ENTERPRISE GP HOLDINGS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Partnership Organization and Basis of Financial Statement Presentation

Significant Relationships Referenced in Notes to Unaudited Condensed Consolidated Financial Statements

Unless the context requires otherwise, references to “we,” “us,” “our” or “Enterprise GP Holdings L.P.” are intended to mean and include the business and operations of Enterprise GP Holdings L.P., the parent company, as well as its consolidated subsidiaries, which include Enterprise Products GP, LLC and Enterprise Products Partners L.P. and its consolidated subsidiaries.

References to “the parent company” are intended to mean and include Enterprise GP Holdings L.P., individually as the parent company, and not on a consolidated basis.

References to “EPE Holdings” mean EPE Holdings, LLC, which is the general partner of Enterprise GP Holdings L.P.

References to “Enterprise Products Partners” mean the business and operations of Enterprise Products Partners L.P. and its consolidated subsidiaries including Duncan Energy Partners L.P.

References to the “Operating Partnership” mean Enterprise Products Operating L.P., a wholly owned subsidiary of Enterprise Products Partners through which Enterprise Products Partners conducts substantially all of its business. The Operating Partnership owns the general partner of Duncan Energy Partners L.P.

References to “Enterprise Products GP” mean Enterprise Products GP, LLC, which is the general partner of Enterprise Products Partners L.P.

References to “Duncan Energy Partners” mean Duncan Energy Partners L.P., which is a consolidated subsidiary of the Operating Partnership of Enterprise Products Partners. Duncan Energy Partners completed its initial public offering of common units on February 5, 2007 and owns equity interests in certain of Enterprise Products Partners’ midstream energy businesses (see Note 12).

References to “TEPPCO” mean TEPPCO Partners, L.P., a publicly traded affiliate, the units of which are listed on the New York Stock Exchange (“NYSE”) under ticker symbol “TPP.” References to “TEPPCO GP” refer to Texas Eastern Products Pipeline Company, LLC, which is the general partner of TEPPCO and is wholly owned by a private company subsidiary of EPCO.

References to “Employee Partnerships” mean EPE Unit L.P. and EPE Unit II, L.P., collectively, which are private company affiliates of EPCO. References to “EPE Unit I” and “EPE Unit II” refer to EPE Unit L.P. and EPE Unit II, L.P., respectively.

References to “EPCO” mean EPCO, Inc., which is a related party affiliate to all of the foregoing named entities.

Partnership Organization

Enterprise GP Holdings L.P. is a publicly traded Delaware limited partnership, the units of which are listed on the NYSE under the ticker symbol “EPE.” Enterprise GP Holdings L.P. was formed in April 2005 and completed its initial public offering of 14,216,784 units in August 2005.

Enterprise GP Holdings L.P. is the owner of Enterprise Products GP, which is the general partner of Enterprise Products Partners. The primary business purpose of Enterprise Products GP is to manage the

[Table of Contents](#)

affairs and operations of Enterprise Products Partners, which is a North American midstream energy company that provides a wide range of services to producers and consumers of natural gas, natural gas liquids (“NGLs”), crude oil, and certain petrochemicals. Enterprise Products Partners is an industry leader in the development of pipeline and other midstream energy infrastructure in the continental United States and Gulf of Mexico.

Enterprise GP Holdings L.P. is owned 99.99% by its limited partners and 0.01% by EPE Holdings, its general partner. EPE Holdings is a wholly owned subsidiary of Dan Duncan LLC, the membership interests of which are owned by Dan L. Duncan. Enterprise GP Holdings L.P., EPE Holdings, Dan Duncan LLC, Enterprise Products GP and Enterprise Products Partners and its consolidated subsidiaries are affiliates and under common control of Dan L. Duncan, the Chairman and controlling shareholder of EPCO. Enterprise GP Holdings L.P. and Enterprise Products GP have no independent operations outside those of Enterprise Products Partners.

Basis of Presentation of Financial Statements

Our results of operations for the three months ended March 31, 2007 are not necessarily indicative of results expected for the full year.

Except per unit amounts, or as noted within the context of each footnote disclosure, the dollar amounts presented in the tabular data within these footnote disclosures are stated in thousands of dollars.

In our opinion, the accompanying Unaudited Condensed Consolidated Financial Statements include all adjustments consisting of normal recurring accruals necessary for fair presentation. Although we believe the disclosures in these financial statements are adequate to make the information presented not misleading, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) have been condensed or omitted pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (“SEC”). These Unaudited Condensed Consolidated Financial Statements should be read in conjunction with our annual report on Form 10-K for the year ended December 31, 2006 (Commission File No. 1-32610).

Since the parent company owns the general partner of Enterprise Products Partners, it controls the activities of Enterprise Products GP and Enterprise Products Partners. The parent company consolidates the financial information of these subsidiaries with that of its own. We refer to the consolidated group of entities as Enterprise GP Holdings L.P.

The amount of net earnings of Enterprise Products Partners allocated to its limited partner interests not owned by the parent company is reflected as minority interest expense in our Unaudited Condensed Statements of Consolidated Operations. Likewise, the amount of net assets of Enterprise Products Partners allocated to its limited partner interests not owned by the parent company is reflected as minority interest in our Unaudited Condensed Consolidated Balance Sheets. Apart from such minority interest-related amounts, debt and interest expense recognized in connection with the parent company’s borrowings, our Unaudited Condensed Consolidated Financial Statements do not differ materially from the consolidated financial statements of Enterprise Products Partners.

Parent Company Financial Information

The parent company has no separate operating activities apart from those conducted by the Operating Partnership. The principal sources of cash flow for the parent company are its investments in limited and general partner ownership interests in Enterprise Products Partners. The parent company’s primary cash requirements are for general and administrative costs, debt service requirements and distributions to its partners. The parent company’s assets and liabilities are not available to satisfy the debts and other obligations of Enterprise Products Partners.

[Table of Contents](#)

In order to fully understand the financial condition and results of operations of the parent company, we are providing the financial information of Enterprise GP Holdings L.P. apart from that of our consolidated partnership information.

The following table presents the parent company's balance sheet data at the dates indicated:

	March 31, 2007	December 31, 2006
ASSETS		
Current assets	\$ 1,267	\$ 2,928
Investments in and advances to unconsolidated affiliates (1)	836,878	840,933
Other assets	255	340
Total assets	<u>\$838,400</u>	<u>\$844,201</u>
LIABILITIES AND PARTNERS' EQUITY		
Current liabilities	\$ 1,167	\$ 1,023
Long term debt (2)	154,000	155,000
Partners' equity	683,233	688,178
Total liabilities and partners' equity	<u>\$838,400</u>	<u>\$844,201</u>

(1) Represents the parent company's equity method investments in Enterprise Products GP and Enterprise Products Partners. These parent company investments are eliminated in the process of consolidating the financial statements of the parent company with those of Enterprise Products GP and Enterprise Products Partners.

(2) Represents borrowings outstanding under the parent company's credit facility (see Note 9).

The following table presents the parent company's statements of operations for the periods indicated:

	For the Three Months Ended March 31,	
	2007	2006
Equity in income of unconsolidated affiliates (1)	\$ 29,557	\$ 25,108
General and administrative costs	899	718
Operating income	28,658	24,390
Other income (expense)		
Interest expense (2)	(2,556)	(2,066)
Interest income	20	13
Income before cumulative effect of change in accounting principle	26,122	22,337
Cumulative effect of change in accounting principle	—	18
Net income	<u>\$ 26,122</u>	<u>\$ 22,355</u>

(1) Represents the parent company's earnings from its equity method investments in Enterprise Products GP and Enterprise Products Partners.

(2) Represents interest expense associated with the parent company's credit facility.

[Table of Contents](#)

The following table presents the parent company's statements of cash flows for the periods indicated:

	For the Three Months Ended March 31,	
	2007	2006
Operating activities:		
Net income	\$ 26,122	\$ 22,355
<i>Adjustments to reconcile net income to net cash flows provided by operating activities:</i>

Equity in income of unconsolidated affiliates	(29,557)	(25,108)
Distributions from unconsolidated affiliates (1)	33,658	28,482
Amortization of debt issue costs	85	78
Amortization of equity awards	6	7
Net effect of changes in operating accounts	1,783	579
Net cash flows provided by operating activities	32,097	26,375
Investing activities:		
Investments in unconsolidated affiliates	(14)	(8,616)
Cash used in investing activities	(14)	(8,616)
Financing activities:		
Net borrowings (repayments) under debt agreements (2)	(1,000)	9,500
Debt issuance costs	—	(934)
Distributions paid to partners	(31,113)	(24,890)
Cash used in financing activities	(32,113)	(16,324)
Net change in cash and cash equivalents	(30)	1,435
Cash and cash equivalents, January 1	783	509
Cash and cash equivalents, March 31	\$ 753	\$ 1,944

(1) Represents distributions received by the parent company from its equity method investments in Enterprise Products GP and Enterprise Products Partners.

(2) During the three months ended March 31, 2006, the parent company borrowed \$8.6 million under its credit facility to fund capital contributions to Enterprise Products GP to maintain Enterprise Products GP's 2% general partner interest in Enterprise Products Partners.

Note 2. General Accounting Policies and Related Matters

Accounting for Employee Benefit Plans

Dixie Pipeline Company ("Dixie"), a consolidated subsidiary, employs the personnel that operate its pipeline system and certain of these employees are eligible to participate in a defined contribution plan and pension and postretirement benefit plans. Due to the immaterial nature of Dixie's employee benefit plans to our consolidated financial position, results of operations and cash flows, our discussion is limited to the following:

Defined Contribution Plan. Dixie contributed \$0.1 million to its company-sponsored defined contribution plan during the three month periods ended March 31, 2007 and 2006.

Pension and Postretirement Benefit Plans. Dixie's net pension benefit costs were \$0.2 million for the three month periods ended March 31, 2007 and 2006. Dixie's net postretirement benefit costs were \$0.1 million for the three month periods ended March 31, 2007 and 2006. During the remainder of 2007, Dixie expects to contribute approximately \$0.3 million to its postretirement benefit plan and approximately \$0.5 million to its pension plan.

Consolidation Policy

We evaluate our financial interests in business enterprises to determine if they represent variable interest entities where we are the primary beneficiary. If such criteria are met, we consolidate the financial statements of such businesses with those of our own. Our consolidated financial statements include our accounts and those of our majority-owned subsidiaries in which we have a controlling interest, after the elimination of all material intercompany accounts and transactions. We also consolidate other entities and ventures in which we possess a controlling financial interest as well as partnership interests where we are the sole general partner of the partnership.

If the investee is organized as a limited partnership or limited liability company and maintains separate ownership accounts, we account for our investment using the equity method if our ownership interest is between 3% and 50% and we exercise significant influence over the investee's operating and financial policies. For all other types of investments, we apply the equity method of accounting if our ownership interest is between 20% and 50% and we exercise significant influence over the investee's operating and financial policies. Our proportionate share of profits and losses from transactions with equity method unconsolidated affiliates are eliminated in consolidation to the extent such amounts are material and remain on our balance sheet (or those of our equity method investees) in inventory or similar accounts.

If our ownership interest in an investee does not provide us with either control or significant influence over the investee, we account for the investment using the cost method.

Cumulative Effect of Change in Accounting Principle

In January 2006, we adopted the provisions of Statement of Financial Accounting Standards ("SFAS") 123(R), "Share-Based Payment." Upon adoption of this accounting standard, we recognized, as a benefit, a cumulative effect of change in accounting principle of \$1.5 million, of which \$1.4 million is included as a component of minority interest expense since the limited partners of Enterprise Products Partners (other than the parent company) were allocated their share of this benefit.

Environmental Costs

Environmental costs for remediation are accrued based on estimates of known remediation requirements. Such accruals are based on management's best estimate of the ultimate cost to remediate a site and are adjusted as further information and circumstances develop. Those estimates may change substantially depending on information about the nature and extent of contamination, appropriate remediation technologies, and regulatory approvals. Ongoing environmental compliance costs are charged to expense as incurred. In accruing for environmental remediation liabilities, costs of future expenditures for environmental remediation are not discounted to their present value, unless the amount and timing of the expenditures are fixed or reliably determinable. Expenditures to mitigate or prevent future environmental contamination are capitalized.

At March 31, 2007 and December 31, 2006, our accrued liabilities for environmental remediation projects totaled \$30.2 million and \$24.2 million, respectively. These amounts were derived from a range of reasonable estimates based upon studies and site surveys. Unanticipated changes in circumstances and/or legal requirements could result in expenses being incurred in future periods in addition to an increase in actual cash required to remediate contamination for which we are responsible.

In February 2007, we reserved \$6.5 million in cash received from a third party to fund anticipated future environmental remediation costs associated with certain assets that we had acquired from the third party. Previously, the third party had been obligated to indemnify us for such costs. As a result of the settlement, this indemnification was terminated.

Estimates

Preparing our Unaudited Condensed Consolidated Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Our actual results could differ from these estimates. On an ongoing basis, management reviews its estimates based on currently available information. Changes in facts and circumstances may result in revised estimates.

Income Taxes

We are organized as a pass-through entity for income tax purposes. As a result, our partners are responsible for federal income taxes on their share of our taxable income. For the three months ended March 31, 2007, our provision for income taxes of \$8.8 million is applicable to state tax obligations under the Texas Margin Tax and certain federal and state tax obligations of Seminole Pipeline Company (“Seminole”) and Dixie.

In accordance with Financial Accounting Standards Board Interpretation (“FIN”) 48, “Accounting for Uncertainty in Income Taxes,” we must recognize the tax effects of any uncertain tax positions we may adopt, if the position taken by us is more likely than not sustainable. If a tax position meets such criteria, the tax effect to be recognized by us would be the largest amount of benefit with more than a 50% chance of being realized upon settlement. This guidance was effective January 1, 2007, and our adoption of this guidance had no material impact on our financial position, results of operations or cash flows.

Minority Interest

As presented in our Unaudited Condensed Consolidated Balance Sheets, minority interest represents third-party ownership interests in the net assets of our consolidated subsidiaries. For financial reporting purposes, the assets and liabilities of our majority owned subsidiaries are consolidated with those of the parent company, with any third-party ownership in such amounts presented as minority interest. The following table presents the components of minority interest as presented on our balance sheet at the dates indicated:

	March 31, 2007	December 31, 2006
Limited partners of Enterprise Products Partners:		
Third-party owners of Enterprise Products Partners (1)	\$5,157,598	\$5,215,065
Related party owners of Enterprise Products Partners (2)	361,668	399,876
Limited partners of Duncan Energy Partners:		
Third-party owners of Duncan Energy Partners (3)	294,703	—
Joint venture partners (4)	138,873	129,130
Total minority interest on consolidated balance sheet	<u>\$5,952,842</u>	<u>\$5,744,071</u>

(1) Consists of non-affiliate public unitholders of Enterprise Products Partners.

(2) Consists of unitholders of Enterprise Products Partners that are related party affiliates of Enterprise GP Holdings L.P. This group is primarily comprised of EPCO and certain of its private company consolidated subsidiaries.

(3) Consists of non-affiliate public unitholders of Duncan Energy Partners. On February 5, 2007, Duncan Energy Partners completed its initial public offering of 14,950,000 common units. The Operating Partnership of Enterprise Products Partners owns the general partner of Duncan Energy Partners; therefore, Enterprise Products Partners consolidates the financial statements of Duncan Energy Partners with those of its own. For financial accounting and reporting purposes, the public owners of Duncan Energy Partners are presented as minority interest in our consolidated financial statements effective February 1, 2007.

(4) Represents third-party ownership interests in joint ventures that we consolidate, including Seminole, Dixie, Tri-States Pipeline LLC (“Tri-States”), Independence Hub LLC (“Independence Hub”), Wilprise Pipeline Company LLC and Belle Rose NGL Pipeline LLC (“Belle Rose”).

Table of Contents

The following table presents the components of minority interest expense as presented on our income statements for the periods indicated:

	For the Three Months Ended March 31,	
	2007	2006
Limited partners of Enterprise Products Partners	\$ 82,404	\$107,170
Limited partners of Duncan Energy Partners	2,831	—
Joint venture partners	2,831	2,198
Total	<u>\$ 88,066</u>	<u>\$109,368</u>

The following table presents distributions paid to and contributions from minority interests as presented on our cash flow statements for the periods indicated:

	For the Three Months Ended March 31,	
	2007	2006
Distributions paid to minority interests:		
Limited partners of Enterprise Products Partners	\$197,438	\$165,054
Joint venture partners	1,053	1,495
Total	<u>\$198,491</u>	<u>\$166,549</u>
Contributions from minority interests:		
Limited partners of Enterprise Products Partners	\$ 16,657	\$432,110
Limited partners of Duncan Energy Partners	291,872	—
Joint venture partners	7,965	11,372
Total	<u>\$316,494</u>	<u>\$443,482</u>

Distributions paid to the limited partners of Enterprise Products Partners primarily represent the quarterly cash distributions paid by Enterprise Products Partners to its unitholders, excluding those paid to the parent company in connection with its ownership of Enterprise Products Partners' common units.

Contributions from the limited partners of Enterprise Products Partners primarily represent proceeds Enterprise Products Partners received from common unit offerings, excluding those received from the parent company.

Contributions from the limited partners of Duncan Energy Partners represent the net proceeds received by Duncan Energy Partners in connection with its initial public offering. On February 5, 2007, Duncan Energy Partners completed its initial public offering of 14,950,000 common units (including an over-allotment amount of 1,950,000 common units) at \$21.00 per unit, which generated net proceeds to Duncan Energy Partners of \$291.9 million. As consideration for assets contributed and reimbursement for capital expenditures related to these assets, Duncan Energy Partners distributed \$260.6 million of these net proceeds to the Operating Partnership along with \$198.9 million in borrowings under its credit facility and a final amount of 5,351,571 common units of Duncan Energy Partners. The Operating Partnership used the cash it received from Duncan Energy Partners to temporarily reduce amounts outstanding under its Multi-Year Revolving Credit Facility.

Recent Accounting Developments

SFAS 157, "Fair Value Measurements," defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007 and we will be required to adopt SFAS 157 on January 1, 2008. We do not believe SFAS 157 will have a material impact on our financial position, results of operations, and cash flows since we already apply its basic concepts in measuring fair values used to record various transactions such as business combinations and asset acquisitions.

[Table of Contents](#)

SFAS 159, “Fair Value Option for Financial Assets and Financial Liabilities — Including an amendment of FASB Statement No. 115,” permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected would be reported in net income. SFAS 159 also establishes presentation and disclosure requirements designed to draw comparisons between the different measurement attributes the company elects for similar types of assets and liabilities. SFAS 159 is effective for fiscal years beginning after November 15, 2007. We are currently evaluating the impact that the adoption of SFAS 159 will have on our financial statements.

Note 3. Accounting for Equity Awards

We account for equity awards using SFAS 123(R). SFAS 123(R) requires us to recognize compensation expense related to equity awards based on the fair value of the award at grant date. The fair value of an equity award is estimated using the Black-Scholes option pricing model. Under SFAS 123(R), the fair value of an award is amortized to earnings on a straight-line basis over the requisite service or vesting period.

Unit Options and Restricted Units

Under EPCO’s 1998 Long-Term Incentive Plan (the “1998 Plan”), non-qualified incentive options to purchase a fixed number of Enterprise Products Partners’ common units may be granted to EPCO’s key employees who perform management, administrative or operational functions for us.

The information in the following table presents unit option activity under the 1998 Plan for the periods indicated:

	Number of Units	Weighted- average strike price (dollars/unit)	Weighted- average remaining contractual term (in years)	Aggregate Intrinsic Value (1)
Outstanding at December 31, 2006	2,416,000	\$ 23.32		
Exercised	(138,000)	\$ 18.74		
Outstanding at March 31, 2007	<u>2,278,000</u>	<u>\$ 23.60</u>	<u>7.47</u>	<u>\$ 4,672</u>
Options exercisable at:				
March 31, 2007	<u>453,000</u>	<u>\$ 21.49</u>	<u>4.67</u>	<u>\$ 4,672</u>

(1) Aggregate intrinsic value reflects fully vested unit options at March 31, 2007.

