Filed by Enterprise Products Partners L.P.
Pursuant to Rule 425 under the Securities Act of 1933

Subject Company: TEPPCO Partners, L.P.
Commission File No.: 333-161185

Enterprise Products Partners L.P. is filing an investor presentation that discloses a variety of financial, operating and general information regarding the company. In addition, this material contains references to the proposed merger with TEPPCO Partners, L.P. The presentation will be posted on our website, www.epplp.com.

Breakfast Meeting
River Oaks Country Club
August 26, 2009

W. Randall Fowler
Executive Vice President & CFO

Forward Looking Statements

This presentation contains forward-looking statements and information based on Enterprise's beliefs and those of its general partner, as well as assumptions made by and information currently available to them. When used in this presentation, words such as "anticipate," "project," "expect," "plan," "goal," "forecast," "intend," "could," "believe," "may," and similar expressions and statements regarding the plans and objectives of Enterprise for future operations, are intended to identify forward-looking statements.

Although Enterprise and its general partner believe that such expectations reflected in such forward-looking statements are reasonable, neither it nor its general partner can give assurances that such expectations will prove to be correct. Such statements are subject to a variety of risks, uncertainties and assumptions. If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, actual results may vary materially from those Enterprise anticipated, estimated, projected or expected. Among the key risk factors that may have a direct bearing on Enterprise's results of operations and financial condition are:

- Fluctuations in oil, natural gas and NGL prices and production due to weather and other natural and economic forces;
- A reduction in demand for its products by the petrochemical, refining or heating industries;
- The effects of its debt level on its future financial and operating flexibility;
- A decline in the volumes of NGLs delivered by its facilities;
- The failure of its credit risk management efforts to adequately protect it against customer non-payment;
- Actual construction and development costs could exceed forecasted amounts;
- Operating cash flows from our capital projects may not be immediate;
- National, international, regional and local economic, competitive and regulatory conditions;
- Terrorist attacks aimed at its facilities; and
- The failure to successfully integrate its operations with assets or companies, if any, that it may acquire in the future.

Enterprise has no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Investor Notice

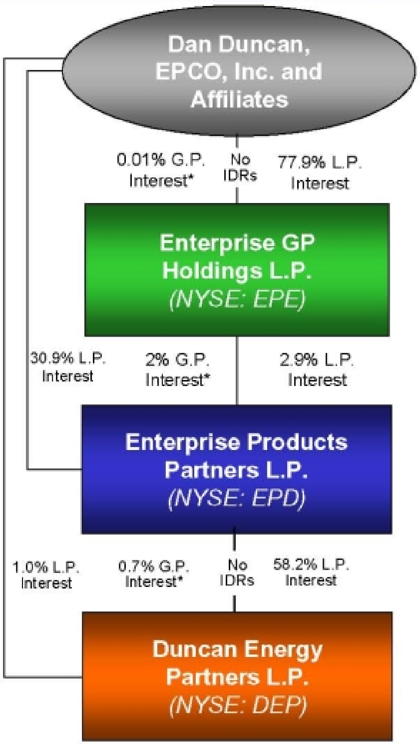
In connection with the proposed merger, Enterprise has filed a registration statement on Form S-4 (Registration No. 333-161185), which includes a preliminary prospectus of Enterprise and a preliminary proxy statement of TEPPCO and other materials, with the Securities and Exchange Commission ("SEC"). INVESTORS AND SECURITY HOLDERS ARE URGED TO CAREFULLY READ THE REGISTRATION STATEMENT FILED WITH THE SEC AND THE DEFINITIVE PROXY STATEMENT/ PROSPECTUS AND ANY OTHER MATERIALS FILED OR TO BE FILED WITH THE SEC REGARDING THE PROPOSED TRANSACTION WHEN THEY BECOME AVAILABLE, BECAUSE THEY CONTAIN, OR WILL CONTAIN, IMPORTANT INFORMATION ABOUT ENTERPRISE, TEPPCO AND THE PROPOSED MERGER. A definitive proxy statement/prospectus will be sent to security holders of TEPPCO seeking their approval of the proposed merger after the registration statement is declared effective by the SEC. Investors and security holders may obtain a free copy of the proxy statement/prospectus (when it is available) and other documents containing information about Enterprise and TEPPCO, without charge, at the SEC's website at www.sec.gov. Copies of the registration statement and the definitive proxy statement/prospectus and the SEC filings that will be incorporated by reference in the proxy statement/prospectus may also be obtained for free by directing a request to: (i) Investor Relations: Enterprise Products Partners L.P., (866) 230-0745, or (ii) Investor Relations, TEPPCO Partners, L.P., (800) 659-0059.

