and demand opportunities as a supplemental source of gross operating margin for us. The financial results of our marketing efforts fluctuate due to changes in volumes handled and overall market conditions, which are influenced by current and forward market prices for the products bought and sold.

NGL Pipelines & Services

The following table presents segment gross operating margin and selected volumetric data for the NGL Pipelines & Services segment for the periods indicated (dollars in millions, volumes as noted):

| | For the Three Months Ended September 30, | | | | | For the Nine Months Ended September 30, | | | |
|---|---|-------|----|-------|----|--|----|-------|--|
| | 2022 | | | 2021 | | 2022 | | 2021 | |
| Segment gross operating margin: | | | | | | | | | |
| Natural gas processing and related NGL marketing activities | \$ | 485 | \$ | 264 | \$ | 1,487 | \$ | 844 | |
| NGL pipelines, storage and terminals | | 611 | | 570 | | 1,716 | | 1,752 | |
| NGL fractionation | | 200 | | 189 | | 645 | | 611 | |
| Total | \$ | 1,296 | \$ | 1,023 | \$ | 3,848 | \$ | 3,207 | |
| | | | | | | | | | |
| Selected volumetric data: | | | | | | | | | |
| NGL pipeline transportation volumes (MBPD) | | 3,702 | | 3,481 | | 3,650 | | 3,389 | |
| NGL marine terminal volumes (MBPD) | | 747 | | 664 | | 713 | | 661 | |
| NGL fractionation volumes (MBPD) | | 1,371 | | 1,254 | | 1,341 | | 1,229 | |
| Equity NGL-equivalent production volumes (MBPD) (1) | | 182 | | 150 | | 188 | | 169 | |
| Fee-based natural gas processing volumes (MMcf/d) (2,3) | | 5,202 | | 3,990 | | 5,091 | | 4,064 | |

⁽¹⁾ Primarily represents the NGL and condensate volumes we earn and take title to in connection with our processing activities. The total equity NGL-equivalent production volumes also include residue natural gas volumes from our natural gas processing business.

(2) Volumes reported correspond to the revenue streams earned by our natural gas processing plants.

Natural gas processing and related NGL marketing activities

Third Quarter of 2022 Compared to Third Quarter of 2021. Gross operating margin from natural gas processing and related NGL marketing activities for the third quarter of 2022 increased \$221 million when compared to the third quarter of 2021.

Our Midland Basin natural gas processing facilities, which represent the natural gas processing facilities we acquired in February 2022 as part of our acquisition of Navitas Midstream, generated gross operating margin of \$128 million. Fee-based natural gas processing volumes and equity NGL-equivalent production volumes at these facilities were 972 MMcf/d and 57 MBPD, respectively, during the third quarter of 2022. Our Midland Basin natural gas gathering activities are discussed under the Natural Gas Pipelines & Services segment.

Gross operating margin from our NGL marketing activities increased a net \$46 million quarter-to-quarter primarily due to higher average sales margins, which accounted for a \$58 million increase, and higher sales volumes, which accounted for an additional \$13 million increase, partially offset by lower non-cash, mark-to-market earnings, which accounted for a \$24 million decrease. The quarter-to-quarter increase in gross operating margin can be attributed to higher earnings from NGL marketing strategies that optimize our storage, transportation and plant assets, which accounted for an \$80 million increase, partially offset by lower earnings from strategies that optimize our export assets, which accounted for a \$10 million decrease.

Gross operating margin from our Delaware Basin natural gas processing facilities, which represent our legacy Permian Basin processing facilities, increased a net \$36 million quarter-to-quarter primarily due to higher average processing margins (including the impact of hedging activities), which accounted for a \$96 million increase, and a 180 MMcf/d increase in fee-based natural gas processing volumes, which accounted for an additional \$10 million increase, partially offset by a 26 MBPD decrease in equity NGL-equivalent production volumes, which accounted for a \$68 million decrease.

Fee-based natural gas processing volumes are measured at either the wellhead or plant inlet in MMcf/d.

Gross operating margin from our South Texas natural gas processing facilities increased \$12 million quarter-to-quarter primarily due to higher average processing margins (including the impact of hedging activities). Fee-based natural gas processing volumes and equity NGL-equivalent production volumes increased 64 MMcf/d and 2 MBPD, respectively, quarter-to-quarter.

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Gross operating margin from natural gas processing and related NGL marketing activities for the nine months ended September 30, 2022 increased \$643 million when compared to the nine months ended September 30, 2021.

Our Midland Basin natural gas processing facilities generated gross operating margin of \$309 million. Fee-based natural gas processing volumes and equity NGL-equivalent production volumes at these facilities were 925 MMcf/d and 54 MBPD, respectively, following the acquisition date.

Gross operating margin from our Delaware Basin natural gas processing facilities increased \$177 million period-to-period primarily due to higher average processing margins (including the impact of hedging activities), which accounted for a \$148 million increase, and a 170 MMcf/d increase in fee-based natural gas processing volumes, which accounted for an additional \$21 million increase. Equity NGL-equivalent production volumes at these facilities decreased 30 MBPD period-to-period.

Gross operating margin from our Rockies natural gas processing facilities (Meeker, Pioneer and Chaco) increased a combined \$86 million period-to-period primarily due to higher average processing margins (including the impact of hedging activities), which accounted for a \$66 million increase, and higher average processing fees, which accounted for an additional \$16 million increase. On a combined basis, fee-based natural gas processing volumes and equity NGL-equivalent production volumes decreased 49 MMcf/d and 1 MBPD, respectively, period-to-period.

Gross operating margin from our South Texas natural gas processing facilities increased \$72 million period-to-period primarily due to higher average processing margins (including the impact of hedging activities). Fee-based natural gas processing volumes increased 59 MMcf/d and equity NGL-equivalent production volumes decreased 2 MBPD period-to-period.

Gross operating margin from our Louisiana and Mississippi natural gas processing facilities increased \$4 million period-to-period primarily due to higher average processing margins (including the impact of hedging activities). Fee-based natural gas processing volumes decreased 94 MMcf/d and equity NGL-equivalent production volumes were flat period-to-period (net to our interest).

Gross operating margin from our NGL marketing activities decreased a net \$13 million period-to-period primarily due to lower non-cash, mark-to-market earnings, which accounted for a \$107 million decrease, partially offset by higher average sales margins, which accounted for a \$50 million increase, and higher sales volumes, which accounted for an additional \$39 million increase. The period-to-period increase in gross operating margin can be attributed to higher earnings from NGL marketing strategies that optimize our storage and plant assets, which accounted for a \$134 million increase, partially offset by lower earnings from strategies that optimize our transportation and export assets, which accounted for a \$40 million decrease.

NGL pipelines, storage and terminals

Third Quarter of 2022 Compared to Third Quarter of 2021. Gross operating margin from our NGL pipelines, storage and terminal assets during the third quarter of 2022 increased \$41 million when compared to the third quarter of 2021.

Gross operating margin for our Eastern ethane pipelines, which include our ATEX and Aegis pipelines, increased a combined \$39 million quarter-to-quarter primarily due to a 30 MBPD increase in transportation volumes on the ATEX Pipeline, which accounted for an \$18 million increase, and higher deficiency fees, which accounted for an additional \$16 million increase.

Gross operating margin at our Morgan's Point Ethane Export Terminal increased \$16 million quarter-to-quarter primarily due to higher average loading fees, which accounted for an \$11 million increase, and a 34 MBPD increase in export volumes, which accounted for an additional \$9 million increase.

Gross operating margin from our Chambers County storage complex increased \$11 million quarter-to-quarter primarily due to higher storage revenues.

A number of our pipelines, including the Mid-America Pipeline System, Seminole NGL Pipeline, Chaparral NGL Pipeline, and Shin Oak NGL Pipeline, serve Permian Basin and/or Rocky Mountain producers. On a combined basis, gross operating margin from these pipelines decreased a net \$25 million quarter-to-quarter primarily due to lower deficiency fees as a result of certain contracts associated with the Rocky Mountain segment of our Mid-America Pipeline System reaching their termination date in September 2021, which accounted for a \$19 million decrease, and higher utility and other operating costs, which accounted for an additional \$19 million decrease, partially offset by a 34 MBPD (net to our interest) increase in transportation volumes, which accounted for a \$13 million increase.

Gross operating margin from LPG-related activities at our Enterprise Hydrocarbons Terminal ("EHT") decreased \$18 million quarter-to-quarter primarily due to lower average loading fees. LPG export volumes at EHT increased 49 MBPD quarter-to-quarter.

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Gross operating margin from our NGL pipelines, storage and terminal assets during the nine months ended September 30, 2022 decreased \$36 million when compared to the nine months ended September 30, 2021.

On a combined basis, gross operating margin for our pipelines that serve Permian Basin and/or Rocky Mountain producers decreased a net \$88 million period-to-period primarily due to lower deficiency fees as a result of certain contracts associated with the Rocky Mountain segment of our Mid-America Pipeline System reaching their termination date in September 2021, which accounted for a \$72 million decrease, lower average transportation fees, which accounted for a \$56 million decrease, and higher utility and other operating costs, which accounted for an additional \$21 million decrease, partially offset by a 132 MBPD (net to our interest) increase in transportation volumes, which accounted for a \$69 million increase.