The total intrinsic value of Enterprise Products Partners’ unit options exercised during the three months ended March 31, 2007 was \$1.6 million. We recognized \$0.2 million and \$0.1 million of compensation expense associated with unit options during the three months ended March 31, 2007 and 2006, respectively.

As of March 31, 2007, there was an estimated \$2.0 million of total unrecognized compensation cost related to nonvested unit options granted under the 1998 Plan. We expect to recognize our share of this cost over a weighted-average period of 2.6 years in accordance with the EPCO administrative services agreement.

During the three months ended March 31, 2007 and 2006, we received cash of \$4.2 million and \$0.7 million, respectively, from the exercise of unit options, and our option-related reimbursements to EPCO were \$1.6 million and \$0.4 million, respectively.

[Table of Contents](#)

Under the 1998 Plan, Enterprise Products Partners may also issue restricted common units to key employees of EPCO and directors of Enterprise Products GP. The following table summarizes information regarding Enterprise Products Partners restricted common units for the periods indicated:

	Number of Units	Weighted- Average Grant Date Fair Value per Unit ⁽¹⁾
Restricted units at December 31, 2006	1,105,237	
Granted ⁽²⁾	15,140	\$ 27.38
Forfeited	(2,000)	\$ 22.91
Restricted units at March 31, 2007	<u>1,118,377</u>	

- (1) Determined by dividing the aggregate grant date fair value of awards (including an allowance for forfeitures) by the number of awards issued.
- (2) Aggregate grant date fair value of restricted common unit awards issued during 2007 was \$0.4 million based on a grant date market price of Enterprise Products Partners' common units of \$30.16 per unit and an estimated forfeiture rate of 9.2%.

None of Enterprise Products Partners' restricted common units vested during the three months ended March 31, 2007. During the three months ended March 31, 2007 and 2006, we recognized \$1.1 million and \$0.7 million, respectively, of compensation expense in connection with Enterprise Products Partners' restricted common units.

As of March 31, 2007, there was \$16.4 million of total unrecognized compensation cost related to restricted common units. We will recognize our share of such costs in accordance with the EPCO administrative services agreement. At March 31, 2007, these costs are expected to be recognized over a weighted-average period of 2.5 years.

The 1998 Plan provides for the issuance of up to 7,000,000 common units. As of March 31, 2007, 1,597,000 common units of Enterprise Products Partners had been issued in connection with the exercise of unit options. After giving effect to outstanding unit options at March 31, 2007 and the issuance and forfeiture of restricted common units through March 31, 2007, a total of 2,012,303 additional common units of Enterprise Products Partners could be issued under the 1998 Plan.

Employee Partnerships

For the three months ended March 31, 2007 and 2006, we recorded \$0.5 million and \$0.6 million, respectively, of non-cash compensation expense associated with EPE Unit I. We also recorded a nominal amount of non-cash compensation expense associated with EPE Unit II during the three months ended March 31, 2007. As of March 31, 2007, there was \$8.8 million of total unrecognized compensation cost related to these awards, of which we will recognize our share in accordance with the EPCO administrative services agreement.

Note 4. Financial Instruments

We are exposed to financial market risks, including changes in commodity prices and interest rates. In addition, we are exposed to fluctuations in exchange rates between the U.S. dollar and Canadian dollar with respect to a recently acquired NGL marketing business located in Canada. We may use financial instruments (i.e., futures, forwards, swaps, options and other financial instruments with similar characteristics) to mitigate the risks of certain identifiable and anticipated transactions. In general, the type of risks we attempt to hedge are those related to (i) variability of future earnings, (ii) fair values of certain debt instruments and (iii) cash flows resulting from changes in applicable interest rates, commodity prices or exchange rates. As a matter of policy, we do not use financial instruments for speculative (or "trading") purposes.

Interest Rate Risk Hedging Program

Our interest rate exposure results from variable and fixed interest rate borrowings under various debt agreements. We manage a portion of our interest rate exposure by utilizing interest rate swaps and similar arrangements, which allow us to convert a portion of fixed rate debt into variable rate debt or a portion of variable rate debt into fixed rate debt.

Fair Value Hedges — Interest Rate Swaps. As summarized in the following table, we had eleven interest rate swap agreements outstanding at March 31, 2007 that were accounted for as fair value hedges.

Hedged Fixed Rate Debt	Number Of Swaps	Period Covered by Swap	Termination Date of Swap	Fixed to Variable Rate (1)	Notional Amount
Senior Notes B, 7.50% fixed rate, due Feb. 2011	1	Jan. 2004 to Feb. 2011	Feb. 2011	7.50%to 8.74%	\$50 million
Senior Notes C, 6.375% fixed rate, due Feb. 2013	2	Jan. 2004 to Feb. 2013	Feb. 2013	6.38%to 7.28%	\$200 million
Senior Notes G, 5.6% fixed rate, due Oct. 2014	6	4th Qtr. 2004 to Oct. 2014	Oct. 2014	5.60%to 6.33%	\$600 million
Senior Notes K, 4.95% fixed rate, due June 2010	2	Aug. 2005 to June 2010	June 2010	4.95%to 5.76%	\$200 million

(1) The variable rate indicated is the all-in variable rate for the current settlement period.

The total fair value of these eleven interest rate swaps at March 31, 2007 and December 31, 2006, was a liability of \$25.0 million and \$29.1 million, respectively, with an offsetting decrease in the fair value of the underlying debt. Interest expense for the three months ended March 31, 2007 and 2006 includes a \$2.3 million loss and \$0.2 million benefit from these swap agreements, respectively.

Cash Flow Hedges — Treasury Locks. During the fourth quarter of 2006, the Operating Partnership entered into treasury lock transactions having a notional value of \$562.5 million. The Operating Partnership entered into these transactions to hedge the underlying U.S. treasury rates related to its anticipated issuances of subordinated debt during the second and fourth quarters of 2007. On February 27, 2007, the Operating Partnership entered into additional treasury lock transactions having a notional value of \$437.5 million. The Operating Partnership entered into these transactions to hedge the underlying U.S. treasury rates related to its anticipated issuances of debt during 2007.

Each of the treasury lock transactions was designated as a cash flow hedge under SFAS 133, "Accounting for Derivative Instruments and Hedging Activities," as amended and interpreted. At March 31, 2007, the value of the treasury locks was \$21.7 million.

Commodity Risk Hedging Program

The prices of natural gas, NGLs and certain petrochemical products are subject to fluctuations in response to changes in supply, market uncertainty and a variety of additional factors that are beyond our control. In order to manage the price risks associated with such products, we may enter into commodity financial instruments.

The primary purpose of our commodity risk management activities is to hedge our exposure to price risks associated with (i) natural gas purchases, (ii) the value of NGL production and inventories, (iii) related firm commitments, (iv) fluctuations in transportation revenues where the underlying fees are based on natural gas index prices and (v) certain anticipated transactions involving either natural gas, NGLs or certain petrochemical products. From time to time, we inject natural gas into storage and utilize hedging instruments to lock in the value of our inventory positions. The commodity financial instruments we utilize may be settled in cash or with another financial instrument.

At March 31, 2007 and December 31, 2006, we had a limited number of commodity financial instruments in our portfolio, which primarily consisted of cash flow hedges. The fair value of our commodity financial instrument portfolio at March 31, 2007 and December 31, 2006 was an asset of \$0.2 million and a liability of \$3.2 million, respectively. During the three months ended March 31, 2007, we recorded \$2.6 million of expense related to our commodity financial instruments. We recorded nominal

[Table of Contents](#)

amounts of earnings from our commodity financial instruments during the three months ended March 31, 2006.

Foreign Currency Hedging Program

In October 2006, we acquired all of the outstanding stock of an affiliated NGL marketing company located in Canada from EPCO and Dan L. Duncan. Since this foreign subsidiary's functional currency is the Canadian dollar, we could be adversely affected by fluctuations in foreign currency exchange rates. We attempt to hedge this risk using foreign exchange purchase contracts to fix the exchange rate. Due to the limited duration of these contracts, we utilize mark-to-market accounting for these transactions, the effect of which has had a minimal impact on our earnings. At March 31, 2007, we had \$1.3 million of such contracts outstanding that settled in April 2007.

Note 5. Inventories

Our inventory amounts were as follows at the dates indicated:

	March 31, 2007	December 31, 2006
Working inventory	\$451,641	\$ 387,973
Forward-sales inventory	9,274	35,871
Inventory	<u>\$460,915</u>	<u>\$ 423,844</u>

Our regular trade (or "working") inventory is comprised of inventories of natural gas, NGLs, and certain petrochemical products that are available-for-sale or used by us in the provision of services. Our forward sales inventory consists of segregated NGL and natural gas volumes dedicated to the fulfillment of forward-sales contracts. Our inventory values reflect payments for product purchases, freight charges associated with such purchase volumes, terminal and storage fees, vessel inspection costs, demurrage charges and other related costs. We value our inventories at the lower of average cost or market.

Operating costs and expenses, as presented on our Unaudited Condensed Statements of Consolidated Operations, include cost of sales amounts related to the sale of inventories. Our cost of sales were \$2.8 billion and \$2.7 billion for the three months ended March 31, 2007 and 2006, respectively.

Due to fluctuating commodity prices in the NGL, natural gas and petrochemical industry, we recognize lower of cost or market ("LCM") adjustments when the carrying value of our inventories exceed their net realizable value. These non-cash charges are a component of cost of sales in the period they are recognized. For the three months ended March 31, 2007 and 2006, we recognized LCM adjustments of approximately \$11.0 million and \$11.6 million, respectively.

Note 6. Property, Plant and Equipment

Our property, plant and equipment values and accumulated depreciation balances were as follows at the dates indicated:

	Estimated Useful Life in Years	March 31, 2007	December 31, 2006
Plants and pipelines (1)	3-35 ⁽⁵⁾	\$ 9,217,439	\$ 8,774,683
Underground and other storage facilities (2)	5-35 ⁽⁶⁾	605,102	596,649
Platforms and facilities (3)	20-31	549,896	161,839
Transportation equipment (4)	3-10	27,608	27,008
Land		40,010	40,010
Construction in progress		1,367,264	1,734,083
Total		11,807,319	11,334,272
Less accumulated depreciation		1,596,421	1,501,725
Property, plant and equipment, net		<u>\$10,210,898</u>	<u>\$ 9,832,547</u>

-
- (1) Plants and pipelines include processing plants; NGL, petrochemical, oil and natural gas pipelines; terminal loading and unloading facilities; office furniture and equipment; buildings; laboratory and shop equipment; and related assets.
 - (2) Underground and other storage facilities include underground product storage caverns; storage tanks; water wells; and related assets.
 - (3) Platforms and facilities include offshore platforms and related facilities and other associated assets.
 - (4) Transportation equipment includes vehicles and similar assets used in our operations.
 - (5) In general, the estimated useful lives of major components of this category are as follows: processing plants, 20-35 years; pipelines, 18-35 years (with some equipment at 5 years); terminal facilities, 10-35 years; office furniture and equipment, 3-20 years; buildings 20-35 years; and laboratory and shop equipment, 5-35 years.
 - (6) In general, the estimated useful lives of major components of this category are as follows: underground storage facilities, 20-35 years (with some components at 5 years); storage tanks, 10-35 years; and water wells, 25-35 years (with some components at 5 years).

Depreciation expense for the three months ended March 31, 2007 and 2006 was \$95.0 million and \$83.5 million, respectively. We capitalized \$20.7 million and \$9.2 million of interest in connection with capital projects during the three months ended March 31, 2007 and 2006, respectively.

[Table of Contents](#)

Note 7. Investments In and Advances to Unconsolidated Affiliates

We own interests in a number of related businesses that are accounted for using the equity method of accounting. Our investments in and advances to unconsolidated affiliates are grouped according to the business segment to which they relate. See Note 11 for a general discussion of our business segments. The following table presents our investments in and advances to unconsolidated affiliates at the dates indicated.

	Ownership Percentage at March 31, 2007	Investments in and advances to unconsolidated affiliates at	
		March 31, 2007	December 31, 2006
NGL Pipelines & Services:			
Venice Energy Service Company L.L.C. ("VESCO")	13.1%	\$ 42,598	\$ 39,618
K/D/S Promix, L.L.C. ("Promix")	50%	52,103	46,140
Baton Rouge Fractionators LLC ("BRF")	32.3%	25,159	25,471
Onshore Natural Gas Pipelines & Services:			
Jonah Gas Gathering Company ("Jonah")	17.3%	157,935	120,370
Evangeline (1)	49.5%	3,514	4,221
Offshore Pipelines & Services:			
Poseidon Oil Pipeline Company, L.L.C. ("Poseidon")	36%	61,153	62,324
Cameron Highway Oil Pipeline Company ("Cameron Highway")	50%	56,908	60,216
Deepwater Gateway, L.L.C. ("Deepwater Gateway")	50%	111,187	117,646
Neptune Pipeline Company, L.L.C. ("Neptune")	25.7%	58,778	58,789
Nemo Gathering Company, LLC ("Nemo")	33.9%	11,024	11,161
Petrochemical Services:			
Baton Rouge Propylene Concentrator, LLC ("BRPC")	30%	13,894	13,912
La Porte (2)	50%	4,385	4,691
Total		\$598,638	\$ 564,559

(1) Refers to our ownership interests in Evangeline Gas Pipeline Company, L.P. and Evangeline Gas Corp., collectively.

(2) Refers to our ownership interests in La Porte Pipeline Company, L.P. and La Porte GP, LLC, collectively.

On occasion, the price we pay to acquire an ownership interest in a company exceeds the underlying book value of the capital accounts we acquire. Such excess cost amounts are included within the carrying values of our investments in and advances to unconsolidated affiliates. At March 31, 2007 and December 31, 2006, our investments in Promix, La Porte, Neptune, Poseidon, Cameron Highway, Nemo and Jonah included excess cost amounts totaling \$41.8 million and \$38.7 million, respectively. These amounts are attributable to the excess of the fair value of each entity's tangible assets over their respective book carrying values at the time we acquired an interest in each entity. Amortization of such excess cost amounts was \$0.5 million during each of the three month periods ended March 31, 2007 and 2006.

The following table presents our equity in income of unconsolidated affiliates by business segment for the periods indicated:

	For the Three Months Ended March 31,	
	2007	2006
NGL Pipelines & Services	\$ 591	\$ 1,518
Onshore Natural Gas Pipelines & Services	1,029	602
Offshore Pipelines & Services	4,075	1,934
Petrochemical Services	484	(25)
Total	\$ 6,179	\$ 4,029

Summarized Financial Information of Unconsolidated Affiliates

The following table presents unaudited income statement data for our current unconsolidated affiliates, aggregated by business segment, for the periods indicated (on a 100% basis).

	Summarized Income Statement Information for the Three Months Ended					
	March 31, 2007			March 31, 2006		
	Revenues	Operating Income	Net Income	Revenues	Operating Income (Loss)	Net Income (Loss)
NGL Pipelines & Services (1)	\$ 41,732	\$ 3,260	\$ 3,829	\$ 20,286	\$ (22,125)	\$ (21,678)
Onshore Natural Gas Pipelines & Services	108,898	21,615	20,313	108,788	38,896	34,444
Offshore Pipelines & Services	37,193	19,718	12,336	31,696	10,930	3,680
Petrochemical Services	5,553	1,887	1,911	3,868	186	210

(1) During the three months ended March 31, 2006, VESCO incurred losses due to the effects of Hurricane Katrina.

Cameron Highway

We own a 50.0% interest in Cameron Highway, which owns a crude oil pipeline that gathers production from deepwater areas of the Gulf of Mexico, primarily the South Green Canyon area, for delivery to refineries and terminals in southeast Texas. The Cameron Highway Oil Pipeline commenced operations during the first quarter of 2005. In light of reduced deliveries of crude oil to Cameron Highway caused by production delays, the management committee of Cameron Highway intends to repay its Series A notes (see Note 9) using cash contributions from the partners of Cameron Highway.

In May 2007, we intend to make an approximate \$191.0 million cash contribution to Cameron Highway. This capital contribution, along with an equal amount contributed by our joint venture partner in Cameron Highway, will be used by Cameron Highway to repay \$365.0 million outstanding under its Senior Notes A and \$16.3 million of related make-whole premiums and accrued interest.

Note 8. Intangible Assets and Goodwill

Identifiable Intangible Assets

The following table summarizes our intangible assets at the dates indicated:

	March 31, 2007			December 31, 2006		
	Gross Value	Accum. Amort.	Carrying Value	Gross Value	Accum. Amort.	Carrying Value
NGL Pipelines & Services	\$ 528,594	\$(119,888)	\$408,706	\$ 528,594	\$(110,644)	\$ 417,950
Onshore Natural Gas Pipelines & Services	463,551	(85,557)	377,994	463,551	(77,402)	386,149
Offshore Pipelines & Services	207,012	(59,718)	147,294	207,012	(54,636)	152,376
Petrochemical Services	56,674	(9,692)	46,982	56,674	(9,194)	47,480
Total	\$1,255,831	\$(274,855)	\$980,976	\$1,255,831	\$(251,876)	\$1,003,955

The following table presents the amortization expense of our intangible assets by segment for the periods indicated:

	For the Three Months Ended March 31,	
	2007	2006
NGL Pipelines & Services	\$ 9,244	\$ 6,361
Onshore Natural Gas Pipelines & Services	8,155	8,458
Offshore Pipelines & Services	5,082	5,834
Petrochemical Services	498	499
Total	\$ 22,979	\$ 21,152

[Table of Contents](#)

For the remainder of 2007, amortization expense associated with our intangible assets is currently estimated at \$67.4 million.

Goodwill

The following table summarizes our goodwill amounts by segment at the dates indicated:

	March 31, 2007	December 31, 2006
NGL Pipelines & Services	\$152,693	\$ 152,595
Onshore Natural Gas Pipelines & Services	282,121	282,121
Offshore Pipelines & Services	82,135	82,135
Petrochemical Services	73,690	73,690
Totals	<u>\$590,639</u>	<u>\$ 590,541</u>

Note 9. Debt Obligations

Our consolidated debt obligations consisted of the following at the dates indicated:

	March 31, 2007	December 31, 2006
Parent Company debt obligation:		
\$200 Million Credit Facility, due January 2009	\$ 154,000	\$ 155,000
Operating Partnership senior debt obligations:		
Multi-Year Revolving Credit Facility, variable rate, due October 2011	390,000	410,000
Pascagoula MBFC Loan, 8.70% fixed-rate, due March 2010	54,000	54,000
Senior Notes B, 7.50% fixed-rate, due February 2011	450,000	450,000
Senior Notes C, 6.375% fixed-rate, due February 2013	350,000	350,000
Senior Notes D, 6.875% fixed-rate, due March 2033	500,000	500,000
Senior Notes E, 4.00% fixed-rate, due October 2007 (1)	500,000	500,000
Senior Notes F, 4.625% fixed-rate, due October 2009	500,000	500,000
Senior Notes G, 5.60% fixed-rate, due October 2014	650,000	650,000
Senior Notes H, 6.65% fixed-rate, due October 2034	350,000	350,000
Senior Notes I, 5.00% fixed-rate, due March 2015	250,000	250,000
Senior Notes J, 5.75% fixed-rate, due March 2035	250,000	250,000
Senior Notes K, 4.950% fixed-rate, due June 2010	500,000	500,000
Duncan Energy Partners' debt obligation:		
\$300 Million Revolving Credit Facility, variable rate, due February 2011	169,000	—
Dixie Revolving Credit Facility, variable rate, due June 2010	10,000	10,000
Other, 8.75% fixed-rate, due June 2010 (2)	5,068	5,068
Total principal amount of senior debt obligations	5,082,068	4,934,068
Operating Partnership Junior Subordinated Notes A, due August 2066	550,000	550,000
Total principal amount of senior and junior debt obligations	5,632,068	5,484,068
Other, including unamortized discounts and premiums and changes in fair value (3)	(29,383)	(33,478)
Long-term debt	<u>\$5,602,685</u>	<u>\$5,450,590</u>
Standby letters of credit outstanding	<u>\$ 36,758</u>	<u>\$ 49,858</u>

(1) In accordance with SFAS 6, "Classification of Short-Term Obligations Expected to be Refinanced," long-term and current maturities of debt reflects the classification of such obligations at March 31, 2007 and December 31, 2006. With respect to Senior Notes E due in October 2007, the Operating Partnership has the ability to use available credit capacity under its Multi-Year Revolving Credit Facility to fund the repayment of this debt.