TEPPCO, its general partner and the directors and management of such general partner may be deemed to be "participants" in the solicitation of proxies from TEPPCO's security holders in respect of the proposed merger. INFORMATION ABOUT THESE PERSONS AND THE INTERESTS OF SUCH PERSONS IN THE SOLICITATION OF PROXIES IN RESPECT OF THE PROPOSED MERGER CAN BE FOUND IN THE PRELIMINARY PROXY STATEMENT/PROSPECTUS, TEPPCO'S 2008 ANNUAL REPORT ON FORM 10-K AND SUBSEQUENT STATEMENTS OF CHANGES IN BENEFICIAL OWNERSHIP ON FILE WITH THE SEC.

Key Investment Considerations

- Large, diversified, integrated midstream energy system providing logistical services to producers and consumers of natural gas, NGLs and crude oil
  - Approximately $23 billion enterprise value; more than $19 billion in assets; $13 billion in equity market capitalization
  - Accesses some of the most prolific natural gas, NGL and crude oil supply basins in the U.S. including non-conventional shale plays: Jonah / Pinedale, Piceance, Barnett Shale, Eagle Ford and Haynesville
  - Handles approximately 17% of U.S. natural gas consumption
  - Serves 97% of the largest petrochemical market for NGLs
- Recently announced plans to merge with TEPPCO Partners, L.P.
  - Creates largest publicly traded energy partnership with enterprise value greater than $26 billion
  - Expands and further diversifies Enterprise into refined product and onshore crude oil transportation and storage businesses
- Large footprint generates growth opportunities
  - Well positioned to benefit from the relative value, security and environmental benefits of domestic natural gas / NGL supplies relative to foreign-sourced crude oil
- Investment grade credit rating; focus on financial flexibility; demonstrated access to capital in difficult markets
- Balances cost of capital with total return to limited partners
- Significant management ownership and industry experience