Gross operating margin from LPG-related activities at EHT decreased \$63 million period-to-period primarily due to lower average loading fees. LPG export volumes at EHT increased 35 MBPD period-to-period. Gross operating margin from our related Houston Ship Channel Pipeline decreased \$6 million period-to-period primarily due to lower average transportation fees. Transportation volumes on our Houston Ship Channel Pipeline increased 39 MBPD period-to-period.

Gross operating margin for our Eastern ethane pipelines increased a combined \$70 million period-to-period primarily due to a 20 MBPD increase in transportation volumes on the ATEX Pipeline, which accounted for a \$41 million increase, and higher deficiency fees, which accounted for an additional \$27 million increase.

Gross operating margin at our Morgan's Point Ethane Export Terminal increased \$43 million period-to-period primarily due to higher average loading fees, which accounted for a \$33 million increase, and a 17 MBPD increase in export volumes, which accounted for an additional \$12 million increase.

Gross operating margin from our Chambers County storage complex increased \$11 million period-to-period primarily due to higher storage revenues.

NGL fractionation

Third Quarter of 2022 Compared to Third Quarter of 2021. Gross operating margin from NGL fractionation during the third quarter of 2022 increased \$11 million when compared to the third quarter of 2021.

The natural gasoline hydrotreater at our Chambers County complex, which was placed into service in October 2021, generated gross operating margin of \$9 million during the third quarter of 2022.

Gross operating margin from our Norco NGL fractionator increased \$8 million quarter-to-quarter primarily due to a 23 MBPD increase in fractionation volumes. The Norco NGL fractionator was down for 29 days during the third quarter of 2021 due to damages sustained from Hurricane Ida.

Gross operating margin from our Hobbs NGL fractionator increased \$4 million quarter-to-quarter primarily due to higher ancillary service revenues.

Gross operating margin from our Chambers County NGL fractionation complex decreased a net \$11 million quarter-to-quarter primarily due to higher utility and other operating costs, which accounted for a \$29 million decrease, partially offset by a 66 MBPD (net to our interest) increase in fractionation volumes, which accounted for a \$15 million increase, and higher average fractionation fees, which accounted for an additional \$6 million increase.

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Gross operating margin from NGL fractionation during the nine months ended September 30, 2022 increased \$34 million when compared to the nine months ended September 30, 2021.

Gross operating margin from our Norco NGL fractionator increased \$27 million period-to-period primarily due to an 18 MBPD increase in fractionation volumes, which accounted for a \$19 million increase, and higher ancillary service revenues, which accounted for an additional \$9 million increase.

The natural gasoline hydrotreater at our Chambers County complex, which was placed into service in October 2021, generated gross operating margin of \$21 million during the nine months ended September 30, 2022.

Gross operating margin from our Hobbs NGL fractionator increased \$18 million period-to-period primarily due to higher ancillary service revenues, which accounted for a \$14 million increase, and higher average fractionation fees, which accounted for an additional \$6 million increase.

Gross operating margin from our Chambers County NGL fractionation complex decreased a net \$41 million period-to-period primarily due to \$63 million in margins earned on the optimization of our power supply arrangements and \$40 million of payments received in connection with our participation in the Texas Load Resources Demand Response Program ("LaaR") during the second quarter of 2021 in connection with the winter storms that impacted Texas in February 2021 (the "February 2021 winter storms").

Gross operating margin at our Chambers County NGL fractionation complex was further impacted by higher utility and other operating costs, which accounted for an additional \$45 million decrease, partially offset by a 78 MBPD (net to our interest) increase in fractionation volumes, which accounted for a \$62 million increase, and higher average fractionation fees, which accounted for an additional \$44 million increase.

Crude Oil Pipelines & Services

The following table presents segment gross operating margin and selected volumetric data for the Crude Oil Pipelines & Services segment for the periods indicated (dollars in millions, volumes as noted):

| | For the Three Months Ended September 30, | | | | For the Nine Months Ended September 30, | | | |
|--|---|----|-------|----|--|----|-------|--|
| | 2022 | | 2021 | | 2022 | | 2021 | |
| Segment gross operating margin: | _ | | | | _ | | | |
| Midland-to-ECHO System and related business activities | \$ 95 | \$ | 100 | \$ | 291 | \$ | 275 | |
| Other crude oil pipelines, terminals and related marketing results | 320 | | 323 | | 946 | | 967 | |
| Total | \$ 415 | \$ | 423 | \$ | 1,237 | \$ | 1,242 | |
| Selected volumetric data: | | | | | | | | |
| Crude oil pipeline transportation volumes (MBPD) | 2,216 | | 2,047 | | 2,204 | | 2,009 | |
| Crude oil marine terminal volumes (MBPD) | 824 | | 588 | | 799 | | 642 | |

Third Quarter of 2022 Compared to Third Quarter of 2021. Gross operating margin from our Crude Oil Pipelines & Services segment for the third quarter of 2022 decreased \$8 million when compared to the third quarter of 2021.

Gross operating margin from our EFS Midstream System decreased \$59 million quarter-to-quarter primarily due to lower deficiency revenues as a result of the expiration of minimum volume commitments under certain long-term gathering agreements. Our EFS Midstream System will continue to transport volumes produced on dedicated acreage through the remaining term of these agreements.

Gross operating margin from our equity investment in the Seaway Pipeline decreased \$19 million quarter-to-quarter primarily due to lower average transportation fees. Transportation volumes on our Seaway Pipeline increased 96 MBPD quarter-to-quarter (net to our interest).

Gross operating margin from crude oil activities at EHT decreased \$6 million quarter-to-quarter primarily due to lower storage and other revenues. Crude oil terminal volumes at EHT increased 255 MBPD quarter-to-quarter.

Gross operating margin from our Midland-to-ECHO System and related business activities decreased a net \$5 million quarter-to-quarter primarily due to lower average sales margins, which accounted for a \$29 million decrease, partially offset by an 89 MBPD (net to our interest) increase in transportation volumes, which accounted for an \$18 million increase, and higher average transportation fees, which accounted for an additional \$7 million increase.

Gross operating margin from our crude oil marketing activities (excluding those attributable to the Midland-to-ECHO System) increased \$46 million quarter-to-quarter primarily due to higher average sales margins, which accounted for a \$23 million increase, and higher non-cash, mark-to-market earnings, which accounted for an additional \$20 million increase.

Gross operating margin from our West Texas Pipeline System increased \$21 million quarter-to-quarter primarily due to higher ancillary service and other revenues. Transportation volumes on our West Texas Pipeline System increased 5 MBPD quarter-to-quarter.

Gross operating margin from our South Texas Crude Oil Pipeline System increased a net \$12 million quarter-to-quarter primarily due to higher ancillary service and other revenues, which accounted for a \$28 million increase, partially offset by lower average transportation fees, which accounted for a \$16 million decrease. Transportation volumes on our South Texas Crude Pipeline System increased 7 MBPD quarter to quarter.

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Gross operating margin from our Crude Oil Pipelines & Services segment for the nine months ended September 30, 2022 decreased \$5 million when compared to the nine months ended September 30, 2021.

Gross operating margin from our equity investment in the Seaway Pipeline decreased \$52 million period-to-period primarily due to lower average transportation fees, which accounted for a \$37 million decrease, and a \$16 million decrease due to LaaR payments from power service providers in connection with the February 2021 winter storms. Transportation volumes on our Seaway Pipeline increased 52 MBPD period-to-period (net to our interest).

Gross operating margin from our EFS Midstream System decreased a net \$38 million period-to-period primarily due to lower deficiency revenues as a result of the aforementioned expiration of minimum volume commitments, which accounted for a \$72 million decrease, partially offset by higher average transportation fees, which accounted for a \$24 million increase.

Gross operating margin from crude oil activities at EHT decreased \$25 million period-to-period primarily due to lower storage and other revenues, which accounted for a \$14 million decrease, and higher operating costs, which accounted for an additional \$9 million decrease. Crude oil terminal volumes at EHT increased 187 MBPD period-to-period.

Gross operating margin from our West Texas Pipeline System increased a net \$56 million period-to-period primarily due to higher ancillary service and other revenues, which accounted for a \$52 million increase, and a 65 MBPD increase in transportation volumes, which accounted for an additional \$16 million increase, partially offset by lower average transportation fees, which accounted for a \$9 million decrease.

Gross operating margin from our Midland terminal increased \$26 million period-to-period primarily due to higher ancillary service and other revenues, which accounted for an \$18 million increase, and lower operating costs, which accounted for an additional \$6 million increase.

Gross operating margin from our Midland-to-ECHO System and related business activities increased a net \$16 million period-to-period primarily due to an 80 MBPD (net to our interest) increase in transportation volumes, which accounted for a \$32 million increase, and higher average transportation fees, which accounted for an additional \$14 million increase, partially offset by lower average sales margins, which accounted for a \$39 million decrease.