(2) Represents remaining debt obligations assumed in connection with the GulfTerra Merger.

(3) The March 31, 2007 amount includes \$25.0 million related to fair value hedges and a net \$4.4 million in unamortized discounts and premiums. The December 31, 2006 amount includes \$29.1 million related to fair value hedges and a net \$4.4 million in unamortized discounts and premiums.

Parent Company debt obligation

There have been no significant changes in the terms of the parent company's debt obligation since those reported in our annual report on Form 10-K for the year ended December 31, 2006.

In accordance with GAAP, the parent company consolidates the debt of Enterprise Products Partners and its consolidated subsidiaries with that of its own; however, the parent company does not have the obligation to make interest or debt payments with respect to the consolidated debt obligations of Enterprise Product Partners, including those of Duncan Energy Partners.

Parent-Subsidiary guarantor relationships

Enterprise Products Partners acts as guarantor of the debt obligations of the Operating Partnership, with the exception of the Dixie revolving credit facility and the senior subordinated notes assumed in connection with the GulfTerra Merger. If the Operating Partnership were to default on any debt that Enterprise Products Partners guarantees, Enterprise Products Partners would be responsible for full repayment of that obligation. Neither we nor Enterprise Products Partners act as guarantor of the debt obligations of Duncan Energy Partners.

Operating Partnership debt obligations

There have been no significant changes in the terms of the Operating Partnership's debt obligations since those reported in our annual report on Form 10-K for the year ended December 31, 2006.

Duncan Energy Partners debt obligation

We consolidate the debt of Duncan Energy Partners with that of our own; however, we do not have the obligation to make interest payments or debt payments with respect to the debt of Duncan Energy Partners.

Duncan Energy Partners entered into a \$300.0 million revolving credit facility, all of which may be used for letters of credit, with a \$30.0 million sublimit for Swingline loans. Letters of credit outstanding under this facility reduce the amount available for borrowings. At the closing of its initial public offering, Duncan Energy Partners made its initial borrowing of \$200.0 million under the facility to fund the \$198.9 million cash distribution to the Operating Partnership and the remainder to pay debt issuance costs. At March 31, 2007, the balance outstanding under this facility was \$169.0 million.

This credit facility matures in February 2011 and will be used by Duncan Energy Partners in the future to fund working capital and other capital requirements and for general partnership purposes. Duncan Energy Partners may make up to two requests for one-year extensions of the maturity date (subject to certain restrictions). The revolving credit facility is available to pay distributions upon the initial contribution of assets to Duncan Energy Partners, fund working capital, make acquisitions and provide payment for general purposes. Duncan Energy Partners can increase the revolving credit facility, without consent of the lenders, by an amount not to exceed \$150.0 million by adding to the facility one or more new lenders and/or increasing the commitments of existing lenders. No lender is required to increase its commitment, unless it agrees to do so in its sole discretion.

This revolving credit facility offers the following unsecured loans, each having different interest requirements: (i) London Interbank Offered Rate ("LIBOR") loans bear interest at a rate per annum equal to LIBOR plus the applicable LIBOR margin (as defined in the credit agreement), (ii) Base Rate loans bear interest at a rate per annum equal to the higher of (a) the rate of interest publicly announced by the administrative agent, Wachovia Bank, National Association, as its Base Rate and (b) 0.5% per annum above the Federal Funds Rate in effect on such date and (iii) Swingline loans bear interest a rate per annum equal to LIBOR plus an applicable LIBOR margin.

[Table of Contents](#)

The revolving credit facility requires Duncan Energy Partners to maintain a leverage ratio for the prior four fiscal quarters of not more than 4.75 to 1.00 at the last day of each fiscal quarter commencing June 30, 2007; provided that, upon the closing of a permitted acquisition, such ratio shall not exceed (a) 5.25 to 1.00 at the last day of the fiscal quarter in which such specified acquisition occurred and at the last day of each of the two fiscal quarters following the fiscal quarter in which such specified acquisition occurred, and (b) 4.75 to 1.00 at the last day of each fiscal quarter thereafter. In addition, prior to obtaining an investment-grade rating by Standard & Poor's Ratings Services, Moody's Investors Service or Fitch Ratings, Duncan Energy Partners' interest coverage ratio, for the prior four fiscal quarters shall not be less than 2.75 to 1.00 at the last day of each fiscal quarter commencing June 30, 2007.

The Duncan Energy Partners' credit facility contains other customary covenants. Also, if an event of default exists under the credit agreement, the lenders will be able to accelerate the maturity date of amounts borrowed under the credit agreement and exercise other rights and remedies.

Covenants

We are in compliance with the covenants of our consolidated debt agreements at March 31, 2007 and December 31, 2006.

Information regarding variable interest rates paid

The following table presents the range of interest rates paid and weighted-average interest rate paid on our consolidated variable-rate debt obligations during the three months ended March 31, 2007.

	Range of interest rates paid	Weighted-average interest rate paid
Parent Company's \$200.0 Million Credit Facility	6.32% to 6.35%	6.32%
Operating Partnership's Multi-Year Revolving Credit Facility	5.82% to 8.25%	5.84%
Duncan Energy Partners' Revolving Credit Facility	6.17%	6.17%
Dixie Revolving Credit Facility	5.66% to 5.67%	5.66%

Consolidated debt maturity table

The following table presents the scheduled maturities of principal amounts of our debt obligations for the next five years and in total thereafter.

2007	\$	—
2008		—
2009		654,000
2010		569,068
2011		1,509,000
Thereafter		2,900,000
Total scheduled principal payments		<u>\$ 5,632,068</u>

In accordance with SFAS 6, long-term and current maturities of debt reflect the classification of such obligations at March 31, 2007. With respect to the \$500.0 million in principal due under Senior Notes E in October 2007, the Operating Partnership has the ability to use available credit capacity under its Multi-Year Revolving Credit Facility to fund the repayment of this debt. The preceding table and our Unaudited Condensed Consolidated Balance Sheets at March 31, 2007 and December 31, 2006 reflect this ability to refinance.

Debt Obligations of Unconsolidated Affiliates

We have three unconsolidated affiliates with long-term debt obligations. The following table shows (i) our ownership interest in each entity at March 31, 2007, (ii) total debt of each unconsolidated

[Table of Contents](#)

affiliate at March 31, 2007 (on a 100% basis to the affiliate) and (iii) the corresponding scheduled maturities of such debt.

	Our Ownership Interest	Total	Scheduled Maturities of Debt					After 2011
			2007	2008	2009	2010	2011	
Cameron Highway	50%	\$415,000	\$ —	\$ 25,000	\$ 25,000	\$ 50,000	\$ 55,000	\$260,000
Poseidon	36%	91,000	—	—	—	—	91,000	—
Evangeline	49.5%	25,650	5,000	5,000	5,000	10,650	—	—
Total		<u>\$531,650</u>	<u>\$ 5,000</u>	<u>\$ 30,000</u>	<u>\$ 30,000</u>	<u>\$ 60,650</u>	<u>\$146,000</u>	<u>\$260,000</u>

Cameron Highway's debt consists of \$365.0 million of Series A notes and \$50.0 million of Series B notes. Cameron Highway intends to repay its Series A notes in May 2007 using proceeds from capital contributions from its partners. The total amount of the repayment is estimated to be \$381.3 million, which includes a \$13.1 million make-whole premium and \$3.2 million of accrued interest. The Operating Partnership intends to fund its share of the capital contribution using borrowings under its Multi-Year Revolving Credit Facility.

The credit agreements of our unconsolidated affiliates contain various affirmative and negative covenants, including financial covenants. These businesses were in compliance with such covenants at March 31, 2007. The credit agreements of our unconsolidated affiliates restrict their ability to pay cash dividends if a default or an event of default (as defined in each credit agreement) has occurred and is continuing at the time such dividend is scheduled to be paid.

Apart from the planned repayment of Cameron Highway's Series A notes, there have been no significant changes in the terms of the debt obligations of our unconsolidated affiliates since those reported in our annual report on Form 10-K for the year ended December 31, 2006.

Note 10. Partners' Equity and Distributions

We are a Delaware limited partnership that was formed in April 2005 to become the sole member of Enterprise Products GP, which is the general partner of Enterprise Products Partners. We are owned 99.99% by our limited partners and 0.01% by EPE Holdings. EPE Holdings is owned 100% by Dan Duncan LLC, which is wholly-owned by Dan L. Duncan.

Our units represent limited partner interests, which give the holders thereof the right to participate in distributions and to exercise the other rights or privileges available to them under the First Amended and Restated Agreement of Limited Partnership (the "Partnership Agreement") of us.

In accordance with the Partnership Agreement, capital accounts are maintained for the general partner and the limited partners of us. The capital account provisions of the Partnership Agreement incorporate principles established for U.S. Federal income tax purposes and are not comparable to the equity accounts reflected under GAAP in our consolidated financial statements. Earnings and cash distributions are allocated to our partners in accordance with their respective percentage interests.

Unit History

We had 88,884,116 units outstanding at December 31, 2006 and March 31, 2007.

Distributions to Partners

On April 16, 2007, we announced that our quarterly distribution rate with respect to the first quarter of 2007 would be \$0.365 per common unit, or \$1.46 on an annualized basis. This distribution will be paid on May 11, 2007, to unitholders of record at the close of business on April 30, 2007.

Note 11. Business Segments

We have four reportable business segments: NGL Pipelines & Services, Onshore Natural Gas Pipelines & Services, Offshore Pipelines & Services and Petrochemical Services. Our business segments are generally organized and managed according to the type of services rendered (or technologies employed) and products produced and/or sold.

We evaluate segment performance based on the non-GAAP financial measure of gross operating margin. Gross operating margin (either in total or by individual segment) is an important performance measure of the core profitability of our operations. This measure forms the basis of our internal financial reporting and is used by senior management in deciding how to allocate capital resources among business segments. We believe that investors benefit from having access to the same financial measures that our management uses in evaluating segment results. The GAAP measure most directly comparable to total segment gross operating margin is operating income. Our non-GAAP financial measure of total segment gross operating margin should not be considered an alternative to GAAP operating income.

We define total segment gross operating margin as consolidated operating income before: (i) depreciation, amortization and accretion expense; (ii) operating lease expenses for which we do not have the payment obligation; (iii) gains and losses on the sale of assets; and (iv) general and administrative costs. Gross operating margin is exclusive of other income and expense transactions, provision for income taxes, minority interest, extraordinary charges and the cumulative effect of change in accounting principle. Gross operating margin by segment is calculated by subtracting segment operating costs and expenses (net of the adjustments noted above) from segment revenues, with both segment totals before the elimination of intersegment and intrasegment transactions.

Segment revenues include intersegment and intrasegment transactions, which are generally based on transactions made at market-related rates. Our consolidated revenues reflect the elimination of all material intercompany (both intersegment and intrasegment) transactions.

We include equity earnings from unconsolidated affiliates in our measurement of segment gross operating margin and operating income. Our equity investments with industry partners are a vital component of our business strategy. They are a means by which we conduct our operations to align our interests with those of our customers and/or suppliers. This method of operation enables us to achieve favorable economies of scale relative to the level of investment and business risk assumed versus what we could accomplish on a stand-alone basis. Many of these businesses perform supporting or complementary roles to our other business operations.

Our integrated midstream energy asset system (including the midstream energy assets of our equity method investees) provides services to producers and consumers of natural gas, NGLs, crude oil and certain petrochemicals. In general, hydrocarbons enter our asset system in a number of ways, such as an offshore natural gas or crude oil pipeline, an offshore platform, a natural gas processing plant, an onshore natural gas gathering pipeline, an NGL fractionator, an NGL storage facility, or an NGL transportation or distribution pipeline.

Many of our equity investees are included within our integrated midstream asset system. For example, we have ownership interests in several offshore natural gas and crude oil pipelines. Other examples include our use of the Promix NGL fractionator to process mixed NGLs extracted by our gas plants. The fractionated NGLs we receive from Promix can then be sold in our NGL marketing activities. Given the integral nature of our equity method investees to our operations, we believe the presentation of earnings from such investees as a component of gross operating margin and operating income is meaningful and appropriate.

Historically, substantially all of our consolidated revenues were earned in the United States and derived from a wide customer base. The majority of our plant-based operations are located in Texas, Louisiana, Mississippi, New Mexico and Wyoming. Our natural gas, NGL and crude oil pipelines are

[Table of Contents](#)

located in a number of regions of the United States including (i) the Gulf of Mexico offshore Texas and Louisiana; (ii) the south and southeastern United States (primarily in Texas, Louisiana, Mississippi and Alabama); and (iii) certain regions of the central and western United States, including the Rocky Mountains. Our marketing activities are headquartered in Houston, Texas and serve customers in a number of regions of the United States including the Gulf Coast, West Coast and Mid-Continent areas.

Consolidated property, plant and equipment and investments in and advances to unconsolidated affiliates are assigned to each segment on the basis of each asset's or investment's principal operations. The principal reconciling difference between consolidated property, plant and equipment and the total value of segment assets is construction-in-progress. Segment assets represent the net book carrying value of facilities and other assets that contribute to gross operating margin of that particular segment. Since assets under construction generally do not contribute to segment gross operating margin, such assets are excluded from segment asset totals until they are placed in service. Consolidated intangible assets and goodwill are assigned to each segment based on the classification of the assets to which they relate.

Enterprise Products Partners consolidates the financial statements of Duncan Energy Partners with those of its own. As a result, our consolidated gross operating margin amounts include the gross operating margin amounts of Duncan Energy Partners on a 100% basis.

[Table of Contents](#)

The following table presents our measurement of total segment gross operating margin for the periods indicated:

	For the Three Months Ended March 31,	
	2007	2006
Revenues (1)	\$ 3,322,854	\$ 3,250,074
Less: Operating costs and expenses (1)	(3,124,479)	(3,046,863)
Add: Equity in income of unconsolidated affiliates (1)	6,179	4,029
Depreciation, amortization and accretion in operating costs and expenses (2)	119,492	104,816
Operating lease expense paid by EPCO (2)	526	528
Gain on sale of assets in operating costs and expenses (2)	(73)	(61)
Total segment gross operating margin	\$ 324,499	\$ 312,523

(1) These amounts are taken from our Unaudited Condensed Statements of Consolidated Operations.

(2) These non-cash expenses are taken from the operating activities section of our Unaudited Condensed Statements of Consolidated Cash Flows.

A reconciliation of our total segment gross operating margin to operating income and income before provision for income taxes, minority interest and the cumulative effect of change in accounting principle follows:

	For the Three Months Ended March 31,	
	2007	2006
Total segment gross operating margin	\$ 324,499	\$ 312,523
Adjustments to reconcile total segment gross operating margin to operating income:		
Depreciation, amortization and accretion in operating costs and expenses	(119,492)	(104,816)
Operating lease expense paid by EPCO	(526)	(528)
Gain on sale of assets in operating costs and expenses	73	61
General and administrative costs	(17,614)	(14,561)
Consolidated operating income	186,940	192,679
Other expense, net	(63,964)	(58,160)
Income before provision for income taxes, minority interest and cumulative effect of change in accounting principle	\$ 122,976	\$ 134,519

Table of Contents

Information by segment, together with reconciliations to our consolidated totals, is presented in the following table:

	Reportable Segments				Adjustments and Eliminations	Consolidated Totals
	NGL Pipelines & Services	Onshore Natural Gas Pipelines & Services	Offshore Pipelines & Services	Petrochemical Services		
Revenues from third parties:						
Three months ended March 31, 2007	\$2,365,118	\$ 416,230	\$ 32,983	\$ 444,281	\$ —	\$ 3,258,612
Three months ended March 31, 2006	2,338,696	413,001	22,352	385,950	—	3,159,999
Revenues from related parties:						
Three months ended March 31, 2007	9,903	54,002	328	9	—	64,242
Three months ended March 31, 2006	6,948	82,955	172	—	—	90,075
Intersegment and intrasegment revenues:						
Three months ended March 31, 2007	1,122,847	18,569	548	104,997	(1,246,961)	—

Three months ended March 31, 2006	3,241,889	524,097	22,837	468,767	(1,007,516)	3,250,074
Equity in income (loss) of unconsolidated affiliates:						
Three months ended March 31, 2007	591	1,029	4,075	484	—	6,179
Three months ended March 31, 2006	1,518	602	1,934	(25)	—	4,029
Gross operating margin by individual business segment and in total:						
Three months ended March 31, 2007	190,694	76,515	19,707	37,583	—	324,499
Three months ended March 31, 2006	170,950	96,803	17,252	27,518	—	312,523
Segment assets:						
At March 31, 2007	3,479,690	3,700,783	1,112,518	550,643	1,367,264	10,210,898
At December 31, 2006	3,249,486	3,611,974	734,659	502,345	1,734,083	9,832,547
Investments in and advances to unconsolidated affiliates (see Note 7):						
At March 31, 2007	119,860	161,449	299,050	18,279	—	598,638
At December 31, 2006	111,229	124,591	310,136	18,603	—	564,559
Intangible Assets (see Note 8):						
At March 31, 2007	408,706	377,994	147,294	46,982	—	980,976
At December 31, 2006	417,950	386,149	152,376	47,480	—	1,003,955
Goodwill (see Note 8):						
At March 31, 2007	152,693	282,121	82,135	73,690	—	590,639
At December 31, 2006	152,595	282,121	82,135	73,690	—	590,541

Table of Contents

The following table summarizes the contribution to consolidated revenues from the sale of NGL, natural gas and certain petrochemical products for the periods indicated:

	For the Three Months Ended March 31,	
	2007	2006
NGL Pipelines & Services:		
Sale of NGL products	\$2,191,624	\$2,192,016
Percent of consolidated revenues	66%	67%
Onshore Natural Gas Pipelines & Services:		
Sale of natural gas	\$ 361,031	\$ 367,544
Percent of consolidated revenues	11%	11%
Petrochemical Services:		
Sale of petrochemical products	\$ 387,752	\$ 343,350
Percent of consolidated revenues	12%	11%

Note 12. Related Party Transactions

The following table summarizes our related party transactions for the periods indicated:

	For the Three Months Ended March 31,	
	2007	2006
Revenues from consolidated operations:		
EPCO and affiliates	\$ 8,542	\$ 5,632
Unconsolidated affiliates	55,700	84,443
Total	\$ 64,242	\$ 90,075
Operating costs and expenses:		
EPCO and affiliates	\$ 78,673	\$ 94,957
Unconsolidated affiliates	5,273	6,686
Total	\$ 83,946	\$101,643
General and administrative costs:		
EPCO and affiliates	\$ 13,113	\$ 11,198

Relationship with EPCO and affiliates

We have an extensive and ongoing relationship with EPCO and its affiliates, which include the following significant entities that are not part of our consolidated group of companies:

- EPCO and its consolidated private company subsidiaries;
- EPE Holdings, our general partner;
- TEPPCO and TEPPCO GP, which are controlled by affiliates of EPCO; and
- the Employee Partnerships.