Significant Management Ownership Interests Aligned with Investors

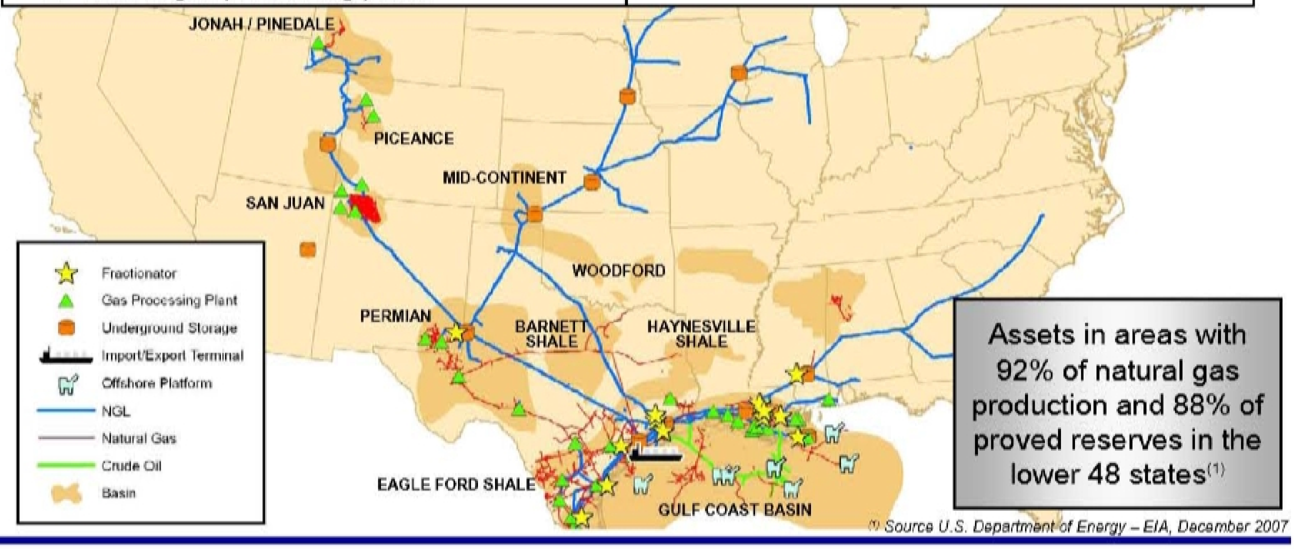


- Unique ownership structure – one of the largest ownership positions by management in the sector
- EPCO's actions have benefited EPD's debt and equity investors
  - Purchased approximately $750 million of new equity since IPO in July 1998; includes $282 million purchased in the last four quarters through DRP
  - Contributed 30% of GP to Shell in 1999 for no consideration to complete Shell Midstream acquisition
  - Along with Shell, capped GP's incentive split at 25% vs. 50% for no consideration in 2002, resulting in $459 million of cash available for distributions, debt repayment or other partnership needs
  - Contributed 50% of GulfTerra's GP to EPD in 2004 for no consideration to complete the $4 billion GulfTerra acquisition – $460 million in value
  - Exchanging 32% of EPCO's TPP units for non-distribution bearing EPD Class B units to facilitate TEPPCO merger

Note: Percent ownership as of July 31, 2009.
** The 0.7% G.P. interest in DEP, 2% G.P. interest in EPD, and the 0.01% G.P. interest in EPE represents a 100% ownership of the respective G.P.*

EPD's Premier Midstream Network
Serves Largest Producing and Consuming Regions

Asset Overview	
• Approximately 36,000 miles of natural gas, NGL, crude oil and petrochemical pipelines • 157 MMBbls of NGL and petrochemical storage capacity • 27 Bcf of natural gas storage capacity • 25 natural gas processing plants	• 13 fractionation facilities • 6 offshore hub platforms • NGL import / export terminals • Butane isomerization complex • Octane enhancement facility

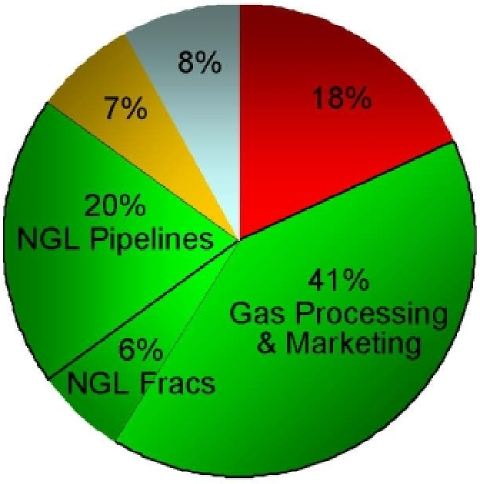


Assets in areas with 92% of natural gas production and 88% of proved reserves in the lower 48 states(1)