Gross operating margin from our South Texas Crude Oil Pipeline System increased a net \$13 million period-to-period primarily due to higher ancillary service and other revenues, which accounted for a \$43 million increase, partially offset by an 8 MBPD decrease in transportation volumes, which accounted for a \$15 million decrease, and lower average transportation fees, which accounted for an additional \$13 million decrease.

Gross operating margin from our crude oil marketing activities (excluding those attributable to the Midland-to-ECHO System) increased a net \$4 million period-to-period primarily due to higher average sales margins, which accounted for a \$21 million increase, lower operating costs, which accounted for a \$12 million increase, and higher earnings from trucking activities, which accounted for an additional \$9 million increase, partially offset by lower non-cash, mark-to-market earnings, which accounted for a \$38 million decrease.

Natural Gas Pipelines & Services

The following table presents segment gross operating margin and selected volumetric data for the Natural Gas Pipelines & Services segment for the periods indicated (dollars in millions, volumes as noted):

| | For the Three Months Ended September 30, | | | | For the Nine Months Ended September 30, | | | |
|---|--|----|--------|----|--|----|--------|--|
| | 2022 | | 2021 | | 2022 | | 2021 | |
| Segment gross operating margin | \$ 278 | \$ | 223 | \$ | 727 | \$ | 960 | |
| Selected volumetric data: | | | | | | | | |
| Natural gas pipeline transportation volumes (BBtus/d) | 17,514 | | 14,556 | | 16,935 | | 14,144 | |

Third Quarter of 2022 Compared to Third Quarter of 2021. Gross operating margin from our Natural Gas Pipelines & Services segment for the third quarter of 2022 increased \$55 million when compared to the third quarter of 2021.

Gross operating margin from our Texas Intrastate System increased \$40 million quarter-to-quarter primarily due to higher average transportation fees, which accounted for an \$18 million increase, higher ancillary and other revenues, which accounted for a \$15 million increase, and higher capacity reservation revenues, which accounted for an additional \$7 million increase. Transportation volumes on our Texas Intrastate System increased 421 BBtus/d quarter-to-quarter.

On a combined basis, gross operating margin from our Jonah Gathering System, Piceance Basin Gathering System, and San Juan Gathering System in the Rocky Mountains increased \$17 million quarter-to-quarter primarily due to higher average gathering fees. Gathering volumes on our Rocky Mountain gathering systems decreased a combined 139 BBtus/d quarter-to-quarter.

Our Midland Basin Gathering System, which represents the natural gas gathering system we acquired in February 2022 as part of our acquisition of Navitas Midstream, generated gross operating margin of \$15 million on gathering volumes of 1,323 BBtus/d. Our Midland Basin natural gas processing activities are discussed under the NGL Pipelines & Services segment.

Gross operating margin from our Acadian Gas System and Haynesville Gathering System increased a combined \$4 million quarter-to-quarter primarily due to higher transportation volumes. On a combined basis, transportation volumes increased 847 BBtus/d quarter-to-quarter primarily due to the Gillis Lateral pipeline, which was placed into service in December 2021.

Gross operating margin from our East Texas Gathering System increased \$4 million quarter-to-quarter primarily due to a 256 BBtus/d increase in gathering volumes

Gross operating margin from our natural gas marketing activities decreased \$22 million quarter-to-quarter primarily due to lower average sales margins.

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Gross operating margin from our Natural Gas Pipelines & Services segment for the nine months ended September 30, 2022 decreased \$233 million when compared to the nine months ended September 30, 2021.

Gross operating margin from our natural gas marketing activities decreased \$332 million period-to-period primarily due to lower average sales margins. The nine months ended September 30, 2021 reflect increased natural gas sales as a result of our efforts to meet the needs of electricity generators, natural gas utilities and industrial customers during the February 2021 winter storms.

Gross operating margin from our Delaware Basin Gathering System decreased \$54 million period-to-period primarily due to lower condensate sales. Natural gas gathering volumes on our Delaware Basin Gathering System increased 189 BBtus/d period-to-period.

Gross operating margin from our Texas Intrastate System increased \$52 million period-to-period primarily due to higher average transportation fees, which accounted for a \$19 million increase, a 463 BBtus/d increase in transportation volumes, which accounted for a \$13 million increase, and higher ancillary and other revenues, which accounted for an additional \$24 million increase.

On a combined basis, gross operating margin from our Jonah Gathering System, Piceance Basin Gathering System and San Juan Gathering System in the Rocky Mountains increased a net \$42 million period-to-period primarily due to higher average gathering fees, which accounted for a \$38 million increase, and higher condensate sales, which accounted for an additional \$13 million increase, partially offset by a 195 BBtus/d combined decrease in gathering volumes, which accounted for a \$9 million decrease.

Our Midland Basin Gathering System generated gross operating margin of \$37 million on gathering volumes of 1,250 BBtus/d following the acquisition date

Gross operating margin from our Acadian Gas System and Haynesville Gathering System increased a combined \$17 million period-to-period primarily due to higher transportation volumes. On a combined basis, transportation volumes increased 837 BBtus/d period-to-period primarily due to the Gillis Lateral pipeline, which was placed into service in December 2021.

Gross operating margin from our East Texas Gathering System increased \$14 million period-to-period primarily due to a 305 BBtus/d increase in gathering volumes.

Petrochemical & Refined Products Services

The following table presents segment gross operating margin and selected volumetric data for the Petrochemical & Refined Products Services segment for the periods indicated (dollars in millions, volumes as noted):

| | For the Three Months Ended September 30, | | | | For the Nine Months Ended September 30, | | | |
|---|---|-----|----|------|--|----|-------|--|
| | 2 | 022 | | 2021 | 2022 | | 2021 | |
| Segment gross operating margin: | | | | | | | | |
| Propylene production and related activities | \$ | 110 | \$ | 259 | \$ 474 | \$ | 609 | |
| Butane isomerization and related operations | | 30 | | 28 | 84 | | 53 | |
| Octane enhancement and related plant operations | | 104 | | 45 | 308 | | 79 | |
| Refined products pipelines and related activities | | 67 | | 59 | 194 | | 230 | |
| Ethylene exports and related activities | | 28 | | 18 | 88 | | 39 | |
| Marine transportation and other services | | 14 | | 2 | 30 | | 9 | |
| Total | \$ | 353 | \$ | 411 | \$ 1,178 | \$ | 1,019 | |
| Selected volumetric data: | | | | | | | | |
| Propylene production volumes (MBPD) | | 101 | | 96 | 105 | | 98 | |
| Butane isomerization volumes (MBPD) | | 122 | | 108 | 109 | | 85 | |
| Standalone deisobutanizer ("DIB") processing volumes (MBPD) | | 165 | | 153 | 159 | | 155 | |
| Octane enhancement and related plant sales volumes (MBPD) (1) | | 40 | | 39 | 39 | | 33 | |
| Pipeline transportation volumes, primarily refined products and petrochemicals (MBPD) | | 758 | | 782 | 750 | | 889 | |
| Marine terminal volumes, primarily refined products and petrochemicals (MBPD) | | 166 | | 264 | 200 | | 243 | |

⁽¹⁾ Reflects aggregate sales volumes for our octane enhancement and iBDH facilities located at our Chambers County complex and our HPIB facility located adjacent to the Houston Ship Channel.

Propylene production and related activities

Third Quarter of 2022 Compared to Third Quarter of 2021. Gross operating margin from propylene production and related activities for the third quarter of 2022 decreased \$149 million when compared to the third quarter of 2021. Gross operating margin from our Chambers County propylene production facilities decreased a combined net \$141 million quarter-to-quarter primarily due to lower average propylene sales margins, which accounted for a \$121 million decrease, lower average processing fees, which accounted for a \$36 million decrease, and higher utility and other operating costs, which accounted for an additional \$20 million decrease, partially offset by higher propylene sales volumes, which accounted for a \$27 million increase. Propylene and associated by-product production volumes at these facilities increased a combined 6 MBPD quarter-to-quarter (net to our interest).

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Gross operating margin from propylene production and related activities for the nine months ended September 30, 2022 decreased \$135 million when compared to the nine months ended September 30, 2021. Gross operating margin from our Chambers County propylene production facilities decreased a combined net \$123 million period-to-period primarily due to lower average propylene sales margins, which accounted for an \$84 million decrease, lower average processing fees, which accounted for a \$75 million decrease, and higher utility, amortization expense from major maintenance activities accounted for under the deferral method and other operating costs, which accounted for an additional \$70 million decrease, partially offset by higher propylene sales volumes, which accounted for an \$85 million increase, and higher by-product sales and other revenues, which accounted for an additional \$21 million increase. Propylene and associated by-product production volumes at these facilities increased a combined 9 MBPD period-to-period (net to our interest) primarily due to planned major maintenance activities at our PDH 1 facility during the first quarter of 2021.

Butane isomerization and related operations

Third Quarter of 2022 Compared to Third Quarter of 2021. Gross operating margin from butane isomerization and related operations increased a net \$2 million quarter-to-quarter primarily due to higher average isomerization fees, which accounted for a \$6 million increase, and higher by-product sales volumes, which accounted for an additional \$5 million increase, partially offset by higher utility and other operating costs, which accounted for a \$9 million decrease.