Enterprise Products Partners has an ongoing relationship with Duncan Energy Partners, the financial statements of which are consolidated with those of Enterprise Products Partners. Enterprise Products Partners' transactions with Duncan Energy Partners are eliminated in consolidation; therefore, they are not part of the totals presented in the preceding table. A description of Enterprise Products Partners' relationship with Duncan Energy Partners is presented within this Note 12.

Unless noted otherwise, our agreements with EPCO are not the result of arm's length transactions. As a result, we cannot provide assurance that the terms and provisions of such agreements are at least as favorable to us as we could have obtained from unaffiliated third parties.

EPCO is a private company controlled by Dan L. Duncan, who is also a director and Chairman of EPE Holdings and Enterprise Products GP. At March 31, 2007, EPCO beneficially owned 75,240,575 (or 84.5%) of the parent company's outstanding units. In addition, EPCO beneficially owned 147,129,416 (or

[Table of Contents](#)

34.0%) of Enterprise Products Partners' outstanding common units, including 13,454,498 common units owned by the parent company. In addition, at March 31, 2007, EPCO and its affiliates beneficially owned 86.8% of the limited partner interests of Enterprise GP Holdings and 100% of its general partner, EPE Holdings. Enterprise GP Holdings owns all of the membership interests of Enterprise Products GP. The principal business activity of Enterprise Products GP is to act as the managing partner of Enterprise Products Partners. The executive officers and certain of the directors of Enterprise Products GP and EPE Holdings are employees of EPCO.

In connection with its general partner interest in Enterprise Products Partners, Enterprise Products GP received cash distributions of \$29.4 million and \$22.6 million from Enterprise Products Partners during the three months ended March 31, 2007 and 2006, respectively. These amounts include incentive distributions of \$25.3 million and \$19.1 million for the three months ended March 31, 2007 and 2006, respectively.

We, EPE Holdings, Enterprise Products Partners and Enterprise Products GP are separate legal entities apart from each other and apart from EPCO and its other affiliates, with assets and liabilities that are separate from those of EPCO and its other affiliates. EPCO and its private company subsidiaries depend on the cash distributions they receive from us, Enterprise Products Partners and other investments to fund their other operations and to meet their debt obligations. EPCO and its affiliates received \$83.0 million and \$73.1 million in cash distributions from us during the three months ended March 31, 2007 and 2006, respectively.

The ownership interests in Enterprise Products Partners that are owned or controlled by us are pledged as security under our credit facility. In addition, substantially all of the ownership interests in the parent company and Enterprise Products Partners that are owned or controlled by EPCO and its affiliates, other than those interests owned by the parent company, Dan Duncan LLC and certain trusts affiliated with Dan L. Duncan, are pledged as security under the credit facility of a private company affiliate of EPCO. This credit facility contains customary and other events of default relating to EPCO and certain affiliates, including us, Enterprise Products Partners and TEPPCO. The ownership interest in Enterprise Products Partners that are owned or controlled by the parent company are pledged as security under its credit facility.

We have entered into an agreement with an affiliate of EPCO to provide trucking services to us for the transportation of NGLs and other products. We also lease office space in various buildings from affiliates of EPCO. The rental rates in these lease agreements approximate market rates.

Historically, we entered into transactions with a Canadian affiliate of EPCO for the purchase and sale of NGL products in the normal course of business. These transactions were at market-related prices. We acquired this affiliate in October 2006 and began consolidating its financial statements with those of our own from the date of acquisition.

Relationship with TEPPCO

We received \$8.5 million and \$5.5 million from TEPPCO during the three months ended March 31, 2007 and 2006, respectively, from the sale of hydrocarbon products. We paid TEPPCO \$6.5 million and \$4.4 million for NGL pipeline transportation and storage services during the three months ended March 31, 2007 and 2006, respectively.

Purchase and lease of pipelines for DEP South Texas NGL Pipeline System from TEPPCO. In January 2007, we purchased a 10-mile segment of pipeline from TEPPCO located in the Houston area for \$8.0 million that is part of the DEP South Texas NGL Pipeline System. In addition, we entered into a lease with TEPPCO for an 11-mile interconnecting pipeline located in the Houston area. The primary term of this lease expires in September 2007, and will continue on a month-to-month basis subject to termination by either party upon 60 days notice. This pipeline is being leased by a subsidiary of Duncan Energy Partners in connection with operations on its DEP South Texas NGL Pipeline System until construction of a parallel pipeline is completed. These transactions were entered into in accordance with our Board-approved management authorization policy.

Jonah Joint Venture with TEPPCO. In August 2006, we formed a joint venture with TEPPCO to be partners in TEPPCO's Jonah Gas Gathering Company, or Jonah. Jonah owns the Jonah Gas Gathering System ("the Jonah Gathering System"), located in the Greater Green River Basin of southwestern Wyoming. The Jonah Gathering System gathers and transports natural gas produced from the Jonah and Pinedale fields to regional natural gas processing plants and major interstate pipelines that deliver natural gas to end-user markets.

Prior to entering into the Jonah joint venture, we managed the construction of the Phase V expansion and funded the initial construction costs under a letter of intent we signed in February 2006. In connection with the joint venture arrangement, we and TEPPCO will continue the Phase V expansion, which is expected to increase the capacity of the Jonah Gathering System from 1.5 Bcf/d to 2.3 Bcf/d. The Phase V expansion is also expected to significantly reduce system operating pressures, which we anticipate will lead to increased production rates and ultimate reserve recoveries. The first portion of the expansion, which is expected to increase the system gathering capacity to 2.0 Bcf/d, is projected to be completed in the third quarter of 2007. The second portion of the expansion is expected to be completed by the end of 2007. We will operate the Jonah Gathering System.

We manage the Phase V construction project. TEPPCO is entitled to all distributions from the joint venture until specified milestones are achieved, at which point, we will be entitled to receive 50% of the incremental cash flow from portions of the system placed in service as part of the expansion. After subsequent milestones are achieved, we and TEPPCO will share distributions based on a formula that takes into account the respective capital contributions of the parties, including expenditures by TEPPCO prior to the expansion.

Since August 1, 2006, we and TEPPCO equally share in the construction costs of the Phase V expansion. TEPPCO has reimbursed us \$139.3 million for its share of the Phase V costs. At March 31, 2007, we had a receivable from TEPPCO of \$14.9 million for additional Phase V costs incurred through March 31, 2007.

Upon completion of the expansion project and based on the formula in the joint venture partnership agreement, we expect to own an interest in Jonah of approximately 20%, with TEPPCO owning the remaining 80%. At March 31, 2007, we and TEPPCO owned an approximate 17.3% interest and 82.7% interest, respectively, in Jonah. For the three months ended March 31, 2007, our earnings sharing ratio in Jonah was 4.8% compared to TEPPCO's 95.2%.

The joint venture is governed by a management committee comprised of two representatives approved by Enterprise Products Partners and two representatives appointed by TEPPCO, each with equal voting power. After an in-depth consideration of all relevant factors, this transaction was approved by the Audit, Conflicts and Governance Committee of Enterprise Products GP and that of TEPPCO GP.

EPCO Administrative Services Agreement

We have no employees. All of our management, administrative and operating functions are performed by employees of EPCO pursuant to an administrative services agreement (the "ASA"). Enterprise Products Partners and its general partner, us and our general partner, Duncan Energy Partners and its general partner, and TEPPCO and its general partner, among other affiliates, are parties to the ASA. We will reimburse EPCO for the costs of its employees who perform operating functions for us and for costs related to its other management and administrative employees.

Under the ASA, we reimburse EPCO for all costs and expenses it incurs in providing management, administrative and operating services to us. The ASA also addresses potential conflicts that may arise among us, Enterprise GP Holdings, Duncan Energy Partners and other affiliates of EPCO.

Relationship with Duncan Energy Partners

For financial reporting purposes, Enterprise Products Partners consolidates the financial statements of Duncan Energy Partners with those of its own and reflect Duncan Energy Partners' operations in its business segments. In turn, we consolidate the financial statements of Enterprise Products Partners with those of our own. All intercompany transactions between Enterprise Products Partners and Duncan Energy Partners are eliminated in the preparation of such consolidated financial statements. Public ownership of Duncan Energy Partners' net assets and earnings are presented as a component of minority interest in our consolidated financial statements (see Note 2).

The borrowings of Duncan Energy Partners are presented as part of our consolidated debt; however, neither we nor Enterprise Products Partners have any obligation for the payment of interest or repayment of borrowings incurred by Duncan Energy Partners.

On February 5, 2007, Duncan Energy Partners completed its initial public offering of 14,950,000 common units (including an overallotment amount of 1,950,000 common units) at \$21.00 per unit, which generated net proceeds to Duncan Energy Partners of \$291.9 million. As consideration for assets contributed and reimbursement for capital expenditures related to these assets, Duncan Energy Partners distributed \$260.6 million of these net proceeds to the Operating Partnership along with \$198.9 million in borrowings under its credit facility and a final amount of 5,351,571 common units of Duncan Energy Partners. The Operating Partnership used the cash it received from Duncan Energy Partners to temporarily reduce amounts outstanding under its Multi-Year Revolving Credit Facility.

Enterprise Products Partners contributed 66% of its equity interests in the following subsidiaries to Duncan Energy Partners:

- Mont Belvieu Caverns, LLC ("Mont Belvieu Caverns"), a recently formed subsidiary, which owns salt dome storage caverns located in Mont Belvieu, Texas that receive, store and deliver NGLs and certain petrochemical products for industrial customers located along the upper Texas Gulf Coast, which has the largest concentration of petrochemical plants and refineries in the United States;
- Acadian Gas, LLC ("Acadian Gas"), which owns an onshore natural gas pipeline system that gathers, transports, stores and markets natural gas in Louisiana. The Acadian Gas system links natural gas supplies from onshore and offshore Gulf of Mexico developments (including offshore pipelines, continental shelf and deepwater production) with local gas distribution companies, electric generation plants and industrial customers, including those in the Baton Rouge-New Orleans-Mississippi River corridor. A subsidiary of Acadian Gas owns our 49.5% equity interest in Evangeline;
- Sabine Propylene Pipeline L.P. ("Sabine Propylene"), which transports polymer-grade propylene between Port Arthur, Texas and a pipeline interconnect located in Cameron Parish, Louisiana;
- Enterprise Lou-Tex Propylene Pipeline L.P. ("Lou-Tex Propylene"), which transports chemical-grade propylene from Sorrento, Louisiana to Mont Belvieu, Texas; and
- South Texas NGL Pipelines, LLC ("South Texas NGL"), a recently formed subsidiary, which began transporting NGLs from Corpus Christi, Texas to Mont Belvieu, Texas in January 2007. South Texas NGL owns the DEP South Texas NGL Pipeline System.

In addition to the 34% direct ownership interest Enterprise Products Partners retained in such entities, it also owns the 2% general partner interest in Duncan Energy Partners and 26.4% of Duncan Energy Partners' outstanding common units. The Operating Partnership of Enterprise Products Partners directs the business operations of Duncan Energy Partners through its ownership and control of the general partner of Duncan Energy Partners.

[Table of Contents](#)

Enterprise Products Partners has significant involvement with all of the subsidiaries of Duncan Energy Partners, including the following types of transactions:

- It utilizes storage services provided by Mont Belvieu Caverns to support its Mont Belvieu fractionation and other businesses;
- It buys natural gas from and sells natural gas to Acadian Gas in connection with its normal business activities; and
- It is currently the sole shipper on the DEP South Texas NGL Pipeline System.

We may contribute other equity interests in our subsidiaries to Duncan Energy Partners and use the proceeds we receive from Duncan Energy Partners to fund our capital spending program. We have no obligation or commitment to make such contributions to Duncan Energy Partners.

Relationships with Unconsolidated Affiliates

Our significant related party revenue and expense transactions with unconsolidated affiliates consist of the sale of natural gas to Evangeline and the purchase of NGL storage, transportation and fractionation services from Promix. In addition, we sell natural gas to Promix and process natural gas at VESCO.

See "Relationship with TEPPCO" within this Note 12 for a description of ongoing transactions involving our Jonah joint venture with TEPPCO.

For additional information regarding our unconsolidated affiliates, see Note 7.

Note 13. Earnings Per Unit

Basic earnings per unit is computed by dividing net income or loss allocated to limited partner interests by the weighted-average number of distribution-bearing units outstanding during a period. Enterprise GP Holdings L.P. currently has no dilutive securities. The amount of net income allocated to limited partner interests is derived by subtracting the general partner's share of the parent company's net income from net income.

The following table presents the allocation of net income to the parent company's general partner for the periods indicated:

	For the Three Months Ended March 31,	
	2007	2006
Net income	\$ 26,122	\$ 22,355
Multiplied by general partner ownership interest	0.01%	0.01%
General partner interest in net income	\$ 3	\$ 2

Note 14. Commitments and Contingencies**Litigation**

On occasion, we are named as a defendant in litigation relating to our normal business activities, including regulatory and environmental matters. Although we are insured against various business risks to the extent we believe it is prudent, there is no assurance that the nature and amount of such insurance will be adequate, in every case, to indemnify us against liabilities arising from future legal proceedings as a result of our ordinary business activities. We are unaware of any significant litigation, pending or threatened, that could have a significant adverse effect on our financial position, cash flows or results of operations.

On September 18, 2006, Peter Brinckerhoff, a purported unitholder of TEPPCO, filed a complaint in the Court of Chancery of New Castle County in the State of Delaware, in his individual capacity, as a

Table of Contents

putative class action on behalf of other unitholders of TEPPCO, and derivatively on behalf of TEPPCO, concerning, among other things, certain transactions involving TEPPCO and us or our affiliates. The complaint names as defendants (i) TEPPCO, its current and certain former directors, and certain of its affiliates; (ii) us and certain of our affiliates, including the parent company of our general partner; (iii) EPCO, Inc.; and (iv) Dan L. Duncan.

The complaint alleges, among other things, that the defendants have caused TEPPCO to enter into certain transactions with us or our affiliates that are unfair to TEPPCO or otherwise unfairly favored us or our affiliates over TEPPCO. These transactions are alleged to include the joint venture to further expand the Jonah Gathering System entered into by TEPPCO and one of our affiliates in August 2006 and the sale by TEPPCO to one of our affiliates of the Pioneer gas processing plant in March 2006. The complaint seeks (i) rescission of these transactions or an award of rescissory damages with respect thereto; (ii) damages for profits and special benefits allegedly obtained by defendants as a result of the alleged wrongdoings in the complaint; and (iii) awarding plaintiff costs of the action, including fees and expenses of his attorneys and experts. We believe this lawsuit is without merit and intend to vigorously defend against it. See Note 12 for additional information regarding our relationship with TEPPCO.

On February 13, 2007, the Operating Partnership of Enterprise Products Partners received notice from the U.S. Department of Justice (“DOJ”) that it was the subject of a criminal investigation related to an ammonia release in Kingman County, Kansas on October 27, 2004 from a pressurized anhydrous ammonia pipeline owned by a third party, Magellan Ammonia Pipeline, L.P. (“Magellan”). The Operating Partnership is the operator of this pipeline. On February 14, 2007, the Operating Partnership received a letter from the Environment and Natural Resources Division (“ENRD”) of the DOJ regarding this incident and a previous release of ammonia on September 27, 2004 from the same pipeline. The ENRD has indicated that it may pursue civil damages against the Operating Partnership and Magellan as a result of these incidents. Based on this correspondence from the ENRD, the statutory maximum amount of civil fines that could be assessed against the Operating Partnership and Magellan is up to \$17.4 million in the aggregate. The Operating Partnership is cooperating with the DOJ and is pursuing a resolution acceptable to all parties. The Operating Partnership is seeking defense and indemnity under the pipeline operating agreement between it and Magellan. At this time, we do not believe that a final resolution of either the criminal investigation by the DOJ or the civil claims by the ENRD will have a material impact on our consolidated financial position, results of operations or cash flows.

On October 25, 2006, a rupture in the Magellan Ammonia Pipeline resulted in the release of ammonia near Clay Center, Kansas. The pipeline has been repaired and environmental remediation tasks related to this incident have been completed. At this time, we do not believe that this incident will have a material impact on our consolidated financial position, results of operations or cash flows.

Several lawsuits have been filed by municipalities and other water suppliers against a number of manufacturers of reformulated gasoline containing methyl tertiary butyl ether. In general, such suits have not named manufacturers of this product as defendants, and there have been no such lawsuits filed against our subsidiary that owns an octane-additive production facility. It is possible, however, that former manufacturers such as our subsidiary could ultimately be added as defendants in such lawsuits or in new lawsuits.

Operating Leases

We lease certain property, plant and equipment under noncancelable and cancelable operating leases. Our significant lease agreements involve (i) the lease of underground caverns for the storage of natural gas and NGLs, (ii) leased office space with an affiliate of EPCO, and (iii) land held pursuant to right-of-way agreements. In general, our material lease agreements have original terms that range from 14 to 20 years and include renewal options that could extend the agreements for up to an additional 20 years. Lease expense is charged to operating costs and expenses on a straight line basis over the period of expected economic benefit. Contingent rental payments are expensed as incurred.

Table of Contents

Lease and rental expense included in operating costs and expenses was \$8.1 million and \$9.7 million during the three months ended March 31, 2007 and 2006, respectively. There have been no material changes in our operating lease commitments since December 31, 2006.

Contractual Obligations

With the exception of the debt incurred by Duncan Energy Partners in connection with its initial public offering, there have been no significant changes in our schedule of maturities of long-term debt since those reported in our annual report on Form 10-K for the year ended December 31, 2006. See Note 9 for additional information regarding the debt obligations of Duncan Energy Partners.

Performance Guaranty

In December 2004, a subsidiary of the Operating Partnership entered into the Independence Hub Agreement (the "Agreement") with six oil and natural gas producers. The Agreement, as amended, obligates this subsidiary to construct the Independence Hub offshore platform and to process 1 Bcf/d of natural gas and condensate for the producers.

The Operating Partnership guaranteed to the producers the construction-related performance of its subsidiary up to an amount of \$340.8 million. This figure represents the maximum amount the Operating Partnership would have to pay the producers in the remote circumstance where they must finish construction of the platform because the Operating Partnership's subsidiary failed to do so. This guarantee will remain in place until the earlier of (i) the date all guaranteed obligations terminate or expire, or have been paid or otherwise performed or discharged in full, (ii) upon mutual written consent of the Operating Partnership, the producers and our joint venture partner in the platform project or (iii) mechanical completion of the platform. Mechanical completion of the Independence Hub platform is expected to occur in May 2007.

In accordance with FIN 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others," we recorded the fair value of the performance guaranty using an expected present value approach. Given the remote probability that we would have been required to perform under the guaranty, we had estimated the fair value of the performance guaranty at approximately \$1.2 million, which is a component of other current liabilities on our Consolidated Balance Sheets at March 31, 2007 and December 31, 2006.

Other Claims

As part of our normal business activities with joint venture partners and certain customers and suppliers, we occasionally make claims against such parties or have claims made against us as a result of disputes related to contractual agreements or similar arrangements. As of March 31, 2007, our contingent claims against such parties were approximately \$2.0 million and claims against us were approximately \$34.0 million. These matters are in various stages of assessment and the ultimate outcome of such disputes cannot be reasonably estimated. However, in our opinion, the likelihood of a material adverse outcome related to disputes against us is remote. Accordingly, accruals for loss contingencies related to these matters, if any, that might result from the resolution of such disputes have not been reflected in our consolidated financial statements.

Note 15. Significant Risks and Uncertainties — Weather-Related Risks

The following is a discussion of the general status of our insurance claims related to recent significant storm events. To the extent we include any estimate or range of estimates regarding the dollar value of damages, please be aware that a change in our estimates may occur as additional information becomes available.