(1) Source U.S. Department of Energy – EIA, December 2007

Geographic and Business Diversification Provides Multiple Earnings Streams

$2.1 Billion
Gross Operating Margin
LTM Ended 06/30/09



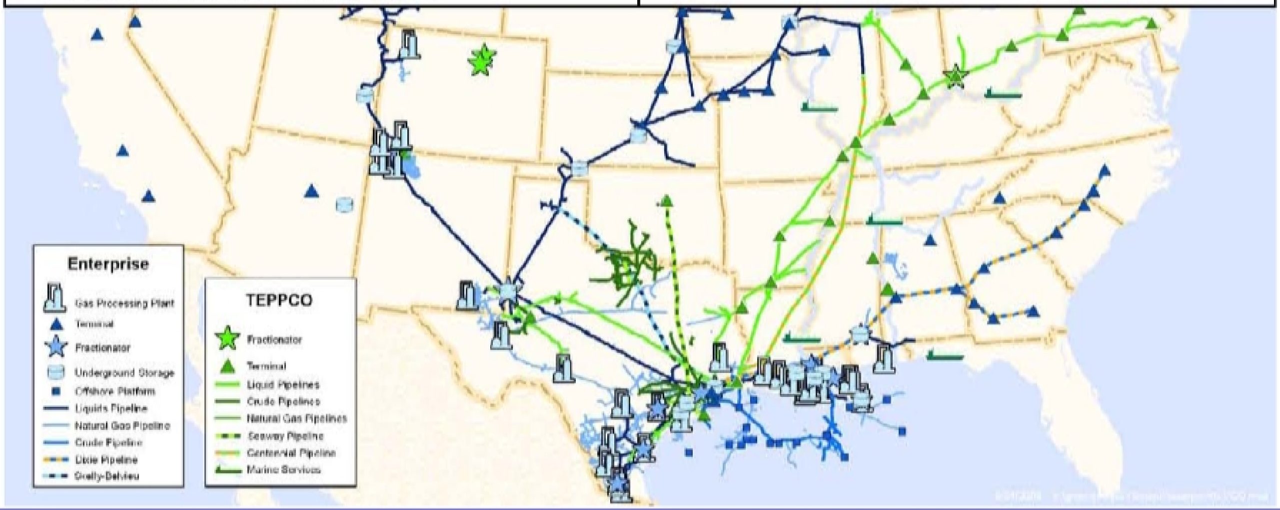
- NGL Pipelines & Services (67%)
  - Natural gas processing plants & related NGL marketing activities
  - NGL fractionation plants
  - NGL pipelines and storage
- Onshore Natural Gas Pipelines & Services (18%)
  - Natural gas pipelines
  - Natural gas storage facilities
  - Natural gas marketing
- Offshore Pipelines & Services (8%)
  - Natural gas pipelines
  - Oil pipelines
  - Platform services
- Petrochemical Services (7%)
  - Propylene fractionation facilities
  - Butane isomerization facilities
  - Octane enhancement facilities

Merger with TEPPCO Rationale

- Combination will form the largest publicly traded energy partnership with approximately 48,000 miles of pipelines
  - Retain Enterprise Products Partners L.P. name
- Provide additional sources of cash flow from a larger portfolio of fee-based assets supported by a sizable geographic footprint that will enhance our energy value chain
  - 2008 pro forma gross operating margin for combined entity increases by 27% to $2.6 billion compared to EPD standalone
  - Add refined products and onshore crude oil transportation, and storage business lines
- Provide long-term accretion for Enterprise investors
- Transaction is credit positive with 100% of the consideration funded by Enterprise equity; nominal impact on leverage
- Subject to TEPPCO unitholder approval and other customary regulatory approvals
- Special meeting of TEPPCO unitholders scheduled for October 23, 2009; merger expected to close during 4Q 2009

EPD / TPP Pro Forma System Map

Asset Overview	
• Approximately 48,000 miles of natural gas, NGL, crude oil, refined products and petrochemical pipelines • 200 MMBbls of NGL, refined products and crude oil storage capacity • 27 Bcf of natural gas storage capacity • 25 natural gas processing plants	• 17 fractionation facilities • 6 offshore hub platforms • NGL import / export terminals • Butane isomerization complex • Octane enhancement facility • Largest inland tank barge company