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Gross operating margin from butane isomerization and related operations increased a net \$31 million period-to-period primarily due to higher by-product sales volumes and average prices, which accounted for a \$26 million increase, and higher isomerization volumes, which accounted for an additional \$17 million increase, partially offset by higher utility and other operating costs, which accounted for a \$15 million decrease.

Octane enhancement and related plant operations

Third Quarter of 2022 Compared to Third Quarter of 2021. Gross operating margin from our octane enhancement and related plant operations increased a net \$59 million quarter-to-quarter primarily due to higher average sales margins, which accounted for a \$69 million increase, partially offset by higher utility and other operating costs, which accounted for a \$14 million decrease.

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Gross operating margin from our octane enhancement and related plant operations increased a net \$229 million period-to-period primarily due to higher average sales margins, which accounted for a \$136 million increase, and higher sales volumes, which accounted for an additional \$129 million increase, partially offset by higher utility, amortization expense from major maintenance activities accounted for under the deferral method and other operating costs, which accounted for a \$32 million decrease. The period-to-period increase in sales volumes at these facilities is primarily due to planned major maintenance activities during the nine months ended September 30, 2021, which were completed in the last week of January 2021 for our HPIB plant and the beginning of May 2021 for our octane enhancement plant.

<u>Refined products pipelines and related activities</u>

Third Quarter of 2022 Compared to Third Quarter of 2021. Gross operating margin from refined products pipelines and related activities for the third quarter of 2022 increased \$8 million when compared to the third quarter of 2021.

Gross operating margin from our refined products marketing activities increased \$17 million quarter-to-quarter primarily due to higher average sales margins.

Gross operating margin from our TE Products Pipeline System decreased \$6 million quarter-to-quarter primarily due to lower aggregate transportation volumes and related fees. Overall, transportation volumes on our TE Products Pipeline System decreased a net 69 MBPD quarter-to-quarter.

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Gross operating margin from refined products pipelines and related activities for the nine months ended September 30, 2022 decreased \$36 million when compared to the nine months ended September 30, 2021.

Gross operating margin from our refined products marketing activities decreased a net \$27 million period-to-period primarily due to lower average sales margins, which accounted for a \$38 million decrease, partially offset by higher non-cash mark-to-market earnings, which accounted for a \$10 million increase.

Gross operating margin from our TE Products Pipeline System decreased \$7 million period-to-period primarily due to lower average transportation and other fees. Overall, transportation volumes on our TE Products Pipeline System decreased a net 199 MBPD period-to-period.

Ethylene exports and related activities

Third Quarter of 2022 Compared to Third Quarter of 2021. Gross operating margin from ethylene exports and related activities during the third quarter of 2022 increased \$10 million when compared to the third quarter of 2021.

Gross operating margin from our ethylene export terminal increased \$3 million quarter-to-quarter primarily due to higher average loading fees.

Gross operating margin from our other ethylene activities increased \$7 million quarter-to-quarter primarily due to a 24 MBPD increase in transportation volumes, which accounted for a \$3 million increase, and higher storage and other revenues, which accounted for an additional \$2 million increase.

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Gross operating margin from ethylene exports and related activities during the nine months ended September 30, 2022 increased \$49 million when compared to the nine months ended September 30, 2021.

Gross operating margin from our ethylene export terminal increased \$26 million period-to-period primarily due to an 11 MBPD (net to our interest) increase in export volumes.

Gross operating margin from our other ethylene activities increased \$23 million period-to-period primarily due to a 32 MBPD increase in transportation volumes, which accounted for a \$13 million increase, and higher storage and other revenues, which accounted for an additional \$11 million increase.

Marine transportation and other services

Third Quarter of 2022 Compared to Third Quarter of 2021. Gross operating margin from marine transportation and other services increased \$12 million quarter-to-quarter primarily due to higher average fees and fleet utilization rates.

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021. Gross operating margin from marine transportation and other services increased \$21 million period-to-period primarily due to higher average fees and fleet utilization rates.

Liquidity and Capital Resources

Based on current market conditions (as of the filing date of this quarterly report), we believe that the Partnership and its consolidated businesses will have sufficient liquidity, cash flow from operations and access to capital markets to fund their capital investments and working capital needs for the reasonably foreseeable future. At September 30, 2022, we had \$3.3 billion of consolidated liquidity. This amount was comprised of \$3.1 billion of available borrowing capacity under EPO's revolving credit facilities, which is the net of \$4.5 billion of total borrowing capacity under EPO's revolving credit facilities and \$1.4 billion outstanding under EPO's commercial paper program, and \$167 million of unrestricted cash on hand.

We may issue debt and equity securities to assist us in meeting our future funding and liquidity requirements, including those related to capital investments. We have a universal shelf registration statement on file with the SEC which allows the Partnership and EPO to issue an unlimited amount of equity and debt securities, respectively.

Enterprise Declares Cash Distribution for Third Quarter of 2022

On October 4, 2022, we announced that the Board declared a quarterly cash distribution of \$0.475 per common unit, or \$1.90 per unit on an annualized basis, to be paid to the Partnership's common unitholders with respect to the third quarter of 2022. The quarterly distribution is payable on November 14, 2022 to unitholders of record as of the close of business on October 31, 2022. The total amount to be paid is \$1.04 billion, which includes \$9 million for distribution equivalent rights on phantom unit awards.

The payment of quarterly cash distributions is subject to management's evaluation of our financial condition, results of operations and cash flows in connection with such payments and Board approval. Management will evaluate any future increases in cash distributions on a quarterly basis.

Consolidated Debt

At September 30, 2022, the average maturity of EPO's consolidated debt obligations was approximately 19.7 years. The following table presents the scheduled maturities of principal amounts of EPO's consolidated debt obligations at September 30, 2022 for the years indicated (dollars in millions):

| | | | | Scheduled Maturities of Debt | | | | | | | | | |
|---------------------------|--------------|----|---------------------|------------------------------|-------|----|----------|----|-------|----|------|----|------------|
| | Total | | emainder of 2022 | | 2023 | | 2024 | | 2025 | | 2026 | | Thereafter |
| Commercial Paper Notes | \$ 1,405 | \$ | 1,405 | \$ | _ | \$ | - | \$ | _ | \$ | _ | \$ | _ |
| Senior Notes | 25,775 | | _ | | 1,250 | | 850 | | 1,150 | | 875 | | 21,650 |
| Junior Subordinated Notes | 2,296 | _ | | | _ | | <u> </u> | | | | _ | | 2,296 |
| Total | \$ 29,476 | \$ | 1,405 | \$ | 1,250 | \$ | 850 | \$ | 1,150 | \$ | 875 | \$ | 23,946 |

In February 2022, EPO repaid all of the \$750 million and \$650 million in principal amount of its Senior Notes VV and CC, respectively, using remaining cash on hand attributable to its September 2021 senior notes offering and proceeds from issuances under its commercial paper program.

In August 2022, EPO redeemed \$350 million of the \$700 million outstanding principal amount of its Junior Subordinated Notes D at a redemption price equal to 100% of the principal amount of the notes being redeemed plus accrued and unpaid interest thereon to, but not including, the redemption date. The redemption was funded using cash on hand and proceeds from issuances under EPO's commercial paper program.

In September 2022, EPO entered into a new \$1.5 Billion 364-Day Revolving Credit Agreement (the "September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement") that replaced its September 2021 364-Day Revolving Credit Agreement. The September 2022 \$1.5 Billion 364-Day Revolving Credit Agreement matures in September 2023. EPO's borrowing capacity was unchanged from the prior 364-day revolving credit agreement. As of September 30, 2022, there are no principal amounts outstanding under this new revolving credit agreement.

For additional information regarding our consolidated debt obligations, see Note 7 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report.

Credit Ratings

As of November 8, 2022, the investment-grade credit ratings of EPO's long-term senior unsecured debt securities were BBB+ from Standard and Poor's, Baa1 from Moody's and BBB+ from Fitch Ratings. In addition, the credit ratings of EPO's short-term senior unsecured debt securities were A-2 from Standard and Poor's, P-2 from Moody's and F-2 from Fitch Ratings. EPO's credit ratings reflect only the view of a rating agency and should not be interpreted as a recommendation to buy, sell or hold any of our securities. A credit rating can be revised upward or downward or withdrawn at any time by a rating agency, if it determines that circumstances warrant such a change. A credit rating from one rating agency should be evaluated independently of credit ratings from other rating agencies.

Common Unit Repurchases Under 2019 Buyback Program

In January 2019, we announced that the Board had approved a \$2.0 billion multi-year unit buyback program (the "2019 Buyback Program"), which provides the Partnership with an additional method to return capital to investors. The Partnership repurchased 2,925,842 and 4,333,963 common units through open market purchases during the three and nine months ended September 30, 2022, respectively. The total cost of these repurchases, including commissions and fees, was \$72 million and \$107 million, respectively. As of September 30, 2022, the remaining available capacity under the 2019 Buyback Program was \$1.4 billion.