[Table of Contents](#)

Hurricane Ivan insurance claims. We have submitted business interruption insurance claims for our estimated losses caused by Hurricane Ivan. During the three months ended March 31, 2007 and 2006, we received \$0.4 million and \$10.2 million, respectively, of nonrefundable cash proceeds from such claims. We are continuing our efforts to collect residual balances and expect to complete the process during 2007. To the extent we receive nonrefundable cash proceeds from business interruption insurance claims, they are recorded as a gain in our Unaudited Condensed Statements of Consolidated Operations in the period of receipt.

We received \$1.1 million and \$24.1 million during the three months ended March 31, 2007 and March 31, 2006, respectively, related to property damage claims arising from Hurricane Ivan.

Hurricanes Katrina and Rita insurance claims. Hurricanes Katrina and Rita, both significant storms, affected certain of our Gulf Coast assets in August and September of 2005, respectively. With respect to these storms, we have \$77.7 million of estimated property damage claims outstanding at March 31, 2007, that we believe are probable of collection during the periods 2007 through 2009. We are pursuing collection of our property damage and business interruption claims related to Hurricanes Katrina and Rita.

Note 16. Supplemental Cash Flow Information

Our Unaudited Condensed Statements of Consolidated Cash Flows are prepared using the indirect method. The indirect method derives net cash flows from operating activities by adjusting net income to remove (i) the effects of all deferrals of past operating cash receipts and payments, such as changes during the period in inventory, deferred income and similar transactions, (ii) the effects of all accruals of expected future operating cash receipts and cash payments, such as changes during the period in receivables and payables, (iii) the effects of all items classified as investing or financing cash flows, such as gains or losses on sale of property, plant and equipment or extinguishment of debt, and (iv) other non-cash amounts such as depreciation, amortization and changes in the fair market value of financial instruments.

The net effect of changes in operating assets and liabilities is as follows for the periods indicated:

	For the Three Months Ended March 31,	
	2007	2006
Decrease (increase) in:		
Accounts and notes receivable	\$ 8,539	\$ 356,566
Inventories	(35,297)	84,191
Prepaid and other current assets	6,014	12,526
Other assets	2,314	7,866
Increase (decrease) in:		
Accounts payable	(56,617)	(86,489)
Accrued gas payable	163,514	(174,960)
Accrued expenses	119,918	44,029
Accrued interest	(10,738)	471
Other current liabilities	(29,347)	2,589
Other long-term liabilities	964	1,086
Net effect of changes in operating accounts	<u>\$169,264</u>	<u>\$ 247,875</u>

Third parties may be obligated to reimburse us for all or a portion of expenditures on certain of our capital projects. The majority of such arrangements are associated with projects related to pipeline construction and production well tie-ins. We received \$39.1 million and \$12.2 million as contributions in aid of our construction costs during the three months ended March 31, 2007 and 2006, respectively.

Note 17. Condensed Financial Information of Operating Partnership

The Operating Partnership conducts substantially all of Enterprise Products Partners' business. Currently, Enterprise Products Partners has no independent operations and no material assets outside those of the Operating Partnership. The Operating Partnership consolidates the financial statements of Duncan Energy Partners with those of its own.

Enterprise Products Partners guarantees the consolidated debt obligations of its Operating Partnership, with the exception of the Dixie revolving credit facility, Duncan Energy Partners' credit facility and the senior subordinated notes assumed in connection with the GulfTerra Merger. If the Operating Partnership were to default on any debt guaranteed by Enterprise Products Partners, Enterprise Products Partners would be responsible for full repayment of that obligation. See Note 9 for additional information regarding our consolidated debt obligations.

The reconciling items between our consolidated financial statements and those of the Operating Partnership are substantially the same as the difference between our consolidated financial statements and those of Enterprise Products Partners.

The following table presents condensed consolidated balance sheet data for the Operating Partnership at the dates indicated:

	March 31, 2007	December 31, 2006
ASSETS		
Current assets	\$ 1,968,896	\$ 1,915,937
Property, plant and equipment, net	10,210,898	9,832,547

Cumulative effect of change in accounting principle	—	1,475
Net income	\$ 112,817	\$ 135,329

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

For the three months ended March 31, 2007 and 2006.

The following information should be read in conjunction with our Unaudited Condensed Consolidated Financial Statements and our accompanying notes included under Item 1 of this quarterly report on Form 10-Q and with the information contained within our annual report on Form 10-K for the year ended December 31, 2006. Our discussion and analysis includes the following:

- Overview of Business.
- Results of Operations — Discusses material quarter-to-quarter variances in our Unaudited Condensed Statements of Consolidated Operations.
- Liquidity and Capital Resources — Addresses available sources of liquidity and analyzes cash flows.
- Critical Accounting Policies — Presents accounting policies that are among the most significant to the portrayal of our financial condition and results of operations.
- Other Items — Includes information related to contractual obligations, off-balance sheet arrangements, related party transactions, recent accounting pronouncements and similar disclosures.

This discussion contains various forward-looking statements and information that are based on our beliefs and those of our general partner, as well as assumptions made by us and information currently available to us. When used in this document, words such as "anticipate," "project," "expect," "plan," "goal," "forecast," "intend," "could," "believe," "may" and similar expressions and statements regarding our plans and objectives for future operations, are intended to identify forward-looking statements. Although we and our general partner believe that such expectations reflected in such forward-looking statements are reasonable, neither we nor our general partner can give any assurances that such expectations will prove to be correct. Such statements are subject to a variety of risks, uncertainties and assumptions as described in more detail in Item 1A, "Risk Factors," included in our annual report on Form 10-K for 2006. If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, our actual results may vary materially from those anticipated, estimated, projected or expected. You should not put undue reliance on any forward-looking statements.

As generally used in the energy industry and in this discussion, the identified terms have the following meanings:

/ d	= per day
BBtus	= billion British thermal units
Bcf	= billion cubic feet
MBPD	= thousand barrels per day
Mdth	= thousand decatherms
MMBbbls	= million barrels
MMBtus	= million British thermal units
MMcf	= million cubic feet
Mcf	= thousand cubic feet
TBtu	= trillion British thermal units

Our financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP").

Significant Relationships References in this Quarterly Report

Unless the context requires otherwise, references to “we,” “us,” “our” or “Enterprise GP Holdings L.P.” are intended to mean the business and operations of Enterprise GP Holdings L.P., the parent company, as well as its consolidated subsidiaries, which include Enterprise Products GP, LLC and Enterprise Products Partners L.P. and its consolidated subsidiaries.

References to “the parent company” are intended to mean and include Enterprise GP Holdings L.P., individually as the parent company, and not on a consolidated basis.

References to “EPE Holdings” mean EPE Holdings, LLC, which is the general partner of Enterprise GP Holdings L.P.

References to “Enterprise Products Partners” mean the business and operations of Enterprise Products Partners L.P. and its consolidated subsidiaries, including Duncan Energy Partners L.P.

References to the “Operating Partnership” mean Enterprise Products Operating L.P., which is a wholly owned subsidiary of Enterprise Products Partners through which Enterprise Products Partners conducts substantially all of its business. The Operating Partnership owns the general partner of Duncan Energy Partners L.P.

References to “Enterprise Products GP” mean Enterprise Products GP, LLC, which is the general partner of Enterprise Products Partners L.P.

References to “Duncan Energy Partners” mean Duncan Energy Partners L.P., which is a consolidated subsidiary of the Operating Partnership of Enterprise Products Partners. Duncan Energy Partners completed its initial public offering of common units on February 5, 2007 and owns equity interests in certain of Enterprise Products Partners’ midstream energy businesses.

References to “TEPPCO” mean TEPPCO Partners, L.P., a publicly traded Delaware limited partnership, which is an affiliate of us. References to “TEPPCO GP” mean Texas Eastern Products Pipeline Company, LLC, which is the general partner of TEPPCO and owned by a private company subsidiary of EPCO, Inc.

References to “Employee Partnerships” mean EPE Unit L.P. and EPE Unit II, L.P., collectively, which are private company affiliates of EPCO, Inc. References to “EPE Unit I” and “EPE Unit II” refer to EPE Unit L.P. and EPE Unit II, L.P., respectively.

References to “Duncan Energy Partners” or “DEP” mean Duncan Energy Partners L.P., which is a publicly traded, consolidated subsidiary of the Operating Partnership and completed its initial public offering in February 2007.

References to “EPCO” mean EPCO, Inc., which is a related party affiliate to all of the foregoing named entities.

Overview of Business

The parent company is the owner of Enterprise Products GP, which is the general partner of Enterprise Products Partners. The primary business purpose of Enterprise Products GP is to manage the affairs and operations of Enterprise Products Partners, which is a North American midstream energy company providing a wide range of services to producers and consumers of natural gas, natural gas liquids (“NGLs”), crude oil, and certain petrochemicals. Enterprise Products Partners is an industry leader in the development of pipeline and other midstream energy infrastructure in the continental United States and Gulf of Mexico. Its midstream energy asset network links producers of natural gas, NGLs and crude oil from some of the largest supply basins in the United States, Canada and the Gulf of Mexico with domestic

Table of Contents

consumers and international markets. Enterprise Products Partners conducts substantially all of its business through a wholly owned subsidiary, Enterprise Products Operating L.P.

We are owned 99.99% by our limited partners and 0.01% by EPE Holdings. We, EPE Holdings, Enterprise Products GP and Enterprise Products Partners are affiliates and under common control of Dan L. Duncan, the Chairman and controlling shareholder of EPCO. We and Enterprise Products GP have no independent operations outside those of Enterprise Products Partners.

Basis of Presentation

The parent company has no separate operating activities apart from those conducted by the Operating Partnership of Enterprise Products Partners. The principal sources of cash flow of the parent company are its investments in limited and general partner ownership interests of Enterprise Products Partners. The parent company's primary cash requirements are for general and administrative costs, debt service requirements and distributions to its partners. The parent company's assets and liabilities are not available to satisfy the debts and other obligations of Enterprise Products Partners.

In order to fully understand the financial condition and results of operations of the parent company on a standalone basis, we have included discussions of parent company matters apart from those of our consolidated partnership.

Recent Developments

The following information highlights our significant developments since January 1, 2007 through the date of this filing.

- In March 2007, Enterprise Products Partners announced the successful installation of its Independence Hub platform at its deepwater site in the Mississippi Canyon of the eastern Gulf of Mexico. As a result of this event, the Independence Hub platform has started earning demand revenues.
- In March 2007, Enterprise Products Partners announced the formation of a natural gas services and marketing businesses similar to its existing NGL and petrochemical marketing businesses. This new group will be the focal point for all of Enterprise Products Partners' existing natural gas supply and marketing activities, which currently include producer wellhead services, facility fuel procurement, pipeline and storage capacity optimization, and a full range of market customer delivery arrangements. This initiative is expected to broaden Enterprise Products Partners' role in the natural gas markets by linking its extensive U.S. natural gas pipeline and storage assets, thus providing its customers with value-added solutions and reducing Enterprise Products Partners' operating costs through enhanced fuel procurement practices.
- In February 2007, Duncan Energy Partners, a consolidated subsidiary of Enterprise Products Partners, completed an underwritten initial public offering of 14,950,000 of its common units. Enterprise Products Partners formed Duncan Energy Partners as a Delaware limited partnership to acquire ownership interests in certain of its midstream energy businesses. For additional information regarding Duncan Energy Partners, see "Other Items — Initial Public Offering of Duncan Energy Partners" included within this Item 2.

Capital Spending

We are committed to the long-term growth and viability of Enterprise Products Partners. Part of our business strategy involves expansion through business combinations, growth capital projects and investments in joint ventures. We believe we are positioned to continue to grow our system of assets through the construction of new facilities and to capitalize on expected future production increases from

[Table of Contents](#)

such areas as the Piceance Basin of western Colorado, the Greater Green River Basin in Wyoming, the Barnett Shale in North Texas, and the deepwater Gulf of Mexico.

Management continues to analyze potential acquisitions, joint ventures and similar transactions with businesses that operate in complementary markets or geographic regions. In recent years, major oil and gas companies have sold non-strategic assets in the midstream energy sector in which we operate. We expect this trend to continue, and expect independent oil and natural gas companies to consider similar divestitures.

Based on information currently available, we estimate our consolidated capital spending for the remainder of 2007 (i.e., the second, third and fourth quarters) will approximate \$1.4 billion, which includes estimated expenditures of \$1.3 billion for growth capital projects and acquisitions and \$0.1 billion for sustaining capital expenditures. For information regarding selected major growth capital projects, please see "Capital Spending" under Item 7 of the annual report on Form 10-K for the year ended December 31, 2006.

Our forecast of consolidated capital expenditures is based on our strategic operating and growth plans, which are dependent upon our ability to generate the required funds from either operating cash flows or from other means, including borrowings under debt agreements, issuance of equity, and potential divestitures of certain assets to third and/or related parties. Our forecast of capital expenditures may change due to factors beyond our control, such as weather related issues, changes in supplier prices or adverse economic conditions. Furthermore, our forecast may change as a result of decisions made by management at a later date, which may include acquisitions or decisions to take on additional partners.

Our success in raising capital, including the formation of joint ventures to share costs and risks, continues to be a principal factor that determines how much we can spend. We believe our access to capital resources is sufficient to meet the demands of our current and future operating growth needs, and although we currently intend to make the forecasted expenditures discussed above, we may adjust the timing and amounts of projected expenditures in response to changes in capital markets.

The following table summarizes our capital spending by activity for the periods indicated (dollars in thousands):

	For the Three Months Ended March 31,	
	2007	2006
Capital spending for business combinations:		
Additional ownership interest in Dixie Pipeline Company ("Dixie") and other	\$ 312	\$ —
Total	312	—
Capital spending for property, plant and equipment:		
Growth capital projects, net	567,406	279,994
Sustaining capital projects	7,484	24,624
Total	574,890	304,618
Capital spending attributable to unconsolidated affiliates:		
Investments in and advances to unconsolidated affiliates	(44,487)	(53,148)
Total	(44,487)	(53,148)
Total capital spending	\$530,715	\$251,470

Our capital spending for growth capital projects (as presented in the preceding table) are net of amounts we received from third parties as contributions in aid of our construction costs. Such contributions were \$39.1 million and \$12.2 million for the three months ended March 31, 2007 and 2006, respectively. On certain of our capital projects, third parties are obligated to reimburse us for all or a portion of project expenditures. The majority of such arrangements are associated with projects related to pipeline construction and production well tie-ins.

[Table of Contents](#)

At March 31, 2007, we had \$454.9 million in outstanding purchase commitments. These commitments primarily relate to growth capital projects in the Rocky Mountains that are expected to be placed in service in 2007 and the Shenzi Oil Export Pipeline Project, which is expected to be completed in 2009.

We own a 50.0% interest in Cameron Highway Oil Pipeline Company (“Cameron Highway”), which owns a crude oil pipeline that gathers production from deepwater areas of the Gulf of Mexico, primarily the South Green Canyon area, for delivery to refineries and terminals in southeast Texas. The Cameron Highway Oil Pipeline commenced operations during the first quarter of 2005. In light of reduced deliveries of crude oil to Cameron Highway caused by production delays, the management committee of Cameron Highway intends to repay its Series A notes using cash contributions from the partners of Cameron Highway.

In May 2007, we intend to make an approximate \$191.0 million cash contribution to Cameron Highway. This capital contribution, along with an equal amount contributed by our joint venture partner in Cameron Highway, will be used by Cameron Highway to repay \$365.0 million outstanding under its Series A notes and \$16.3 million of related make-whole premiums and accrued interest.

In March 2007, Enterprise Products Partners announced the successful installation of its Independence Hub platform at its deepwater site in the Mississippi Canyon of the eastern Gulf of Mexico. As a result of this event, the Independence Hub platform has started earning demand revenues. With the installation now complete, control of the Independence Hub will be transferred to Anadarko Petroleum Corporation as platform operator. Production from the fields served by the Independence Hub platform is expected to begin in the second half of 2007.

Pipeline Integrity Costs

Our NGL, petrochemical and natural gas pipelines are subject to pipeline safety programs administered by the U.S. Department of Transportation, through its Office of Pipeline Safety. During the three months ended March 31, 2007 and 2006, we spent approximately \$18.7 million and \$18.6 million, respectively, to comply with these programs, of which \$8.3 million and \$5.9 million, respectively, was recorded as an operating expense and the remaining \$10.4 million and \$12.7 million, respectively, was capitalized.

We expect our net cash outlay for pipeline integrity program expenditures to approximate \$29.6 million for the remainder of 2007. Our forecast is net of certain costs we expect to recover from El Paso in connection with an indemnification agreement. During the remainder of 2007, we expect to recover \$31.1 million from El Paso related to our 2006 expenditures, which leaves a remainder of \$5.4 million reimbursable by El Paso for 2007 pipeline integrity costs.

Results of Operations

Parent Company’s Results of Operations

The parent company has no separate operating activities apart from those conducted by Enterprise Products Partners. The parent company’s earnings primarily reflect equity in the income of its general and limited partner interests in Enterprise Products Partners. The following table summarizes key components of the parent company’s results of operations for the periods indicated (dollars in thousands):

	For the Three Months Ended March 31,	
	2007	2006
Equity in income of unconsolidated affiliates	\$ 29,557	\$ 25,108
Interest expense	\$ 2,556	\$ 2,066
Net income	\$ 26,122	\$ 22,355

[Table of Contents](#)

For additional information regarding the parent company's financial results, see Note 1 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Item 1 of this quarterly report.

Equity Income. During the three months ended March 31, 2007 and 2006, the parent company recorded \$29.6 million and \$25.1 million, respectively, in equity earnings from its investment in limited and general partner ownership interests of Enterprise Products Partners.

Interest expense. During the three months ended March 31, 2007 and 2006, the parent company incurred \$2.6 million and \$2.1 million, respectively, in interest expense as a result of principal amounts outstanding under its credit facility.

Our Consolidated Results of Operations

Since the parent company owns the general partner of Enterprise Products Partners, it controls the activities of Enterprise Products Partners. As a result, the parent company consolidates the financial information of these subsidiaries with that of its own.

We have four reportable business segments: NGL Pipelines & Services, Onshore Natural Gas Pipelines & Services, Offshore Pipelines & Services and Petrochemical Services. Our business segments are generally organized and managed according to the type of services rendered (or technologies employed) and products produced and/or sold.

We evaluate segment performance based on the non-GAAP financial measure of gross operating margin. Gross operating margin (either in total or by individual segment) is an important performance measure of the core profitability of our operations. This measure forms the basis of our internal financial reporting and is used by senior management in deciding how to allocate capital resources among business segments. We believe that investors benefit from having access to the same financial measures that our management uses in evaluating segment results. The GAAP financial measure most directly comparable to total segment gross operating margin is operating income. Our non-GAAP financial measure of total segment gross operating margin should not be considered as an alternative to GAAP operating income.

We define total (or consolidated) segment gross operating margin as operating income before (i) depreciation, amortization and accretion expense; (ii) operating lease expenses for which we do not have the payment obligation; (iii) gains and losses on the sale of assets; and (iv) general and administrative costs. Gross operating margin is exclusive of other income and expense transactions, provision for income taxes, minority interest, extraordinary charges and the cumulative effect of change in accounting principle. Gross operating margin by segment is calculated by subtracting segment operating costs and expenses (net of the adjustments noted above) from segment revenues, with both segment totals before the elimination of intersegment and intrasegment transactions. Intercompany accounts and transactions are eliminated in consolidation.

We include earnings from equity method unconsolidated affiliates in our measurement of segment gross operating margin and operating income. Our equity investments with industry partners are a vital component of our business strategy. They are a means by which we conduct our operations to align our interests with those of our customers and/or suppliers. This method of operation also enables us to achieve favorable economies of scale relative to the level of investment and business risk assumed versus what we could accomplish on a stand-alone basis. Many of these businesses perform supporting or complementary roles to our other business operations. As circumstances dictate, we may increase our ownership interest in equity investments, which could result in their subsequent consolidation into our operations.