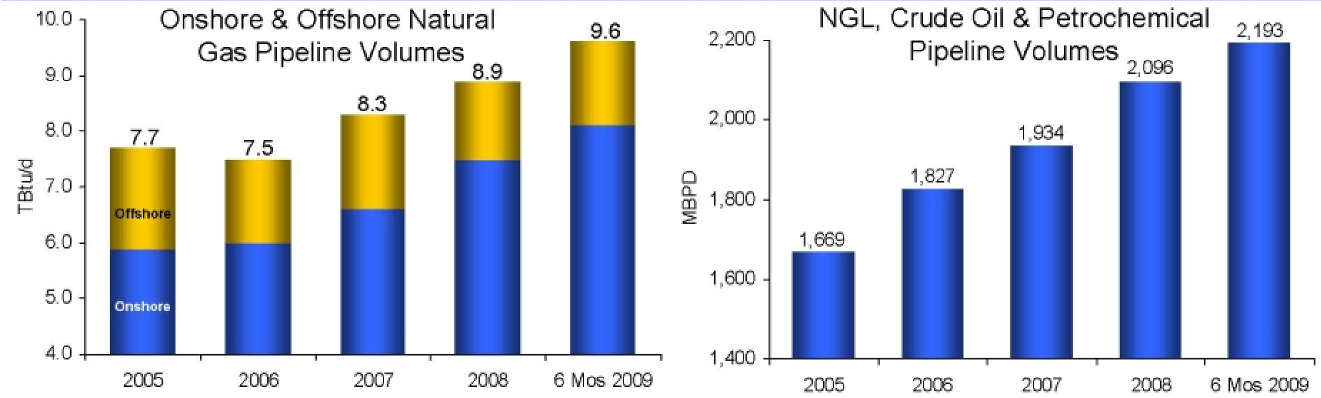


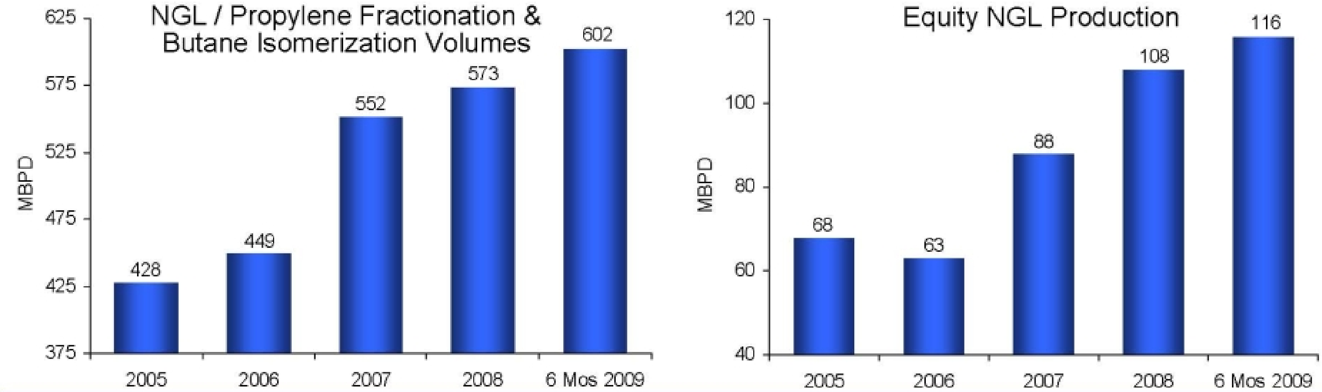
Major Growth Projects Substantially Completed…

Project Description	2008	1Q09	2Q09	3Q09	4Q09	
Pioneer Processing Plant #1	DONE					Approx. $2.6 B
DEP South Texas NGL Pipeline System – Phase 2	DONE					
CenterPoint Energy – Wilson Pipeline Connection – Phase 1	DONE					
Petal Natural Gas Storage Expansion – 1.6 Bcf of subscribed capacity	DONE					
Jonah Phase V Expansion – Part 2 (EPD – 19.36%)	DONE					
Wilson Storage Expansion – Wilson Pipeline Connection	DONE					
Petal Gas Storage Expansion (Petal #8) – 5 Bcf cavern	DONE					
RGP Pipeline from Port Arthur to Mont Belvieu	DONE					
Skellytown to Conway NGL Pipeline (MAPL)	DONE					
Exxon Conditioning & Treating Facility – Piceance Basin	DONE					
White River Natural Gas Hub – Piceance Basin	DONE					
Meeker Processing Plant #2		DONE				
Sherman Extension Natural Gas Pipeline		DONE				
Norco-Garyville Pipeline Expansion		DONE				
Shenzi Oil Pipeline			DONE			
Pinedale Gathering Pipeline expansion (EPD – 19.36%)			DONE			
Hutchinson Rail Rack & NGL Storage Expansion				√		Approx. $0.8 B
Mont Belvieu Well Utilization Program				√		
Marathon Gathering System – Piceance Basin – Phase 1				√		
Trinity River Basin Lateral (partial service 4Q 2009; fully completed 1Q 2010)					√	
Collbran Valley Pipeline					√	