Cash Flow Statement Highlights

The following table summarizes our consolidated cash flows from operating, investing and financing activities for the periods indicated (dollars in millions).

| | <u></u> | For the Nine Months Ended September 30, | | |
|---|---------|--|------|-------|
| | | 2022 | 2021 | |
| Net cash flows provided by operating activities | \$ | 5,314 | \$ | 6,387 |
| Cash used in investing activities | | 4,309 | | 1,721 |
| Cash used in financing activities | | 3,715 | | 3.466 |

Net cash flows provided by operating activities are largely dependent on earnings from our consolidated business activities. Changes in energy commodity prices may impact the demand for natural gas, NGLs, crude oil, petrochemicals and refined products, which could impact sales of our products and the demand for our midstream services. Changes in demand for our products and services may be caused by other factors, including prevailing economic conditions, reduced demand by consumers for the end products made with hydrocarbon products, increased competition, public health emergencies, adverse weather conditions and government regulations affecting prices and production levels. We may also incur credit and price risk to the extent customers do not fulfill their contractual obligations to us in connection with our marketing activities and long-term take-or-pay agreements. For a more complete discussion of these and other risk factors pertinent to our business, see "Risk Factors" included under Part I, Item 1A of the 2021 Form 10-K and Part II, Item 1A of this quarterly report.

For additional information regarding our cash flow amounts, please refer to the Unaudited Condensed Statements of Consolidated Cash Flows included under Part I, Item 1 of this quarterly report.

The following information highlights significant period-to-period fluctuations in our consolidated cash flow amounts:

Operating activities

Net cash flows provided by operating activities for the nine months ended September 30, 2022 decreased a net \$1.1 billion when compared to the nine months ended September 30, 2021 primarily due to:

- a \$1.7 billion period-to-period decrease attributable to the use of working capital employed in our marketing activities primarily related to storage optimization strategies, the effect of higher commodity prices in accounts receivables, accounts payables and inventories, and the timing of cash receipts and payments related to operations; partially offset by
- a \$733 million period-to-period increase resulting from higher partnership earnings (determined by adjusting our \$472 million period-to-period increase in net income for changes in the non-cash items identified on our Unaudited Condensed Statements of Consolidated Cash Flows).

For information regarding significant period-to-period changes in our consolidated net income and underlying segment results, see "Income Statement Highlights" and "Business Segment Highlights" within this Part I, Item 2.

Investing activities

Cash used in investing activities during the nine months ended September 30, 2022 increased a net \$2.6 billion when compared to the nine months ended September 30, 2021 primarily due to:

- a net \$3.2 billion cash outflow in February 2022 in connection with the acquisition of Navitas Midstream; partially offset by
- a \$603 million period-to-period decrease in investments for property, plant and equipment (see "Capital Investments" within this Part I, Item 2 for additional information).

Financing activities

Cash used in financing activities during the nine months ended September 30, 2022 increased \$249 million when compared to the nine months ended September 30, 2021 primarily due to:

- a \$113 million period-to-period increase in cash distributions paid to common unitholders primarily attributable to increases in the quarterly cash distribution rate per unit; and
- a net \$75 million cash inflow during the nine months ended September 30, 2021 in connection with the termination of forward-starting interest rate swaps.
- The impact from debt activities was essentially flat period-to-period. During the nine months ended September 30, 2022, we repaid \$1.75 billion aggregate principal amount of senior and junior subordinated notes, partially offset by net issuances of \$1.4 billion under EPO's commercial paper program. During the nine months ended September 30, 2021 we repaid \$1.33 billion aggregate principal amount of senior notes, partially offset by the issuance of \$1.0 billion principal amount of senior notes.

Non-GAAP Cash Flow Measures

Distributable Cash Flow

Our partnership agreement requires us to make quarterly distributions to our common unitholders of all available cash, after any cash reserves established by Enterprise GP in its sole discretion. Cash reserves include those for the proper conduct of our business, including those for capital investments, debt service, working capital, operating expenses, common unit repurchases, commitments and contingencies and other amounts. The retention of cash allows us to reinvest in our growth and reduce our future reliance on the equity and debt capital markets.

We measure available cash by reference to distributable cash flow ("DCF"), which is a non-GAAP cash flow measure. DCF is an important financial measure for our common unitholders since it serves as an indicator of our success in providing a cash return on investment. Specifically, this financial measure indicates to investors whether or not we are generating cash flows at a level that can sustain our declared quarterly cash distributions. DCF is also a quantitative standard used by the investment community with respect to publicly traded partnerships since the value of a partnership unit is, in part, measured by its yield, which is based on the amount of cash distributions a partnership can pay to a unitholder. Our management compares the DCF we generate to the cash distributions we expect to pay our common unitholders. Using this metric, management computes our distribution coverage ratio. Our calculation of DCF may or may not be comparable to similarly titled measures used by other companies.

Based on the level of available cash each quarter, management proposes a quarterly cash distribution rate to the Board, which has sole authority in approving such matters. Enterprise GP has a non-economic ownership interest in the Partnership and is not entitled to receive any cash distributions from it based on incentive distribution rights or other equity interests.

Our use of DCF for the limited purposes described above and in this quarterly report is not a substitute for net cash flows provided by operating activities, which is the most comparable GAAP measure to DCF. For a discussion of net cash flows provided by operating activities, see "Cash Flow Statement Highlights" within this Part I, Item 2.

The following table summarizes our calculation of DCF for the periods indicated (dollars in millions):

| | | For the Thi Ended Sep | | | For the Nine Month Ended September 3 | | | |
|--|-----------|--------------------------|-----------|----------|---|----------|----|--------|
| | | 2022 | | 2021 | | 2022 | | 2021 |
| Net income attributable to common unitholders (GAAP) (1) Adjustments to net income attributable to common unitholders to derive DCF (addition or subtraction indicated by sign): | \$ | 1,360 | \$ | 1,153 | \$ | 4,067 | \$ | 3,606 |
| Depreciation, amortization and accretion expenses | | 558 | | 535 | | 1,675 | | 1,594 |
| Cash distributions received from unconsolidated affiliates (2) | | 132 | | 148 | | 411 | | 447 |
| Equity in income of unconsolidated affiliates | | (111) | | (137) | | (335) | | (447) |
| Asset impairment charges | | 29 | | 29 | | 48 | | 113 |
| Change in fair market value of derivative instruments | | (48) | | (47) | | 46 | | (86) |
| Deferred income tax expense | | 8 | | 9 | | 24 | | 33 |
| Sustaining capital expenditures (3) | | (77) | | (70) | | (234) | | (331) |
| Other, net (4) | | 11 | | (15) | | 1 | | (113) |
| Operational DCF (5) | \$ | 1,862 | \$ | 1,605 | \$ | 5,703 | \$ | 4,816 |
| Proceeds from asset sales | | 6 | | 8 | | 20 | | 58 |
| Monetization of interest rate derivative instruments accounted for as cash flow hedges | | <u> </u> | | <u> </u> | | <u> </u> | | 75 |
| DCF (non-GAAP) | \$ | 1,868 | \$ | 1,613 | \$ | 5,723 | \$ | 4,949 |
| Cash distributions paid to common unitholders with respect to period, including distribution equivalent rights on phantom unit awards | <u>\$</u> | 1,042 | <u>\$</u> | 990 | \$ | 3,109 | \$ | 2,972 |
| Cash distribution per common unit declared by Enterprise GP with respect to period (6) | \$ | 0.4750 | \$ | 0.4500 | \$ | 1.4150 | \$ | 1.3500 |
| Total DCF retained by the Partnership with respect to period (7) | \$ | 826 | \$ | 623 | \$ | 2,614 | \$ | 1,977 |
| Distribution coverage ratio (8) | | 1.8x | | 1.6x | | 1.8x | | 1.7x |

For a discussion of the primary drivers of changes in our comparative income statement amounts, see "Income Statement Highlights" within this Part I, Item 2.

Reflects aggregate distributions received from unconsolidated affiliates attributable to both earnings and the return of capital.

Sustaining capital expenditures include cash payments and accruals applicable to the period.

The nine months ended September 30, 2021 includes \$100 million of trade accounts receivable that we do not expect to collect in the normal billing cycle.

Represents DCF before proceeds from asset sales and the monetization of interest rate derivative instruments accounted for as cash flow hedges.

See Note 8 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report for information regarding our cash distributions

declared with respect to the periods indicated.

Cash retained by the Partnership may be used for capital investments, debt service, working capital, operating expenses, common unit repurchases, commitments and contingencies and other amounts. The retention of cash reduces our reliance on the capital markets.

Distribution coverage ratio is determined by dividing DCF by total cash distributions paid to common unitholders and in connection with distribution equivalent rights with respect to the

period.