Our consolidated gross operating margin amounts include the gross operating margin amounts of Duncan Energy Partners on a 100% basis. Volumetric data associated with the operations of Duncan Energy Partners are also included on a 100% basis in our consolidated statistical data.

[Table of Contents](#)

For additional information regarding our business segments, see Note 11 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Item 1 of this quarterly report.

Selected Price and Volumetric Data

The following table illustrates selected quarterly industry index prices for natural gas, crude oil and selected NGL and petrochemical products for the periods presented.

	Natural Gas, \$/MMBtu	Crude Oil, \$/barrel	Ethane, \$/gallon	Propane, \$/gallon	Normal Butane, \$/gallon	Isobutane, \$/gallon	Natural Gasoline, \$/gallon	Polymer Grade Propylene, \$/pound	Refinery Grade Propylene, \$/pound
	(1)	(2)	(1)	(1)	(1)	(1)	(1)	(1)	(1)
2006									
1st Quarter	\$ 9.01	\$ 63.35	\$ 0.57	\$ 0.94	\$ 1.20	\$ 1.27	\$ 1.38	\$ 0.45	\$ 0.40
2nd Quarter	\$ 6.80	\$ 70.53	\$ 0.68	\$ 1.05	\$ 1.22	\$ 1.26	\$ 1.52	\$ 0.50	\$ 0.44
3rd Quarter	\$ 6.58	\$ 70.44	\$ 0.76	\$ 1.10	\$ 1.28	\$ 1.30	\$ 1.53	\$ 0.51	\$ 0.46
4th Quarter	\$ 6.56	\$ 60.03	\$ 0.62	\$ 0.95	\$ 1.11	\$ 1.12	\$ 1.31	\$ 0.44	\$ 0.35
2006 Averages	\$ 7.24	\$ 66.09	\$ 0.66	\$ 1.01	\$ 1.20	\$ 1.24	\$ 1.44	\$ 0.47	\$ 0.41
2007									
1st Quarter	\$ 6.77	\$ 58.02	\$ 0.59	\$ 0.97	\$ 1.13	\$ 1.22	\$ 1.37	\$ 0.45	\$ 0.40

(1) Natural gas, NGL, polymer grade propylene and refinery grade propylene prices represent an average of various commercial index prices including Oil Price Information Service (“OPIS”) and Chemical Market Associates, Inc. (“CMAI”). Natural gas price is representative of Henry-Hub I-FERC. NGL prices are representative of Mont Belvieu Non-TET pricing. Refinery grade propylene represents an average of CMAI spot prices. Polymer-grade propylene represents average CMAI contract pricing.

(2) Crude oil price is representative of an index price for West Texas Intermediate.

[Table of Contents](#)

The following table presents our significant average throughput, production and processing volumetric data. These statistics are reported on a net basis, taking into account our ownership interests in certain joint ventures, and reflect the periods in which we owned an interest in such operations.

	For the Three Months Ended March 31,	
	2007	2006
NGL Pipelines & Services, net:		
NGL transportation volumes (MBPD)	1,607	1,443
NGL fractionation volumes (MBPD)	351	255
Equity NGL production (MBPD)	70	58
Fee-based natural gas processing (MMcf/d)	2,401	1,807
Onshore Natural Gas Pipelines & Services, net:		
Natural gas transportation volumes (BBtus/d)	6,086	6,052
Offshore Pipelines & Services, net:		
Natural gas transportation volumes (BBtus/d)	1,384	1,476
Crude oil transportation volumes (MBPD)	153	113
Platform gas processing (Mcf/d)	162	157
Platform oil processing (MBPD)	20	7
Petrochemical Services, net:		
Butane isomerization volumes (MBPD)	95	84
Propylene fractionation volumes (MBPD)	61	52
Octane additive production volumes (MBPD)	7	4
Petrochemical transportation volumes (MBPD)	102	87
Total, net:		
NGL, crude oil and petrochemical transportation volumes (MBPD)	1,862	1,643
Natural gas transportation volumes (BBtus/d)	7,470	7,528
Equivalent transportation volumes (MBPD) (1)	3,828	3,624

(1) Reflects equivalent energy volumes where 3.8 MMBtus of natural gas are equivalent to one barrel of NGLs.

Comparison of Results of Operations

The following table summarizes the key components of our results of operations for the periods indicated (dollars in thousands):

	For the Three Months Ended March 31,	
	2007	2006
Revenues	\$3,322,854	\$3,250,074
Operating costs and expenses	3,124,479	3,046,863
General and administrative costs	17,614	14,561
Equity in income of unconsolidated affiliates	6,179	4,029
Operating income	186,940	192,679
Interest expense	65,914	60,143
Minority interest expense	88,066	109,368
Net income	26,122	22,355

Minority interest expense represents third-party and related party ownership interests in the earnings of Enterprise Products Partners and certain other subsidiaries. For additional information regarding our minority interest amounts, see Note 2 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Item 1 of this annual report.

[Table of Contents](#)

Our gross operating margin by segment and in total is as follows for the periods indicated (dollars in thousands):

	For the Three Months Ended March 31,	
	2007	2006
Gross operating margin by segment:		
NGL Pipelines & Services	\$190,694	\$170,950
Onshore Natural Gas Pipelines & Services	76,515	96,803
Offshore Pipelines & Services	19,707	17,252
Petrochemical Services	37,583	27,518
Total segment gross operating margin	\$324,499	\$312,523

For a reconciliation of non-GAAP gross operating margin to GAAP operating income and further to GAAP income before provision for income taxes, minority interest and the cumulative effect of change in accounting principle, see "Other Items — Non-GAAP reconciliations" included within this Item 2.

The following table summarizes the contribution to consolidated revenues from the sale of NGL, natural gas and petrochemical products during the periods indicated (dollars in thousands):

	For the Three Months Ended March 31,	
	2007	2006
NGL Pipelines & Services:		
Sale of NGL products	\$2,191,624	\$2,192,016
Percent of consolidated revenues	66%	67%
Onshore Natural Gas Pipelines & Services:		
Sale of natural gas	\$ 361,031	\$ 367,544
Percent of consolidated revenues	11%	11%
Petrochemical Services:		
Sale of petrochemical products	\$ 387,752	\$ 343,350
Percent of consolidated revenues	12%	11%

As noted in the following section, changes in our revenues quarter-to-quarter are explained in part by changes in energy commodity prices.

Comparison of Three Months Ended March 31, 2007 with Three Months Ended March 31, 2006

Consolidated revenues increased \$72.8 million quarter-to-quarter to \$3.3 billion for the first quarter of 2007. The quarter-to-quarter increase in consolidated revenues is primarily due to (i) the addition of revenues from businesses we acquired or assets we placed in-service after the first quarter of 2006 and (ii) higher petrochemical sales volumes during the first quarter of 2007 relative to the first quarter of 2006. Consolidated revenues increased \$29.9 million quarter-to-quarter due to the addition of revenues from acquired businesses and newly constructed assets. Higher petrochemical sales volumes accounted for a \$44.4 million increase in consolidated revenues associated with our petrochemical marketing activities.

Operating costs and expenses were \$3.1 billion for the first quarter of 2007 versus \$3.0 billion for the first quarter of 2006. The \$77.6 million quarter-to-quarter increase in consolidated operating costs and expenses is primarily due to higher cost of sales associated with our petrochemical marketing activities. The cost of sales of our petrochemical products increased \$59.0 million quarter-to-quarter primarily due to an increase in volumes sold. The first quarter of 2007 includes \$39.6 million of consolidated operating costs and expenses attributable to businesses we acquired or assets we placed in-service after the first quarter of 2006. The increase in costs and expenses quarter-to-quarter was partially off-set by an \$18.6 million decrease in the cost of natural gas sales, which was primarily due to lower sales prices during the first quarter of 2007 relative to the first quarter of 2006. General and administrative costs increased \$3.1 million quarter-to-quarter.

Table of Contents

Changes in our revenues and costs and expenses quarter-to-quarter are explained in part by changes in energy commodity prices. The weighted-average indicative market price for NGLs was \$0.95 per gallon during the first quarter of 2007 versus \$0.94 per gallon during the first quarter of 2006. Our determination of the weighted-average indicative market price for NGLs is based on U.S. Gulf Coast prices for such products at Mont Belvieu, Texas, which is the primary industry hub for domestic NGL production. The market price of natural gas (as measured at Henry Hub) averaged \$6.77 per MMBtu during the first quarter of 2007 versus \$9.01 per MMBtu during the first quarter of 2006. Polymer grade and refinery grade propylene index prices averaged \$0.45 per pound and \$0.40 per pound, respectively, for the first quarter of 2007 and 2006. For additional historical energy commodity pricing information, see the table on page 46.

Equity earnings from unconsolidated affiliates were \$6.2 million for the first quarter of 2007 compared to \$4.0 million for the first quarter of 2006. The first quarter of 2007 includes \$1.0 million of equity earnings from Jonah. In addition, an increase in volumes from offshore production led to a collective \$2.0 million increase quarter-to-quarter in equity earnings from Poseidon and Deepwater Gateway. Equity earnings from Promix, which received additional volumes during the first quarter of 2006 while our Norco NGL fractionator was shut-in, decreased \$1.6 million quarter-to-quarter.

Operating income for the first quarter of 2007 was \$186.9 million compared to \$192.7 million for the first quarter of 2006. Collectively, the aforementioned changes in revenues, costs and expenses and equity earnings contributed to the \$5.8 million decrease in operating income quarter-to-quarter.

Interest expense increased \$5.8 million quarter-to-quarter primarily due to the Operating Partnership's issuance of junior notes in 2006 and an increase in interest rates charged on our variable rate debt. Our average debt principal outstanding was \$5.6 billion in the first quarter of 2007 compared to \$4.8 billion in the first quarter of 2006. Provision for income taxes increased \$5.9 million quarter-to-quarter primarily due to the Texas Margin Tax. Minority interest expense associated with the third-party and related party ownership interests in the earnings of Enterprise Products Partners and certain other subsidiaries decreased to \$88.1 million for the first quarter of 2007 from \$109.4 million for the first quarter of 2006.

As a result of items noted in the previous paragraphs, our consolidated net income increased \$3.7 million quarter-to-quarter to \$26.1 million in the first quarter of 2007 compared to \$22.4 million in the first quarter of 2006. Net income for the first quarter of 2006 includes a \$0.1 million non-cash benefit we recognized for the cumulative effect of change in accounting principle. For additional information regarding this cumulative effect of change in accounting principle, see Note 2 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Item 1 of this quarterly report.

The following information highlights significant quarter-to-quarter variances in gross operating margin by business segment:

NGL Pipelines & Services. Gross operating margin from this business segment was \$190.7 million for the first quarter of 2007 compared to \$171.0 million for the first quarter of 2006. The first quarter of 2007 includes \$1.4 million of proceeds from business interruption insurance claims compared to \$8.3 million of proceeds during the first quarter of 2006. Gross operating margin from our NGL pipelines and related storage business was \$78.9 million for the first quarter of 2007 compared to \$69.0 million for the first quarter of 2006. Total NGL transportation volumes increased to 1,607 MBPD during the first quarter of 2007 from 1,443 MBPD during the first quarter of 2006. The \$9.9 million quarter-to-quarter increase in gross operating margin from this business is primarily due to higher NGL transportation volumes during the first quarter of 2007 relative to the same quarter in 2006. Also, segment gross operating margin for the first quarter of 2007 includes \$4.9 million from the DEP South Texas NGL Pipeline, which was placed in-service in January 2007.

Gross operating margin from NGL fractionation was \$25.6 million for the first quarter of 2007 compared to \$17.0 million for the first quarter of 2006. Fractionation volumes increased from 255 MBPD during the first quarter of 2006 to 351 MBPD during the first quarter of 2007. The \$8.6 million quarter-to-

Table of Contents

quarter increase in gross operating margin is largely due to increased fractionation volumes at our Norco NGL fractionator. This facility suffered a reduction of volumes in the first quarter of 2006 due to the effects of Hurricane Katrina. Also, our Mont Belvieu NGL fractionator benefited from a 15 MBPD expansion project that was completed during the second quarter of 2006.

Gross operating margin from our natural gas processing and related NGL marketing business was \$86.2 million for the first quarter of 2007 compared to \$84.9 million for the first quarter of 2006, a quarter-to-quarter increase of \$1.3 million. Gross operating margin for the first quarter of 2007 includes \$2.9 million from processing contracts we acquired in connection with the Encinal acquisition in July 2006 and \$1.2 million from the Pioneer plant, which we acquired from TEPPCO in March 2006. In general, strong regional demand for NGLs led to higher sales margins during the first quarter of 2006 relative to the first quarter of 2007. Fee-based processing volumes increased to 2.4 Bcf/d during the first quarter of 2007 from 1.8 Bcf/d during the first quarter of 2006. Likewise, equity NGL production increased to 70 MBPD during the first quarter of 2007 from 58 MBPD during the first quarter of 2006.

Onshore Natural Gas Pipelines & Services. Gross operating margin from this business segment was \$76.5 million for the first quarter of 2007 compared to \$96.8 million for the first quarter of 2006. Our onshore natural gas transportation volumes were 6,086 BBtu/d during the first quarter of 2007 compared to 6,052 BBtu/d for the first quarter of 2006. Gross operating margin from our onshore natural gas pipelines decreased \$15.7 million quarter-to-quarter primarily due to lower revenues from our San Juan Gathering System, Permian Basin Gathering Systems and Texas Intrastate System. A significant portion of the gathering contracts on the San Juan Gathering System have fees that are based on natural gas index prices, which were higher during the first quarter of 2006 relative to the first quarter of 2007. The decrease in gross operating margin quarter-to-quarter from our Texas Intrastate System is primarily due to lower average transportation fees charged to shippers. Also, gathering volumes on our Permian Basin Gathering Systems were lower in the first quarter of 2007 relative to the first quarter of 2006.

Gross operating margin for the first quarter of 2007 includes \$1.0 million from the Piceance Creek Gathering System, which we acquired in December 2006 and placed in-service in January 2007. The Piceance Creek Gathering System contributed 287 BBtu/d of gathering volumes during the first quarter of 2007. The first quarter of 2007 also includes \$1.0 million of equity earnings from Jonah.

In addition, gross operating margin from our natural gas storage business decreased \$4.6 million quarter-to-quarter largely due to mechanical problems associated with three storage caverns located at our Wilson natural gas storage facility in Texas. As a result, these wells were out of service for the first quarter of 2007. We expect that two of the storage caverns at our Wilson facility will return to service in the second quarter of 2007.

Offshore Pipelines & Services. Gross operating margin from this business segment was \$19.7 million for the first quarter of 2007 compared to \$17.3 million for the first quarter of 2006. Gross operating margin from our offshore platforms was \$13.9 million for the first quarter of 2007 compared to \$8.5 million for the first quarter of 2006. The first quarter of 2006 includes \$1.9 million of proceeds from business interruption insurance claims. Gross operating margin for the first quarter of 2007 includes \$4.0 million from our Independence Hub platform, which began earning demand fee revenues in March 2007. We expect to earn additional fee-based revenues in the second half of 2007 when the Independence Hub platform begins processing natural gas from production fields in the Atwater Valley, DeSoto Canyon, Lloyd Ridge and Mississippi Canyon areas of the Gulf of Mexico. In addition, equity earnings from Deepwater Gateway, which owns the Marco Polo platform, increased \$1.3 million quarter-to-quarter primarily due to higher processing volumes.

Gross operating margin from our offshore crude oil pipelines was \$4.0 million for the first quarter of 2007 versus \$1.6 million for the first quarter of 2006. Our Marco Polo and Constitution oil pipelines posted higher crude oil transportation volumes during the first quarter of 2007 due to increased production activity by our customers. Collectively, gross operating margin from the Marco Polo and Constitution oil pipelines improved \$2.7 million quarter-to-quarter. Total offshore crude oil transportation volumes were 153 MBPD during the first quarter of 2007 versus 113 MBPD during the first quarter of 2006.

Table of Contents

Gross operating margin from our offshore natural gas pipelines was \$9.3 million for the first quarter of 2007 compared to \$8.8 million for the first quarter of 2006. Offshore natural gas transportation volumes were 1,384 BBtu/d during the first quarter of 2007 versus 1,476 BBtu/d during the first quarter of 2006. The \$0.5 million increase in gross operating margin quarter-to-quarter is primarily due to improved results on our Phoenix Gathering System. The Phoenix Gathering System was shut-in during the first quarter of 2006 due to Hurricane Katrina.

As a result of industry losses associated with significant storms in recent years, insurance costs for offshore operations have increased dramatically. Insurance costs for our offshore assets were \$7.6 million for the first quarter of 2007 compared to \$1.6 million for the first quarter of 2006.

Petrochemical Services. Gross operating margin from this business segment was \$37.6 million for the first quarter of 2007 compared to \$27.5 million for the first quarter of 2006. The \$10.1 million quarter-to-quarter increase in gross operating margin is primarily due to improved results from our octane enhancement business, which benefited from higher isooctane sales volumes and lower maintenance costs in the first quarter of 2007 relative to the first quarter of 2006. Gross operating margin from this business was a loss of \$1.2 million for the first quarter of 2007 compared to a loss of \$11.1 million for the first quarter of 2006. Our octane enhancement facility was idle during part of the first quarter of 2007 and 2006 for its planned annual turnaround and maintenance activities, which are scheduled during the winter months when demand for motor gasoline and motor gasoline additives are at seasonal lows.

Gross operating margin from butane isomerization was \$20.8 million for the first quarter of 2007 compared to \$18.1 million for the first quarter of 2006. The quarter-to-quarter increase of \$2.7 million is primarily due to higher processing volumes and lower fuel costs. Butane isomerization volumes increased to 95 MBPD during the first quarter of 2007 from 84 MBPD during the first quarter of 2006. Gross operating margin from our propylene fractionation and pipeline activities was \$18.0 million for the first quarter of 2007 versus \$20.5 million for the first quarter of 2006. The quarter-to-quarter decrease in gross operating margin of \$2.5 million is primarily due to weaker polymer grade propylene sales margins during the first quarter of 2007 compared to the first quarter of 2006. Petrochemical transportation volumes were 102 MBPD during the first quarter of 2007 compared to 87 MBPD during the first quarter of 2006.

Significant Risks and Uncertainties — Weather-Related Risks

The following is a discussion of the general status of our insurance claims related to recent significant storm events. To the extent we include any estimate or range of estimates regarding the dollar value of damages, please be aware that a change in our estimates may occur as additional information becomes available.

Hurricane Ivan insurance claims. We have submitted business interruption insurance claims for our estimated losses caused by Hurricane Ivan. During the three months ended March 31, 2007 and 2006, we received \$0.4 million and \$10.2 million, respectively, of nonrefundable cash proceeds from such claims. We are continuing our efforts to collect residual balances and expect to complete the process during 2007. To the extent we receive nonrefundable cash proceeds from business interruption insurance claims, they are recorded as a gain in our Unaudited Condensed Statements of Consolidated Operations in the period of receipt.

We received \$1.1 million and \$24.1 million during the three months ended March 31, 2007 and March 31, 2006, respectively, related to property damage claims arising from Hurricane Ivan.

Hurricanes Katrina and Rita insurance claims. Hurricanes Katrina and Rita, both significant storms, affected certain of our Gulf Coast assets in August and September of 2005, respectively. With respect to these storms, we have \$77.7 million of estimated property damage claims outstanding at March 31, 2007, that we believe are probable of collection during the periods 2007 through 2009. We are pursuing collection of our property damage and business interruption claims related to Hurricanes Katrina and Rita.