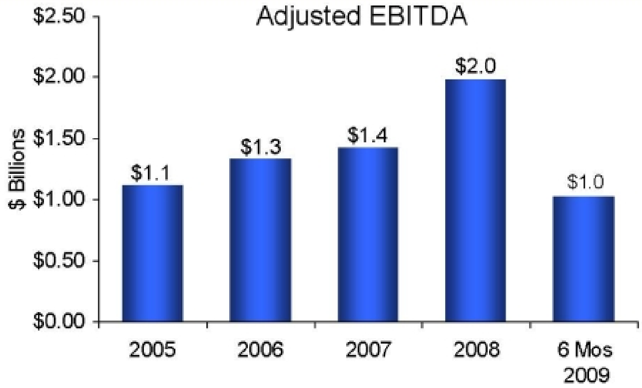
…More Under Development

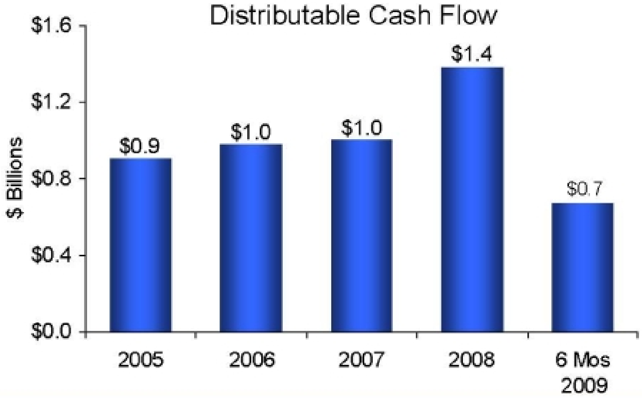
Record Operating Performance…

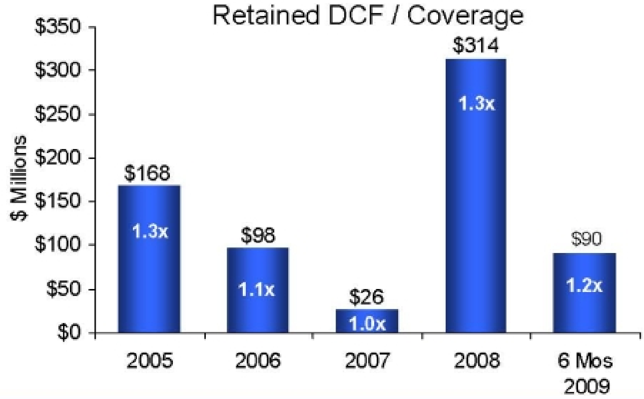




…Drives Strong Financial Results

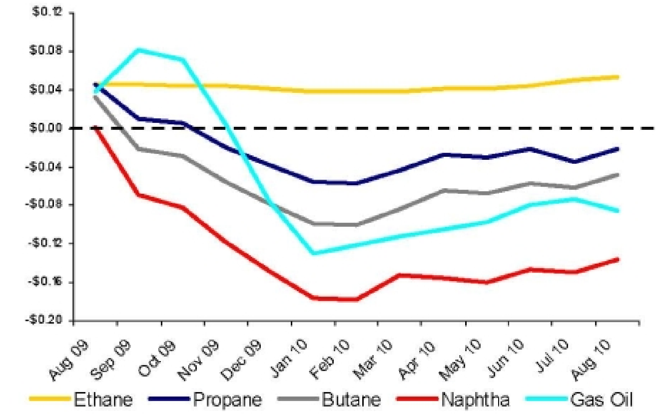






NGL Feedstock Demand by Ethylene Producers has Rebounded

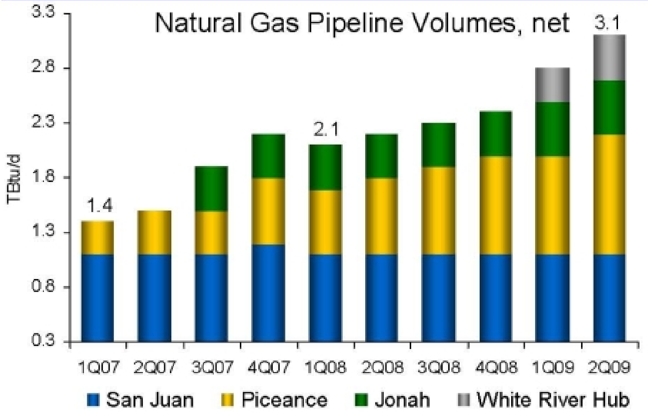
	1Q07	2Q	3Q	4Q	1Q08	2Q	3Q	4Q	1Q09	2Q
Butane	80	106	83	49	45	71	115	52	36	62
Propane	385	403	370	337	332	376	333	206	245	335
Ethane	729	749	776	813	789	812	638	627	680	835