The following table presents a reconciliation of net cash flows provided by operating activities to DCF for the periods indicated (dollars in millions):

| | For the Three Months Ended September 30, | | | | | nths r 30, | | |
|--|---|-------|------|-------|------|---------------|----|---------|
| | 2022 | | 2021 | | 2022 | | | 2021 |
| Net cash flows provided by operating activities (GAAP) Adjustments to reconcile net cash flows provided by operating activities to DCF (addition or subtraction indicated by sign): | \$ | 1,050 | \$ | 2,370 | \$ | 5,314 | \$ | 6,387 |
| Net effect of changes in operating accounts | | 900 | | (648) | | 682 | | (1,047) |
| Sustaining capital expenditures | | (77) | | (70) | | (234) | | (331) |
| Distributions received from unconsolidated affiliates attributable to the return of capital | | 27 | | 4 | | 82 | | 41 |
| Proceeds from asset sales | | 6 | | 8 | | 20 | | 58 |
| Net income attributable to noncontrolling interests | | (31) | | (28) | | (93) | | (82) |
| Monetization of interest rate derivative instruments accounted for as cash flow hedges | | _ | | _ | | - | | 75 |
| Other, net | | (7) | | (23) | | (48) | | (152) |
| DCF (non-GAAP) | \$ | 1,868 | \$ | 1,613 | \$ | 5,723 | \$ | 4,949 |

Capital Investments

We have approximately \$5.5 billion of growth capital projects scheduled to be completed by the end of 2025 including the following projects (including their respective scheduled completion dates):

- natural gas gathering expansion projects in the Delaware and Midland Basins (2022 and 2023);
- our PDH 2 facility (second quarter of 2023);
- a 400 MMcf/d expansion of our Acadian Gas System (second quarter of 2023);
- our Plant 6 natural gas processing plant in the Midland Basin (second quarter of 2023);
- a twelfth NGL fractionator ("Frac XII") in Chambers County, Texas (third quarter of 2023);
- our Mentone II natural gas processing plant in the Delaware Basin (fourth quarter of 2023);
- our Texas Western Products System, created by repurposing a portion of our Mid-America Pipeline System's Rocky Mountain segment and adding westbound service to our Chaparral Pipeline business to transport refined products from the U.S. Gulf Coast to markets in West Texas, New Mexico, Colorado and Utah (fourth quarter of 2023);
- our Mentone III natural gas processing plant in the Delaware Basin (first quarter of 2024);
- our Plant 7 natural gas processing plant in the Midland Basin (first quarter of 2024);
- the expansion of our Shin Oak NGL Pipeline (first half of 2025);
- an Ethane Terminal located along the coast between Corpus Christi, Texas and New Orleans, Louisiana (2025); and
- an expansion of our Morgan's Point terminal to increase ethylene export capacity (2023 and 2025).

In February 2022, we acquired Navitas Midstream from an affiliate of Warburg Pincus LLC for \$3.2 billion in net cash consideration, which was funded using proceeds from the issuance of short-term notes under EPO's commercial paper program and cash on hand. Shortly after closing on this transaction, we completed construction of the Leiker Plant and placed it into service in March 2022.

Based on information currently available, we expect our total capital investments for 2022, excluding business combinations and net of contributions from noncontrolling interests, to approximate \$2.0 billion, which reflects growth capital investments of \$1.6 billion and sustaining capital expenditures of \$350 million. These amounts do not include capital investments associated with our proposed deep-water offshore crude oil terminal (the Sea Port Oil Terminal, or SPOT), which remains subject to governmental approvals. We currently anticipate receiving approval for SPOT during the fourth quarter of 2022; however, we can give no assurance as to whether the project will ultimately be approved or the timing of such decision.

Our forecast of capital investments is dependent upon our ability to generate the required funds from either operating cash flows or other means, including borrowings under debt agreements, the issuance of additional equity and debt securities, and potential divestitures. We may revise our forecast of capital investments due to factors beyond our control, such as adverse economic conditions, weather-related issues and changes in supplier prices resulting from raw material or labor shortages, supply chain disruptions or inflation. Furthermore, our forecast of capital investments may change over time based on future decisions by management, which may include changing the scope or timing of projects or cancelling projects altogether. Our success in raising capital, having the ability to increase revenues commensurate with cost increases and our ability to partner with other companies to share project costs and risks, continue to be significant factors in determining how much capital we can invest. We believe our access to capital resources is sufficient to meet the demands of our current and future growth needs and, although we currently expect to make the forecast capital investments noted above, we may revise our plans in response to changes in economic and capital market conditions.

The following table summarizes our capital investments for the periods indicated (dollars in millions):

| | For the Nine Mor Ended September | | | | | | |
|--|-------------------------------------|--|-------|--|--|--|--|
| | 2022 | <u>. </u> | 2021 | | | | |
| Capital investments for property, plant and equipment: (1) | | | | | | | |
| Growth capital projects (2) | \$ | 960 \$ | 1,474 | | | | |
| Sustaining capital projects (3) | | 243 | 332 | | | | |
| Total | \$ | 1,203 \$ | 1,806 | | | | |
| | | | | | | | |
| Cash used for business combinations, net (4) | \$ | 3,204 \$ | | | | | |
| | | | | | | | |
| Investments in unconsolidated affiliates | \$ | 1 \$ | 1 | | | | |

- (1) Growth and sustaining capital amounts presented in the table above are presented on a cash basis. In total, these amounts represent "Capital expenditures" as presented on our Unaudited Condensed Statements of Consolidated Cash Flows.
- (2) Growth capital projects either (a) result in new sources of cash flow due to enhancements of or additions to existing assets (e.g., additional revenue streams, cost savings resulting from debottlenecking of a facility, etc.) or (b) expand our asset base through construction of new facilities that will generate additional revenue streams and cash flows.
- (3) Sustaining capital projects are capital expenditures (as defined by GAAP) resulting from improvements to existing assets. Such expenditures serve to maintain existing operations but do not generate additional revenues or result in significant cost savings. Sustaining capital expenditures include the costs of major maintenance activities at our reaction-based plants, which are accounted for using the deferral method.
- (4) Amount for the nine months ended September 30, 2022 represents net cash used for the acquisition of Navitas Midstream, which closed on February 17, 2022.

Comparison of Nine Months Ended September 30, 2022 with Nine Months Ended September 30, 2021

In total, investments in growth capital projects decreased a net \$514 million period-to-period primarily due to the following:

- lower investments at our Chambers County complex (e.g., completion of our natural gasoline hydrotreater in October 2021 and a period-to-period decrease in spending on our PDH 2 facility), which accounted for a \$214 million decrease;
- completion of our Gillis Lateral natural gas pipeline in December 2021, which accounted for a \$163 million decrease;
- completion of pipeline projects connecting our Chambers County complex with Gulf Coast assets, which accounted for a \$105 million decrease;

- lower investments in projects attributable to our ethylene business (e.g., completion of our Baymark ethylene pipeline in November 2021), which
 accounted for an \$87 million decrease; and
- completion of projects associated with crude oil pipelines (e.g., expansion projects involving the Midland-to-ECHO System and related crude oil infrastructure supporting Permian Basin producers), which accounted for an additional \$48 million decrease; partially offset by
- higher investments in natural gas processing and gathering projects in the Permian Basin (e.g., Plant 6 and Mentone II), which accounted for a \$133 million increase.

Investments attributable to sustaining capital projects decreased \$89 million period-to-period primarily due to lower major maintenance activities performed at certain of our reaction-based plants (e.g., PDH 1, octane enhancement and HPIB facilities).

Critical Accounting Policies and Estimates

A discussion of our critical accounting policies and estimates is included in our 2021 Form 10-K. The following types of estimates, in our opinion, are subjective in nature, require the exercise of professional judgment and involve complex analysis:

- depreciation methods and estimated useful lives of property, plant and equipment;
- measuring recoverability of long-lived assets and fair value of equity method investments;
- valuation and amortization methods of customer relationships and contract-based intangible assets;
- methods we employ to measure the fair value of goodwill and related assets; and
- the use of estimates for revenue and expenses.

When used to prepare our Unaudited Condensed Consolidated Financial Statements, the foregoing types of estimates are based on our current knowledge and understanding of the underlying facts and circumstances. Such estimates may be revised as a result of changes in the underlying facts and circumstances. Subsequent changes in these estimates may have a significant impact on our consolidated financial position, results of operations and cash flows.

Other Matters

Parent-Subsidiary Guarantor Relationship

The Partnership (the "Parent Guarantor") has guaranteed the payment of principal and interest on the consolidated debt obligations of EPO (the "Subsidiary Issuer"), with the exception of the remaining debt obligations of TEPPCO Partners, L.P. (collectively, the "Guaranteed Debt"). If EPO were to default on any of its Guaranteed Debt, the Partnership would be responsible for full and unconditional repayment of such obligations. At September 30, 2022, the total amount of Guaranteed Debt was \$29.7 billion, which was comprised of \$25.8 billion of EPO's senior notes, \$2.3 billion of EPO's junior subordinated notes, \$1.4 billion of short-term commercial paper notes and \$219 million of related accrued interest.

The Partnership's guarantees of EPO's senior note obligations, commercial paper notes and borrowings under bank credit facilities represent unsecured and unsubordinated obligations of the Partnership that rank equal in right of payment to all other existing or future unsecured and unsubordinated indebtedness of the Partnership. In addition, these guarantees effectively rank junior in right of payment to any existing or future indebtedness of the Partnership that is secured and unsubordinated, to the extent of the assets securing such indebtedness.