Liquidity and Capital Resources

Parent Company Liquidity and Capital Resources

The parent company has no separate operating activities apart from those conducted by Enterprise Products Partners and its Operating Partnership. The primary sources of cash flow for the parent company are its investments in limited partner and general partner interests of Enterprise Products Partners. The amount of cash that Enterprise Products Partners can distribute each quarter to its partners (including the parent company) is primarily based on its earnings from business activities, which are exposed to certain risks.

The parent company's primary cash requirements are for general and administrative costs, debt service costs and distributions to partners. The parent company expects to fund its short-term cash requirements for items such as general and administrative costs using operating cash flows. Debt service requirements are expected to be funded by operating cash flows and/or refinancing arrangements. Our parent company expects to fund cash distributions to its partners primarily with operating cash flows.

There have been no significant changes in the terms of the Parent Company's debt obligations since those reported in our annual report on Form 10-K for the year ended December 31, 2006.

Our Consolidated Liquidity and Capital Resources

Our primary cash requirements, in addition to normal operating expenses and debt service, are for working capital, capital expenditures, business acquisitions and distributions to our partners. We expect to fund our short-term needs for such items as operating expenses and sustaining capital expenditures with operating cash flows and short-term revolving credit arrangements. Capital expenditures for long-term needs resulting from internal growth projects and business acquisitions are expected to be funded by a variety of sources (either separately or in combination) including net cash flows provided by operating activities, borrowings under credit facilities, the issuance of additional equity and debt securities and proceeds from divestitures of ownership interest in assets to affiliates or third parties. We expect to fund cash distributions to partners primarily with operating cash flows. Our debt service requirements are expected to be funded by operating cash flows and/or refinancing arrangements.

At March 31, 2007, we had \$59.0 million of unrestricted cash on hand, approximately \$46.0 million of available credit under the parent company's credit facility, approximately \$823.2 million of available credit under the Operating Partnership's Multi-Year Revolving Credit Facility and approximately \$131.0 million of available credit under Duncan Energy Partners' Revolving Credit Facility. We had approximately \$5.6 billion in principal outstanding under consolidated debt agreements at March 31, 2007.

As a result of Enterprise Products Partners' growth objectives, we expect to access debt and equity capital markets from time-to-time and we believe that financing arrangements to support our growth activities can be obtained on reasonable terms. Furthermore, we believe that maintenance of an investment grade credit rating combined with continued ready access to debt and equity capital at reasonable rates and sufficient trade credit to operate our businesses efficiently provide a solid foundation to meet our long and short-term liquidity and capital resource requirements.

For additional information regarding our growth strategy, see "Capital Spending" included within this Item 2.

Registration Statements

The parent company, Enterprise Products Partners or Duncan Energy Partners may issue equity or debt securities to assist in meeting their liquidity and capital spending requirements. Enterprise Products Partners has a universal shelf registration statement on file with the U.S. Securities and Exchange Commission ("SEC") registering the issuance of \$4.0 billion of equity and debt securities. After taking

[Table of Contents](#)

into account the past issuance of securities under this universal registration statement, Enterprise Products Partners can issue approximately \$2.1 billion of additional securities under this registration statement as of May 1, 2007.

In April 2007, Enterprise Products Partners filed a registration statement with the SEC authorizing the issuance of up to 25,000,000 common units in connection with our distribution reinvestment plan (“DRIP”). The DRIP provides unitholders of record and beneficial owners of Enterprise Products Partners’ common units a voluntary means by which they can increase the number of common units they own by reinvesting the quarterly cash distributions they would otherwise receive into the purchase of additional common units. A total of 438,631 of Enterprise Products Partners’ common units were issued in February 2007 in connection with the DRIP and a related plan. The issuance of these units generated \$12.5 million in net proceeds.

In February 2007, Duncan Energy Partners completed its initial public offering of 14,950,000 common units, the majority of proceeds from which were distributed to the Operating Partnership of Enterprise Products Partners. Duncan Energy Partners may issue additional amounts of equity in the future in connection with other acquisitions. For additional information regarding Duncan Energy Partners, see “Other Items — Initial Public Offering of Duncan Energy Partners” included within this Item 2.

Credit Ratings of Operating Partnership

At May 1, 2007, the investment-grade credit ratings of the Operating Partnership’s debt securities were Baa3 by Moody’s Investor Services; BBB- by Fitch Ratings; and BBB- by Standard and Poor’s. All three ratings services have assigned to us a “stable outlook” with respect to their judgment of our future business performance.

[Table of Contents](#)**Debt Obligations**

For detailed information regarding our consolidated debt obligations and those of our unconsolidated affiliates, see Note 9 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Item 1 of this quarterly report. The following table summarizes our consolidated debt obligations at the dates indicated (dollars in thousands):

	March 31, 2007	December 31, 2006
Parent Company debt obligation:		
\$200 Million Credit Facility, due January 2009	\$ 154,000	\$ 155,000
Operating Partnership senior debt obligations:		
Multi-Year Revolving Credit Facility, variable rate, due October 2011	390,000	410,000
Pascagoula MBFC Loan, 8.70% fixed-rate, due March 2010	54,000	54,000
Senior Notes B, 7.50% fixed-rate, due February 2011	450,000	450,000
Senior Notes C, 6.375% fixed-rate, due February 2013	350,000	350,000
Senior Notes D, 6.875% fixed-rate, due March 2033	500,000	500,000
Senior Notes E, 4.00% fixed-rate, due October 2007 (1)	500,000	500,000
Senior Notes F, 4.625% fixed-rate, due October 2009	500,000	500,000
Senior Notes G, 5.60% fixed-rate, due October 2014	650,000	650,000
Senior Notes H, 6.65% fixed-rate, due October 2034	350,000	350,000
Senior Notes I, 5.00% fixed-rate, due March 2015	250,000	250,000
Senior Notes J, 5.75% fixed-rate, due March 2035	250,000	250,000
Senior Notes K, 4.950% fixed-rate, due June 2010	500,000	500,000
Duncan Energy Partners' debt obligation:		
\$300 Million Revolving Credit Facility, variable rate, due February 2011	169,000	—
Dixie Revolving Credit Facility, variable rate, due June 2010	10,000	10,000
Other, 8.75% fixed-rate, due June 2010 (2)	5,068	5,068
Total principal amount of senior debt obligations	5,082,068	4,934,068
Operating Partnership Junior Subordinated Notes A, due August 2066	550,000	550,000
Total principal amount of senior and junior debt obligations	5,632,068	5,484,068
Other, including unamortized discounts and premiums and changes in fair value (3)	(29,383)	(33,478)
Long-term debt	\$5,602,685	\$5,450,590
Standby letters of credit outstanding	\$ 36,758	\$ 49,858

(1) In accordance with Statement of Financial Accounting Standards ("SFAS") 6, "Classification of Short-Term Obligations Expected to be Refinanced," long-term and current maturities of debt reflects the classification of such obligations at March 31, 2007 and December 31, 2006. With respect to Senior Notes E due in October 2007, the Operating Partnership has the ability to use available credit capacity under its Multi-Year Revolving Credit Facility to fund the repayment of this debt.

(2) Represents remaining debt obligations assumed in connection with the GulfTerra Merger.

(3) The March 31, 2007 amount includes \$25.0 million related to fair value hedges and a net \$4.4 million in unamortized discounts and premiums. The December 31, 2006 amount includes \$29.1 million related to fair value hedges and a net \$4.4 million in unamortized discounts and premiums.

The parent company consolidates the debt of Enterprise Products Partners and Duncan Energy Partners with that of its own; however, the parent company does not have the obligation to make interest or debt payments with respect to the debt of Enterprise Products Partners or Duncan Energy Partners.

Duncan Energy Partners' debt obligation. Duncan Energy Partners entered into a \$300.0 million revolving credit facility, all of which may be used for letters of credit, with a \$30.0 million sublimit for Swingline loans. Letters of credit outstanding under this facility reduce the amount available for borrowings. At the closing of its initial public offering, Duncan Energy Partners made its initial borrowing of \$200.0 million under the facility to fund the \$198.9 million cash distribution to the Operating Partnership and the remainder to pay debt issuance costs. This credit facility matures in February 2011 and will be used by Duncan Energy Partners in the future to fund working capital and other capital requirements and for general partnership purposes. For additional information regarding the debt obligation of Duncan Energy Partners, see Note 9 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Item 1 of this quarterly report.

[Table of Contents](#)

Debt obligations of unconsolidated affiliates. The following table summarizes the debt obligations of our unconsolidated affiliates (on a 100% basis to the joint venture) at March 31, 2007 and our ownership interest in each entity on that date (dollars in thousands):

	Our Ownership Interest	Total
Cameron Highway	50.0%	\$415,000
Poseidon	36.0%	91,000
Evangeline	49.5%	25,650
Total		<u>\$531,650</u>

Cameron Highway's debt consists of \$365.0 million of Series A notes and \$50.0 million of Series B notes. Cameron Highway intends to repay its Series A notes in May 2007 using proceeds from capital contributions from its partners. The total amount of the repayment is estimated to be \$381.3 million, which includes a \$13.1 million make-whole premium and \$3.2 million of accrued interest. Enterprise Products Partners intends to fund its share of the capital contribution using borrowings under its Operating Partnership's Multi-Year Revolving Credit Facility.

Cash Flows from Operating, Investing and Financing Activities

The following table summarizes our net cash flows from operating, investing and financing activities for the periods indicated (dollars in thousands). For information regarding the individual components of our cash flow amounts, see the Unaudited Condensed Statements of Consolidated Cash Flows included under Item 1 of this quarterly report.

	For the Three Months Ended March 31,	
	2007	2006
Net cash flows provided by operating activities	\$417,688	\$ 492,327
Net cash used in investing activities	614,921	348,645
Net cash provided by (used in) financing activities	234,380	(149,391)

Net cash flows provided by operating activities is largely dependent on earnings from our business activities. As a result, these cash flows are exposed to certain risks. We operate predominantly in the midstream energy industry. We provide services for producers and consumers of natural gas, NGLs and crude oil. The products that we process, sell or transport are principally used as fuel for residential, agricultural and commercial heating; feedstocks in petrochemical manufacturing; and in the production of motor gasoline. Reduced demand for our services or products by industrial customers, whether because of general economic conditions, reduced demand for the end products made with our products or increased competition from other service providers or producers due to pricing differences or other reasons could have a negative impact on our earnings and thus the availability of cash from operating activities.

Cash used in investing activities primarily represents expenditures for capital projects, business combinations, asset purchases and investments in unconsolidated affiliates. Cash provided by (or used in) financing activities generally consists of borrowings and repayments of debt, distributions to partners and proceeds from the issuance of equity securities. Amounts presented in our Unaudited Condensed Statements of Consolidated Cash Flows for borrowings and repayments under debt agreements are influenced by the magnitude of cash receipts and payments under our revolving credit facilities.

Table of Contents

The following information highlights the significant quarter-to-quarter variances in our cash flow amounts:

Comparison of Three Months Ended March 31, 2007 with Three Months Ended March 31, 2006

Operating activities. Net cash flows provided by operating activities for the three months ended March 31, 2007 decreased \$74.6 million from that recorded for the three months ended March 31, 2006. The following information highlights significant factors that influenced the quarter-to-quarter change in net cash flows provided by operating activities:

- Cash flows from operating activities are influenced by the timing of cash receipts and disbursements. Our accounts receivable and accounts payable liquidity metrics for the three months ended March 31, 2007 continue to evidence the strength of our underlying cash flows and approximate our liquidity metrics for the year ended December 31, 2006. However, metrics for the first quarter of 2007 were slightly weaker than those of the first quarter of 2006, which were influenced by the timing of cash receipts and payments following the initial stages of the GulfTerra Merger. Specifically, as to cash receipts, the average collection period for accounts receivable for the three months ended March 31, 2007 was four days slower when compared to the same period in 2006, with the related turnover rate decreasing 12% quarter-to-quarter. In addition, as to cash disbursements, our payable turnover rate decreased 17% quarter-to-quarter. These timing-related factors contributed to an approximate \$60.4 million decrease in net cash receipts quarter-to-quarter.
- Gross operating margin for the three months ended March 31, 2007 increased \$12.0 million over that recorded for the three months ended March 31, 2006. The increase in gross operating margin is discussed under “Results of Operations” within this Item 2.
- Net cash disbursements for interest and other expense items increased \$17.1 million quarter-to-quarter. On a weighted-average basis, average debt outstanding increased approximately \$0.7 billion quarter-over-quarter primarily due to our capital spending program.
- Cash distributions from unconsolidated affiliates increased \$8.7 million quarter-to-quarter primarily due to higher distributions paid by Deepwater Gateway and Poseidon. In general, distributions from our offshore projects were negatively affected during the first quarter of 2006 due to the lingering effects of Hurricanes Katrina and Rita on production volumes.

Investing activities. Net cash used in investing activities was \$614.9 million for the three months ended March 31, 2007 compared to \$348.6 million for the three months ended March 31, 2006. The \$266.3 million increase in cash payments is primarily due to a \$297.2 million increase in capital expenditures quarter-to-quarter. For additional information regarding our capital spending program, see “Overview of Business — Capital Spending” within this Item 2.

Financing activities. Net cash provided by financing activities was \$234.4 million for the three months ended March 31, 2007 compared to net cash used in financing activities of \$149.4 million for the same period during 2006. The following information highlights significant factors that influenced the quarter-to-quarter change in net cash provided by (or used in) financing activities:

- Net borrowings under our consolidated debt agreements were \$148 million during the first quarter of 2007. Enterprise Products Partners made net repayments of \$410 million under its consolidated debt agreements during the first quarter of 2006 primarily due to the application of \$430 million in net proceeds from its March 2006 equity offering to temporarily reduce amounts outstanding under the Multi-Year Revolving Credit Facility. Our borrowing amounts during both quarterly periods were significantly influenced by our capital spending program.

Table of Contents

- Contributions from minority interest holders were \$316.5 million during the first quarter of 2007 compared to \$443.5 million during the first quarter of 2006. The first quarter of 2007 includes \$291.9 million of proceeds from Duncan Energy Partners' initial public offering. Contributions from minority interest holders primarily represent net cash proceeds received by Enterprise Products Partners and/or Duncan Energy Partners in connection with their respective equity offerings (other than cash receipts indirectly contributed by the parent company) and cash contributions from joint venture partners. Enterprise Products Partners issued 18,818,190 common units to minority interest holders in the first quarter of 2006.
- Cash distributions to partners increased \$6.2 million quarter-to-quarter due to an increase in our quarterly cash distribution rates. Also, cash distributions paid to minority interests increased \$31.9 million quarter-to-quarter primarily due to an increase in the number of common units outstanding and the quarterly cash distribution rates of Enterprise Products Partners.

Critical Accounting Policies

In our financial reporting process, we employ methods, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of our financial statements. These methods, estimates and assumptions also affect the reported amounts of revenues and expenses during the reporting period. Investors should be aware that actual results could differ from these estimates if the underlying assumptions prove to be incorrect.

In general, there have been no significant changes in our critical accounting policies since December 31, 2006. For a detailed discussion of these policies, please read "Management's Discussion and Analysis of Financial Condition and Results of Operations — Critical Accounting Policies" in our annual report on Form 10-K for the year ended December 31, 2006. The following describes the estimation risk underlying our most significant financial statement items:

Depreciation methods and estimated useful lives of property, plant and equipment

In general, depreciation is the systematic and rational allocation of an asset's cost, less its residual value (if any), to the periods it benefits. The majority of our property, plant and equipment is depreciated using the straight-line method, which results in depreciation expense being incurred evenly over the life of the assets. Our estimate of depreciation incorporates assumptions regarding the useful economic lives and residual values of our assets. At the time we place our assets in service, we believe such assumptions are reasonable; however, circumstances may develop that would cause us to change these assumptions, which would change our depreciation amounts prospectively.

At March 31, 2007 and December 31, 2006, the net book value of our property, plant and equipment was \$10.2 billion and \$9.8 billion, respectively. For additional information regarding our property, plant and equipment, see Note 6 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Item 1 of this quarterly report.

Measuring recoverability of long-lived assets and equity method investments

In general, long-lived assets (including intangible assets with finite useful lives and property, plant and equipment) are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amount may not be recoverable.

Equity method investments are evaluated for impairment whenever events or changes in circumstances indicate that there is a possible loss in value for the investment other than a temporary decline. The carrying value of an equity method investment is not recoverable if it exceeds the sum of discounted estimated cash flows expected to be derived from the investment. This estimate of discounted cash flows is based on a number of assumptions including discount rates; probabilities assigned to different cash flow scenarios; anticipated margins and volumes and estimated useful life of the investment. A significant change in these underlying assumptions could result in our recording an impairment charge.

Amortization methods and estimated useful lives of qualifying intangible assets

In general, our intangible asset portfolio consists primarily of the estimated values assigned to certain customer relationships and customer contracts. We amortize the customer relationship values using methods that closely resemble the pattern in which the economic benefits of the underlying oil and natural gas resource bases from which the customers produce are estimated to be consumed or otherwise used. We amortize the customer contract intangible assets over the estimated remaining economic life of the underlying contract. A change in the estimates we use to determine amortization rates of our intangible assets (e.g., oil and natural gas production curves, remaining economic life of the contracts, etc.) could result in a material change in the amortization expense we record and the carrying value of our intangible assets.

At March 31, 2007 and December 31, 2006, the carrying value of our intangible asset portfolio was \$981.0 million and \$1.0 billion, respectively. For additional information regarding our intangible assets, see Note 8 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Item 1 of this quarterly report.

Methods we employ to measure the fair value of goodwill

Goodwill represents the excess of the purchase prices we paid for certain businesses over their respective fair values and is primarily comprised of \$385.9 million associated with the GulfTerra Merger. We do not amortize goodwill; however, we test our goodwill (at the reporting unit level) for impairment during the second quarter of each fiscal year, and more frequently, if circumstances indicate it is more likely than not that the fair value of goodwill is below its carrying amount. Our goodwill testing involves the determination of a reporting unit's fair value, which is predicated on our assumptions regarding the future economic prospects of the reporting unit. Our estimates of such prospects (i.e., cash flows) are based on a number of assumptions including anticipated margins and volumes of the underlying assets or asset group. A significant change in these underlying assumptions could result in our recording an impairment charge.

At March 31, 2007 and December 31, 2006, the carrying value of our goodwill was \$590.6 million and \$590.5 million, respectively. For additional information regarding our goodwill, see Note 8 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Item 1 of this quarterly report.

Our revenue recognition policies and use of estimates for revenues and expenses

Our use of certain estimates for revenues and expenses has increased as a result of SEC regulations that require us to submit financial information on accelerated time frames. Such estimates are necessary due to the timing of compiling actual billing information and receiving third-party data needed to record transactions for financial reporting purposes. If the basis of our estimates proves to be substantially incorrect, it could result in material adjustments in results of operations between periods.

Reserves for environmental matters

Each of our business segments is subject to federal, state and local laws and regulations governing environmental quality and pollution control. Such laws and regulations may, in certain instances, require us to remediate current or former operating sites where specified substances have been released or disposed of. We accrue reserves for environmental matters when our assessments indicate that it is probable that a liability has been incurred and an amount can be reasonably estimated. Our assessments are based on studies, as well as site surveys, to determine the extent of any environmental damage and the necessary requirements to remediate this damage. Future environmental developments, such as increasingly strict environmental laws and additional claims for damages to property, employees and other persons resulting from current or past operations, could result in substantial additional costs beyond our current reserves.

Table of Contents

In February 2007, we reserved \$6.5 million in cash received from a third party to fund anticipated future environmental remediation costs associated with certain assets that we had acquired from the third party. Previously, the third party had been obligated to indemnify us for such costs. As a result of the settlement, this indemnification was terminated.

At March 31, 2007 and December 31, 2006, our accrued liabilities for environmental remediation projects totaled \$30.2 million and \$24.2 million, respectively. These amounts were derived from a range of reasonable estimates based upon studies and site surveys. We follow the provisions of AICPA Statement of Position 96-1, which provides key guidance on recognition, measurement and disclosure of remediation liabilities. We have recorded our best estimate of the cost of remediation activities.