The Partnership's guarantees of EPO's junior subordinated notes represent unsecured and subordinated obligations of the Partnership that rank equal in right of payment to all other existing or future subordinated indebtedness of the Partnership and senior in right of payment to all existing or future equity securities of the Partnership. The Partnership's guarantees of EPO's junior subordinated notes effectively rank junior in right of payment to (i) any existing or future indebtedness of the Partnership that is secured, to the extent of the assets securing such indebtedness and (ii) all other existing or future unsecured and unsubordinated indebtedness of the Partnership.

The Partnership may be released from its guarantee obligations only in connection with EPO's exercise of its legal or covenant defeasance options as described in the underlying agreements.

Selected Financial Information of Obligor Group

The following tables present summarized financial information of the Partnership (as Parent Guarantor) and EPO (as Subsidiary Issuer) on a combined basis (collectively, the "Obligor Group"), after the elimination of intercompany balances and transactions among the Obligor Group.

In accordance with Rule 13.01 of Regulation S-X, the summarized financial information of the Obligor Group excludes the Obligor Group's equity in income and investments in the consolidated subsidiaries of EPO that are not party to the guarantee obligations (the "Non-Obligor Subsidiaries"). The total carrying value of the Obligor Group's investments in the Non-Obligor Subsidiaries was \$47.3 billion at September 30, 2022. The Obligor Group's equity in the earnings of the Non-Obligor Subsidiaries for the nine months ended September 30, 2022 was \$4.4 billion. Although the net assets and earnings of the Non-Obligor Subsidiaries are not directly available to the holders of the Guaranteed Debt to satisfy the repayment of such obligations, there are no significant restrictions on the ability of the Non-Obligor Subsidiaries to pay distributions or make loans to EPO or the Partnership. EPO exercises control over the Non-Obligor Subsidiaries. We continue to believe that the unaudited condensed consolidated financial statements of the Partnership presented under Part I, Item 1 of this quarterly report provide a more appropriate view of our credit standing. Our investment grade credit ratings are based on the Partnership's consolidated financial statements and not the Obligor Group's financial information presented below.

The following table presents summarized balance sheet information for the combined Obligor Group at the dates indicated (dollars in millions):

| Selected asset information: | September 30, 2022 | | ember 31, 2021 |
|--|-----------------------|----|-------------------|
| Current receivables from Non-Obligor Subsidiaries | \$ 1,515 | \$ | 358 |
| Other current assets | 6,023 | | 7,994 |
| Long-term receivables from Non-Obligor Subsidiaries | 187 | | 187 |
| Other noncurrent assets, excluding investments in Non-Obligor Subsidiaries of \$47.3 billion at September 30, 2022 and \$45.9 billion at December 31, 2021 | 9,187 | | 8,791 |
| Selected liability information: | | | |
| Current portion of Guaranteed Debt, including interest of \$219 million at September 30, 2022 and \$453 million at December 31, 2021 | \$ 2,873 | \$ | 1,853 |
| Current payables to Non-Obligor Subsidiaries | 2,385 | | 1,829 |
| Other current liabilities | 4,694 | | 4,743 |
| Noncurrent portion of Guaranteed Debt, principal only | 26,807 | | 28,407 |
| Noncurrent payables to Non-Obligor Subsidiaries | 38 | | 27 |
| Other noncurrent liabilities | 97 | | 48 |
| | | | |
| Mezzanine equity of Obligor Group: | | | |
| Preferred units | \$ 49 | \$ | 49 |

The following table presents summarized income statement information for the combined Obligor Group for the periods indicated (dollars in millions):

| | For the Nine Months Ended September 30, 2022 | For the Twelve Months Ended December 31, 2021 |
|---|---|--|
| Revenues from Non-Obligor Subsidiaries | \$ 10,80 | 0 \$ 13,114 |
| Revenues from other sources | 21,75 | 1 16,676 |
| Operating income of Obligor Group | 60 | 4 1,490 |
| Net income (loss) of Obligor Group excluding equity in earnings of Non-Obligor Subsidiaries of \$4.4 billion for the nine months ended September 30, 2022 and \$4.5 billion for the twelve months ended December 31, 2021 | (37 | 4) 145 |

Related Party Transactions

For information regarding our related party transactions, see Note 15 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

General

In the normal course of our business operations, we are exposed to certain risks, including changes in interest rates and commodity prices. In order to manage risks associated with assets, liabilities and certain anticipated future transactions, we use derivative instruments such as futures, forward contracts, swaps and other instruments with similar characteristics. Substantially all of our derivatives are used for non-trading activities.

We assess the risk associated with each of our derivative instrument portfolios using a sensitivity analysis model. This approach measures the change in fair value of the derivative instrument portfolio based on a hypothetical 10% change in the underlying interest rates or quoted market prices on a particular day. In addition to these variables, the fair value of each portfolio is influenced by changes in the notional amounts of the instruments outstanding and the discount rates used to determine the present values. The sensitivity analysis approach does not reflect the impact that the same hypothetical price movement would have on the hedged exposures to which they relate. Therefore, the impact on the fair value of a derivative instrument resulting from a change in interest rates or quoted market prices (as applicable) would normally be offset by a corresponding gain or loss on the hedged debt instrument, inventory value or forecasted transaction assuming:

- the derivative instrument functions effectively as a hedge of the underlying risk;
- · the derivative instrument is not closed out in advance of its expected term; and
- the hedged forecasted transaction occurs within the expected time period.

We routinely review the effectiveness of our derivative instrument portfolios in light of current market conditions. Accordingly, the nature and volume of our derivative instruments may change depending on the specific exposure being managed.

Commodity Hedging Activities

The price of energy commodities such as natural gas, NGLs, crude oil, petrochemicals and refined products are subject to fluctuations in response to changes in supply and demand, market conditions and a variety of additional factors that are beyond our control. In order to manage such price risks, we enter into commodity derivative instruments such as physical forward contracts, futures contracts, fixed-for-float swaps and basis swaps.

At September 30, 2022, our predominant commodity hedging strategies consisted of (i) hedging anticipated future purchases and sales of commodity products associated with transportation, storage and blending activities, (ii) hedging the fair value of commodity products held in inventory and (iii) hedging natural gas processing margins. For a summary of our portfolio of commodity derivative instruments outstanding, see Note 14 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report.

Sensitivity Analysis

The following tables show the effect of hypothetical price movements on the estimated fair values of our principal commodity derivative instrument portfolios at the dates indicated (dollars in millions).

The fair value information presented in the sensitivity analysis tables excludes the impact of applying Chicago Mercantile Exchange ("CME") Rule 814, which deems that financial instruments cleared by the CME are settled daily in connection with variation margin payments. As a result of this exchange rule, CME-related derivatives are considered to have no fair value at the balance sheet date for financial reporting purposes; however, the derivatives remain outstanding and subject to future commodity price fluctuations until they are settled in accordance with their contractual terms. Derivative transactions cleared on exchanges other than the CME (e.g., the Intercontinental Exchange or ICE) continue to be reported on a gross basis.

Interest Rate Hedging Activities

We may utilize interest rate swaps, forward-starting swaps, options to enter into forward-starting swaps ("swaptions"), and similar derivative instruments to manage our exposure to changes in interest rates charged on borrowings under certain consolidated debt agreements. This strategy may be used in controlling our overall cost of capital associated with such borrowings. As of the filing date of this quarterly report, we do not have any interest rate hedging instruments outstanding.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

As of the end of the period covered by this quarterly report, our management carried out an evaluation, with the participation of (i) A. James Teague, Co-Chief Executive Officer of Enterprise GP and (ii) W. Randall Fowler, Co-Chief Executive Officer and Chief Financial Officer of Enterprise GP, of the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934. Based on this evaluation, as of the end of the period covered by this quarterly report, Messrs. Teague and Fowler concluded:

- (i) that our disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive and financial officers, as appropriate to allow for timely decisions regarding required disclosures; and
- (ii) that our disclosure controls and procedures are effective.

Changes in Internal Control over Financial Reporting

There were no changes in our internal controls over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during the third quarter of 2022, that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Section 302 and 906 Certifications

The required certifications of Messrs. Teague and Fowler under Sections 302 and 906 of the Sarbanes-Oxley Act of 2002 are included as exhibits to this quarterly report (see Exhibits 31 and 32 under Part II, Item 6 of this quarterly report).

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

As part of our normal business activities, we may be named as defendants in litigation and legal proceedings, including those arising from regulatory and environmental matters. Although we are insured against various risks to the extent we believe it is prudent, there is no assurance that the nature and amount of such insurance will be adequate, in every case, to indemnify us against liabilities arising from future legal proceedings. We will vigorously defend the Partnership in litigation matters.

For additional information regarding our litigation matters, see Note 17 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report.

On occasion, we are assessed monetary penalties by governmental authorities related to administrative or judicial proceedings involving environmental matters. The following information summarizes matters where the eventual resolution of each of these matters may result in monetary sanctions in excess of \$0.3 million. We do not expect that any expenditures related to the following matters will be material to our consolidated financial statements.

- In June 2019, we received a Notice of Violation from the U.S. Environmental Protection Agency ("EPA") in connection with regulatory requirements applicable to facilities that we operate in Baton Rouge, Louisiana.
- In July 2021, we received a civil penalty demand from the U.S. Department of Justice and the State of Colorado regarding alleged violations of hydrocarbon leak detection and repair regulations applicable to our Meeker gas processing plant in Colorado.

- In August 2022, we received a Notice of Violation from the U.S. EPA alleging that gasoline at two of our refined products terminals in Texas had exceeded certain Clean Air Act-related standards during two past regulatory control periods.
- In August 2022, we received two Notices of Enforcement from the Texas Commission on Environmental Quality for alleged exceedances of air permit emission limits at our PDH 1 and iBDH facilities in Texas.

ITEM 1A. RISK FACTORS.

An investment in our securities involves certain risks. Security holders and potential investors in our securities should carefully consider the risks described under "*Risk Factors*" set forth in Part I, Item 1A of our 2021 Form 10-K, in addition to other information in such annual report and this quarterly report (including the risk factors set forth below). The risk factors set forth in our 2021 Form 10-K and as set forth below are important factors that could cause our actual results to differ materially from those contained in any written or oral forward-looking statements made by us or on our behalf.

Changes in price levels could negatively impact our revenue, our expenses, or both, which could adversely affect our business.

The operation of our assets and the execution of capital projects require significant expenditures for labor, materials, property, equipment and services. As a result, such costs may increase during periods of general business inflation, including as a result of higher commodity prices, supply chain disruptions and tight labor markets. Recent inflationary pressures affecting the general economy and the energy industry have increased our expenses and capital costs, and those costs may continue to increase. While the majority of long-term contracts for our services contain index-based changes and inflation adjustments, we may not be able to pass all of these increased costs to our customers in the form of higher fees for our services. In addition, we use the FERC's PPI-based price indexing methodology to establish tariff rates in certain markets served by our pipelines. As such, our revenues and operating margins are impacted by changes in price levels. Prior to adjustments to applicable rates, material cost increases may affect our operating margins, even if margins in subsequent periods may be normalized following applicable rate adjustments. Accordingly, increased costs during periods of general business inflation that are not passed through to customers or offset by other factors may have a material adverse effect on our financial position, results of operations and cash flows.

Our construction of new assets is subject to operational, regulatory, environmental, political, geopolitical, legal and economic risks, which may result in delays, increased costs or decreased cash flows.

One of the ways we intend to grow our business is through the construction of new midstream energy infrastructure assets. The construction of new assets involves numerous operational, regulatory, environmental, political, geopolitical, legal and economic risks beyond our control and may require the expenditure of significant amounts of capital. These potential risks include, among other things, the following:

- we may be unable to complete construction projects on schedule or at the budgeted cost due to the unavailability of required construction personnel, the unavailability of or delays in obtaining necessary materials as a result of supply chain disruptions (including those caused by COVID-19 lockdowns or geopolitical events, such as the Russian invasion of Ukraine), accidents, weather conditions, or an inability to obtain necessary permits;
- we will not receive any material increase in operating cash flows until the project is completed, even though we may have expended considerable funds during the construction phase, which may be prolonged;
- we may construct facilities to capture anticipated future production growth in a region in which such growth does not materialize;
- since we are not engaged in the exploration for and development of crude oil or natural gas reserves, we may not have access to third party estimates of reserves in an area prior to our constructing facilities in the area. As a result, we may construct facilities in an area where the reserves are materially lower than we anticipate;

- in those situations where we do rely on third party reserve estimates in making a decision to construct assets, these estimates may prove inaccurate;
- the completion or success of our construction project may depend on the completion of a third party construction project (e.g., a downstream crude oil refinery expansion or construction of a new petrochemical facility) that we do not control and that may be subject to numerous of its own potential risks, delays and complexities; and
- we may be unable to obtain rights-of-way to construct additional pipelines or the cost to do so may be uneconomical.

A materialization of any of these risks could adversely affect our ability to achieve growth in the level of our cash flows or realize benefits from expansion opportunities or construction projects, which could impact the level of cash distributions we pay to partners.

Several of our assets have been in service for many years and require significant expenditures to maintain them. As a result, an increase in future maintenance or repair costs or delays in completing necessary maintenance or repair activities could have a material adverse effect on our financial position, results of operations and cash flows.

Our pipelines, terminals and storage assets are generally long-lived assets, and many of them have been in service for many years. The age and condition of our assets could result in increased maintenance or repair expenditures in the future. Additionally, we may be unable to complete maintenance or repairs due to the unavailability of necessary materials as a result of supply chain disruptions (including those caused by COVID-19 lockdowns or geopolitical events, such as the Russian invasion of Ukraine), which may result in the suspension of operations of the impacted assets until such activities can be completed. Any significant increase in these expenditures or delays in completing necessary maintenance or repairs could adversely affect our results of operations, financial position or cash flows, as well as our ability to make cash distributions to our unitholders.

A cyber-attack on our IT systems could affect our business and assets, and have a material adverse effect on our financial position, results of operations and cash flows.

We rely on our IT systems to conduct our business, as well as systems of third-party vendors. These systems include information used to operate our assets, as well as cloud-based services. These systems are subject to possible security breaches and cyber-attacks.

Cyber-attacks are becoming more sophisticated, and U.S. government warnings have indicated that infrastructure assets, including pipelines, may be specifically targeted by certain groups. These attacks include, without limitation, malicious software, ransomware, attempts to gain unauthorized access to data, and other electronic security breaches. These attacks, which could increase as a result of geopolitical events (including the Russian invasion of Ukraine), may be perpetrated by state-sponsored groups, "hacktivists", criminal organizations or private individuals (including employee malfeasance). These cybersecurity risks include cyber-attacks on both us and third parties who provide material services to us. In addition to disrupting operations, cyber security breaches could also affect our ability to operate or control our facilities, render data or systems unusable, or result in the theft of sensitive, confidential or customer information. These events could also damage our reputation, and result in losses from remedial actions, loss of business or potential liability to third parties.

We do not carry insurance specifically for cybersecurity events; however, certain of our insurance policies may allow for coverage of associated damages resulting from such events. If we were to incur a significant liability for which we were not fully insured, it could have a material adverse effect on our financial position, results of operations and cash flows. In addition, the proceeds of any such insurance may not be paid in a timely manner and may be insufficient if such an event were to occur.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

Recent Issuances of Unregistered Securities

Holders of our Series A Cumulative Convertible Preferred Units ("preferred units") are entitled to receive cumulative quarterly distributions at a rate of 7.25% per annum. We may satisfy our obligation to pay distributions to the preferred unitholders through the issuance, in whole or in part, of additional preferred units (referred to as paid-in-kind or "PIK" distributions), with the remainder in cash, subject to certain rights of a holder to elect all cash and other conditions as described in our partnership agreement.

The Partnership made quarterly PIK distributions of 16,823, 17,128 and 17,438 preferred units to OTA Holdings, Inc., an indirect, wholly owned subsidiary of the Partnership ("OTA") in the first, second and third quarters of 2022, respectively. The preferred units held by OTA are accounted for as treasury units in consolidation. For additional information regarding the preferred units, see Note 8 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report.

The issuances of preferred units as PIK distributions during the three and nine months ended September 30, 2022 were undertaken in reliance upon an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to Section 4(a)(2) thereof.

Other than as described above, there were no sales of unregistered equity securities during the third quarter of 2022.

Issuer Purchases of Equity Securities

The following table summarizes our equity repurchase activity during the third quarter of 2022:

| Period 2019 Buyback Program: (1) | Total Number of Units Purchased | _ | Average Price Paid per Unit | Total Number Of Units Purchased as Part of 2019 Buyback Program | Do B Ur | Remaining ollar Amount of Units That May e Purchased ider the 2019 Buyback Program § thousands) |
|----------------------------------|---------------------------------------|----|-----------------------------------|---|---------------|---|
| July 2022 | _ | \$ | _ | _ | \$ | 1,483,983 |
| August 2022 | 484,179 | \$ | 25.78 | 484,179 | \$ | 1,471,499 |
| September 2022 | 2,441,663 | \$ | 24.43 | 2,441,663 | \$ | 1,411,858 |
| Vesting of phantom unit awards: | | | | | | |
| July 2022 | - | \$ | - | n/a | | n/a |
| August 2022 (2) | 66,810 | \$ | 26.58 | n/a | | n/a |
| September 2022 | _ | \$ | _ | n/a | | n/a |

⁽¹⁾ In January 2019, we announced the 2019 Buyback Program, which authorized the repurchase of up to \$2 billion of EPD's common units. Units repurchased under this program are

cancelled immediately upon acquisition.

(2) Of the 249,032 phantom unit awards that vested in August 2022 and converted to common units, 66,810 units were sold back to us by employees to cover related withholding tax requirements. These repurchases are not part of any announced program. We cancelled these units immediately upon acquisition.

SARBANES-OXLEY SECTION 302 CERTIFICATION

I, A. James Teague, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Enterprise Products Partners L.P;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(f)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles:
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