Natural gas imbalances

In the pipeline transportation business, natural gas imbalances frequently result from differences in gas volumes received from and delivered to our customers. Such differences occur when a customer delivers more or less gas into our pipelines than is physically redelivered back to them during a particular time period. The vast majority of our settlements are through in-kind arrangements whereby incremental volumes are delivered to a customer (in the case of an imbalance payable) or received from a customer (in the case of an imbalance receivable). Such in-kind deliveries are on-going and take place over several months. In some cases, settlements of imbalances built up over a period of time are ultimately cashed out and are generally negotiated at values which approximate average market prices over a period of time. As a result, for gas imbalances that are ultimately settled over future periods, we estimate the value of such current assets and liabilities using average market prices, which is representative of the estimated value of the imbalances upon final settlement. Changes in natural gas prices may impact our estimates.

At March 31, 2007 and December 31, 2006, our imbalance receivables, net of allowance for doubtful accounts were \$77.3 million and \$97.8 million, respectively, and are reflected as a component of "Accounts and notes receivable — trade" on our Unaudited Condensed Consolidated Balance Sheets. At March 31, 2007 and December 31, 2006, our imbalance payables were \$51.7 million and \$51.2 million, respectively, and are reflected as a component of "Accrued gas payables" on our Unaudited Condensed Consolidated Balance Sheets.

Other Items

Initial Public Offering of Duncan Energy Partners

In September 2006, Enterprise Products Partners formed a consolidated subsidiary, Duncan Energy Partners, to acquire, own and operate a diversified portfolio of midstream energy assets. On February 5, 2007, Duncan Energy Partners completed its initial public offering of 14,950,000 common units (including an overallotment amount of 1,950,000 common units) at \$21.00 per unit, which generated net proceeds to Duncan Energy Partners of \$291.9 million. As consideration for assets contributed and reimbursement for capital expenditures related to these assets, Duncan Energy Partners distributed \$260.6 million of these net proceeds to the Operating Partnership along with \$198.9 million in borrowings under its credit facility and a final amount of 5,351,571 common units of Duncan Energy Partners. The Operating Partnership used the cash it received from Duncan Energy Partners to temporarily reduce amounts outstanding under its Multi-Year Revolving Credit Facility.

Enterprise Products Partners contributed 66% of its equity interests in the following subsidiaries to Duncan Energy Partners:

- Mont Belvieu Caverns, LLC ("Mont Belvieu Caverns"), a recently formed subsidiary, which owns salt dome storage caverns located in Mont Belvieu, Texas that receive, store and deliver NGLs and certain petrochemical products for industrial customers located along the upper Texas Gulf Coast, which has the largest concentration of petrochemical plants and refineries in the United States;

Table of Contents

- Acadian Gas, LLC (“Acadian Gas”), which owns an onshore natural gas pipeline system that gathers, transports, stores and markets natural gas in Louisiana. The Acadian Gas system links natural gas supplies from onshore and offshore Gulf of Mexico developments (including offshore pipelines, continental shelf and deepwater production) with local gas distribution companies, electric generation plants and industrial customers, including those in the Baton Rouge-New Orleans-Mississippi River corridor. A subsidiary of Acadian Gas owns a 49.5% equity interest in Evangeline Gas Pipeline, L.P. (“Evangeline”);
- Sabine Propylene Pipeline L.P. (“Sabine Propylene”), which transports polymer-grade propylene between Port Arthur, Texas and a pipeline interconnect located in Cameron Parish, Louisiana;
- Enterprise Lou-Tex Propylene Pipeline L.P. (“Lou-Tex Propylene”), which transports chemical-grade propylene from Sorrento, Louisiana to Mont Belvieu, Texas; and
- South Texas NGL Pipelines, LLC (“South Texas NGL”), a recently formed subsidiary, which began transporting NGLs from Corpus Christi, Texas to Mont Belvieu, Texas in January 2007. South Texas NGL owns the DEP South Texas NGL Pipeline System.

In addition, to the 34% ownership interest Enterprise Products Partners retained in such entities, it also owns the 2% general partner interest in Duncan Energy Partners and 26.4% of Duncan Energy Partners’ outstanding common units. The Operating Partnership directs the business operations of Duncan Energy Partners through its ownership and control of the general partner of Duncan Energy Partners.

For financial reporting purposes, Enterprise Products Partners consolidates the financial statements of Duncan Energy Partners with those of its own and reflect Duncan Energy Partners’ operations in its business segments. In turn, we consolidate the financial statements of Enterprise Products Partners with those of our own. All intercompany transactions between Enterprise Products Partners and Duncan Energy Partners are eliminated in the preparation of such consolidated financial statements. Public ownership of Duncan Energy Partners’ net assets and earnings are presented as a component of minority interest in our consolidated financial statements.

The borrowings of Duncan Energy Partners are presented as part of our consolidated debt; however, neither we nor Enterprise Products Partners have any obligation for the payment of interest or repayment of borrowings incurred by Duncan Energy Partners.

Enterprise Products Partners has significant continuing involvement with all of the subsidiaries of Duncan Energy Partners, including the following types of transactions:

- It utilizes storage services provided by Mont Belvieu Caverns to support its Mont Belvieu fractionation and other businesses;
- It buys natural gas from and sells natural gas to Acadian Gas in connection with its normal business activities; and
- It is currently the sole shipper on the DEP South Texas NGL Pipeline System.

We may contribute other equity interests in our subsidiaries to Duncan Energy Partners and use the proceeds we receive from Duncan Energy Partners to fund our capital spending program. We have no obligation or commitment to make such contributions to Duncan Energy Partners.

Contractual Obligations

With the exception of the debt incurred by Duncan Energy Partners in connection with its initial public offering, there have been no significant changes in our schedule of maturities of long-term debt since those reported in our annual report on Form 10-K for the year ended December 31, 2006. See Note 9 of the

[Table of Contents](#)

Notes to the Unaudited Condensed Consolidated Financial Statements included under Item 1 of this quarterly report for additional information regarding the debt obligation of Duncan Energy Partners.

Off-Balance Sheet Arrangements

In May 2007, the Operating Partnership intends to make an approximate \$191.0 million cash contribution to Cameron Highway. This capital contribution, along with an equal amount contributed by our joint venture partner in Cameron Highway, will be used by Cameron Highway to repay \$365.0 million outstanding under its Series A notes and \$16.3 million of related make-whole premiums and accrued interest.

Apart from the planned repayment of Cameron Highway's Series A notes, there have been no significant changes with regards to our off-balance sheet arrangements since those reported in our annual report on Form 10-K for the year ended December 31, 2006.

Summary of Related Party Transactions

The following table summarizes our related party transactions for the periods indicated (dollars in thousands).

	For the Three Months Ended March 31,	
	2007	2006
Revenues from consolidated operations:		
EPCO and affiliates	\$ 8,542	\$ 5,632
Unconsolidated affiliates	55,700	84,443
Total	<u>\$ 64,242</u>	<u>\$ 90,075</u>
Operating costs and expenses:		
EPCO and affiliates	\$ 78,673	\$ 94,957
Unconsolidated affiliates	5,273	6,686
Total	<u>\$ 83,946</u>	<u>\$101,643</u>
General and administrative costs:		
EPCO and affiliates	\$ 13,113	\$ 11,198

For additional information regarding our related party transactions, see Note 12 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Item 1 of this quarterly report.

We have an extensive and ongoing relationship with EPCO and its affiliates, including TEPPCO. Our revenues from EPCO and affiliates are primarily associated with sales of NGL products. Our expenses with EPCO and affiliates are primarily due to (i) reimbursements we pay EPCO in connection with an administrative services agreement and (ii) purchases of NGL products. TEPPCO is an affiliate of ours due to the common control relationship of both entities.

Many of our unconsolidated affiliates perform supporting or complementary roles to our consolidated business operations. The majority of our revenues from unconsolidated affiliates relate to natural gas sales to a Louisiana affiliate. The majority of our expenses with unconsolidated affiliates pertain to payments we make to K/D/S Promix, L.L.C. for NGL transportation, storage and fractionation services.

On February 5, 2007, Enterprise Products Partners' consolidated subsidiary, Duncan Energy Partners, completed its underwritten initial public offering of its common units. Duncan Energy Partners was formed in September 2006 as a Delaware limited partnership to, among other things, acquire ownership interests in certain of Enterprise Products Partners' midstream energy businesses. For additional information regarding Duncan Energy Partners, see "Other Items — Initial Public Offering of Duncan Energy Partners" within this section.

[Table of Contents](#)

Non-GAAP reconciliations

A reconciliation of our measurement of total non-GAAP gross operating margin to GAAP operating income and income before provision for income taxes, minority interest and the cumulative effect of change in accounting principle follows (dollars in thousands):

	For the Three Months Ended March 31,	
	2007	2006
Total non-GAAP segment gross operating margin	\$ 324,499	\$ 312,523
Adjustments to reconcile total non-GAAP gross operating margin to GAAP operating income:		
Depreciation, amortization and accretion in operating costs and expenses	(119,492)	(104,816)
Retained lease expense, net in operating costs and expenses	(526)	(528)
Gain on sale of assets in operating costs and expenses	73	61
General and administrative costs	(17,614)	(14,561)
GAAP consolidated operating income	186,940	192,679
Other net expense, primarily interest expense	(63,964)	(58,160)
GAAP income before provision for income taxes, minority interest and the cumulative effect of change in accounting principle	\$ 122,976	\$ 134,519

EPCO subleases to us certain equipment located at our Mont Belvieu facility and 100 railcars for \$1 per year (the "retained leases"). These subleases are part of the administrative services agreement that Enterprise Products Partners executed with EPCO in connection with its formation in 1998. EPCO holds this equipment pursuant to operating leases for which it has retained the corresponding cash lease payment obligation. We record the full value of such lease payments made by EPCO as a non-cash related party operating expense, with the offset to partners' equity recorded as a general contribution to our partnership. Apart from the partnership interests we granted to EPCO at our formation, EPCO does not receive any additional ownership rights as a result of its contribution to us of the retained leases.

Cumulative effect of change in accounting principle

In January 2006, we adopted the provisions of Statement of Financial Accounting Standards ("SFAS") 123(R), "Share-Based Payment." Upon adoption of this accounting standard, we recognized, as a benefit, a cumulative effect of change in accounting principle of \$1.5 million, of which \$1.4 million is included as a component of minority interest expense since the limited partners of Enterprise Products Partners (other than the parent company) were allocated their share of this benefit.

Recent Accounting Pronouncements

The accounting standard setting bodies and the SEC have recently issued the following accounting guidance that will or may affect our financial statements:

- SFAS 157, "Fair Value Measurements," and
- SFAS 159, "Fair Value Option for Financial Assets and Financial Liabilities — Including an amendment of FASB Statement No. 115."

For additional information regarding these recent accounting developments and others that may affect our future financial statements, see Note 2 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Item 1 of this quarterly report.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We are exposed to financial market risks, including changes in commodity prices and interest rates. In addition, we are exposed to fluctuations in exchange rates between the U.S. dollar and Canadian dollar with respect to a recently acquired NGL marketing business located in Canada. We may use financial instruments (i.e., futures, forwards, swaps, options and other financial instruments with similar characteristics) to mitigate the risks of certain identifiable and anticipated transactions. In general, the type of risks we attempt to hedge are those related to (i) the variability of future earnings, (ii) fair values of certain debt instruments and (iii) cash flows resulting from changes in applicable interest rates, commodity prices or exchange rates. As a matter of policy, we do not use financial instruments for speculative (or “trading”) purposes.

Interest Rate Risk Hedging Program

Our interest rate exposure results from variable and fixed rate borrowings under various debt agreements. We manage a portion of our interest rate exposures by utilizing interest rate swaps and similar arrangements, which allow us to convert a portion of fixed rate debt into variable rate debt or a portion of variable rate debt into fixed rate debt.

Fair value hedges — Interest rate swaps

As summarized in the following table, we had eleven interest rate swap agreements outstanding at March 31, 2007 that were accounted for as fair value hedges.

Hedged Fixed Rate Debt	Number Of Swaps	Period Covered by Swap	Termination Date of Swap	Fixed to Variable Rate (1)	Notional Amount
Senior Notes B, 7.50% fixed rate, due Feb. 2011	1	Jan. 2004 to Feb. 2011	Feb. 2011	7.50% to 8.74%	\$50 million
Senior Notes C, 6.375% fixed rate, due Feb. 2013	2	Jan. 2004 to Feb. 2013	Feb. 2013	6.38% to 7.28%	\$200 million
Senior Notes G, 5.6% fixed rate, due Oct. 2014	6	4th Qtr. 2004 to Oct. 2014	Oct. 2014	5.60% to 6.33%	\$600 million
Senior Notes K, 4.95% fixed rate, due June 2010	2	Aug. 2005 to June 2010	June 2010	4.95% to 5.76%	\$200 million

(1) The variable rate indicated is the all-in variable rate for the current settlement period.

The total fair value of these eleven interest rate swaps at March 31, 2007 and December 31, 2006, was a liability of \$25.0 million and \$29.1 million, respectively, with an offsetting decrease in the fair value of the underlying debt. Interest expense for the three months ended March 31, 2007 and 2006 includes a \$2.3 million loss and \$0.2 million benefit from these swap agreements, respectively.

The following table shows the effect of hypothetical price movements on the estimated fair value of our interest rate swap portfolio and the related change in fair value of the underlying debt at the dates indicated (dollars in thousands). Income is not affected by changes in the fair value of these swaps; however, these swaps effectively convert the hedged portion of fixed-rate debt to variable-rate debt. As a result, interest expense (and related cash outlays for debt service) will increase or decrease with the change in the periodic “reset” rate associated with the respective swap. Typically, the reset rate is an agreed upon index rate published for the first day of the six-month interest calculation period.

Scenario	Resulting Classification	Swap Fair Value at	
		March 31, 2007	April 25, 2007
	<i>Asset</i>		
FV assuming no change in underlying interest rates	<i>(Liability)</i>	\$ (24,991)	\$ (25,202)
FV assuming 10% increase in underlying interest rates	<i>Asset (Liability)</i>	(51,622)	(52,036)
FV assuming 10% decrease in underlying interest rates	<i>Asset (Liability)</i>	1,640	1,631

Cash flow hedges — Treasury locks

During the fourth quarter of 2006, the Operating Partnership entered into treasury lock transactions having a notional value of \$562.5 million. The Operating Partnership entered into these transactions to hedge the underlying U.S. treasury rates related to its anticipated issuances of debt during 2007. On February 27, 2007, the Operating Partnership entered into additional treasury lock transactions

[Table of Contents](#)

having a notional value of \$437.5 million. The Operating Partnership entered into these transactions to hedge the underlying U.S. treasury rates related to its anticipated issuances of debt during 2007.

Each of the treasury lock transactions was designated as a cash flow hedge under SFAS 133. At March 31, 2007, the value of the treasury locks was \$21.7 million.

Commodity Risk Hedging Program

The prices of natural gas, NGLs and certain petrochemical products are subject to fluctuations in response to changes in supply, market uncertainty and a variety of additional factors that are beyond our control. In order to manage the price risks associated with such products, we may enter into commodity financial instruments.

The primary purpose of our commodity risk management activities is to hedge our exposure to price risks associated with (i) natural gas purchases, (ii) the value of NGL production and inventories, (iii) related firm commitments, (iv) fluctuations in transportation revenues where the underlying fees are based on natural gas index prices and (v) certain anticipated transactions involving either natural gas, NGLs or certain petrochemical products. From time to time, we inject natural gas into storage and utilize hedging instruments to lock in the value of our inventory positions. The commodity financial instruments we utilize may be settled in cash or with another financial instrument.

At March 31, 2007 and December 31, 2006, we had a limited number of commodity financial instruments in our portfolio, which primarily consisted of cash flow hedges. The fair value of our commodity financial instrument portfolio at March 31, 2007 and December 31, 2006 was an asset of \$0.2 million and a liability of \$3.2 million, respectively. During the three months ended March 31, 2007, we recorded \$2.6 million of expense related to our commodity financial instruments. We recorded nominal amounts of earnings from our commodity financial instruments during the three months ended March 31, 2006.

We assess the risk of our commodity financial instrument portfolio using a sensitivity analysis model. The sensitivity analysis applied to this portfolio measures the potential income or loss (i.e., the change in fair value of the portfolio) based upon a hypothetical 10% movement in the underlying quoted market prices of the commodity financial instruments outstanding at the date indicated within the following table. The following table shows the effect of hypothetical price movements on the estimated fair value ("FV") of this portfolio at the dates presented (dollars in thousands):

Scenario	Resulting Classification	Commodity Financial Instrument Portfolio FV	
		March 31, 2007	April 30, 2007
	<i>Asset</i>		
FV assuming no change in underlying commodity prices	<i>(Liability)</i>	\$ 241	\$ (109)
FV assuming 10% increase in underlying commodity prices	<i>Asset (Liability)</i>	171	(1,912)
FV assuming 10% decrease in underlying commodity prices	<i>Asset (Liability)</i>	311	1,693

Foreign Currency Hedging Program

In October 2006, we acquired all of the outstanding stock of an affiliated NGL marketing company located in Canada from EPCO and Dan L. Duncan. Since this foreign subsidiary's functional currency is the Canadian dollar, we could be adversely affected by fluctuations in foreign currency exchange rates. We attempt to hedge this risk using foreign exchange purchase contracts to fix the exchange rate. Due to the limited duration of these contracts, we utilize mark-to-market accounting for these transactions, the effect of which has had a minimal impact on our earnings. At March 31, 2007, we had \$1.3 million of such contracts outstanding that settled in April 2007. A 10% increase or decrease in the underlying exchange rate would have a nominal effect on our earnings.

Item 4. Controls and Procedures.

Our management, with the participation of the chief executive officer (“CEO”) and chief financial officer (“CFO”) of EPE Holdings, has evaluated the effectiveness of our disclosure controls and procedures, including internal controls over financial reporting, as of the end of the period covered by this report. Based on their evaluation, the CEO and CFO of EPE Holdings have concluded that our disclosure controls and procedures are effective to ensure that material information relating to our partnership is made known to management on a timely basis. Our CEO and CFO noted no material weaknesses in the design or operation of our internal controls over financial reporting that are likely to adversely affect our ability to record, process, summarize and report financial information. Also, they detected no fraud involving management or employees who have a significant role in our internal controls over financial reporting.

There have been no changes in our internal controls over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) that have not been evaluated by management and no other factors that occurred during our last fiscal quarter that have materially affected or are reasonably likely to materially affect our internal controls over financial reporting.

Collectively, these disclosure controls and procedures are designed to provide us with reasonable assurance that the information required to be disclosed in our periodic reports filed with the SEC is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and (ii) accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosures. Our management does not expect that our disclosure controls and procedures will prevent all errors and all fraud. Based on the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

The certifications of our general partner’s CEO and CFO required under Sections 302 and 906 of the Sarbanes-Oxley Act of 2002 have been included as exhibits to this quarterly report on Form 10-Q.

PART II. OTHER INFORMATION.

Item 1. Legal Proceedings.

See Part I, Item 1, Financial Statements, Note 14, “Commitments and Contingencies — Litigation,” of the Notes to Unaudited Condensed Consolidated Financial Statements included under Item 1 of this quarterly report, which is incorporated herein by reference.

Item 1A. Risk Factors.

In general, there have been no significant changes in our risk factors since December 31, 2006. For a detailed discussion of our risk factors, please read Item 1A “Risk Factors,” in our annual report on Form 10-K for the year ended December 31, 2006.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

We did not repurchase any of our units during the three months ended March 31, 2007.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Submission of Matters to a Vote of Security Holders.

None.

CERTIFICATIONS

I, Michael A. Creel, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Enterprise GP Holdings L.P.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