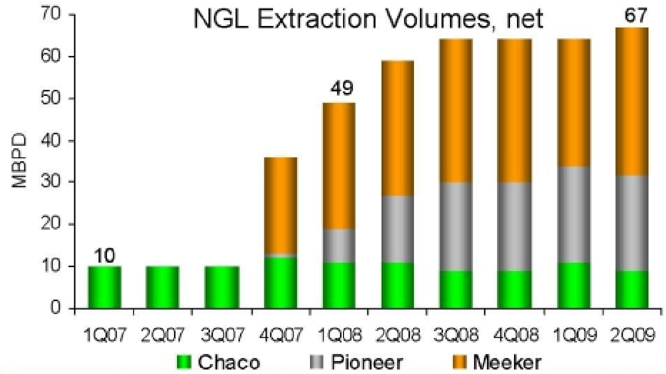


Source: Pace Hodson, CMAI, quoted forward prices for feedstocks on August 24, 2009.

- Ethylene production has rebounded to 51 billion pounds per year vs. 5-year average of 54 billion pounds per year
- NGL feedstocks – ethane, propane and butane are forecast to provide ethylene producers higher margins than more costly crude oil derivatives
  - At 835 MBPD, demand for ethane is the highest since 1Q 2000
  - A number of ethylene crackers are switching from crude oil derivatives to NGL feedstocks; has led to some plant modifications to utilize more NGLs

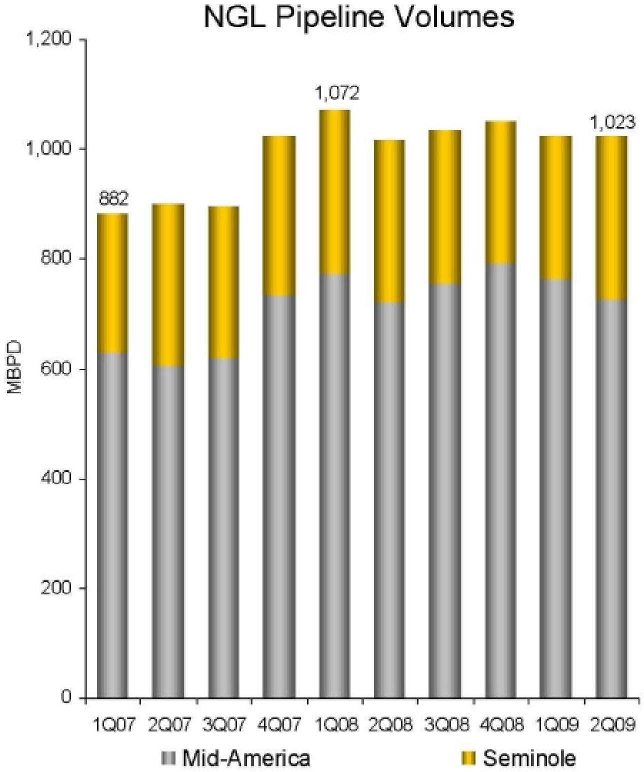
Rockies Overview





- Natural gas pipeline volumes have increased 114% since 1Q 2007, due to Piceance and Jonah / Pinedale systems
- Piceance: dedicated volumes to EPD expected to grow 10–20% from end of 2008 despite reduced drilling due to 300+ wells waiting to be connected
  - Collbran Valley and Marathon gathering systems will flow incremental volumes into Piceance Gathering pipeline – estimated completion 4Q 2009
- Jonah / Pinedale gross receipts grew to 2.2 Bcf/d in 2Q 2009
- San Juan volumes stable at approx. 1.1 Bcf/d; shallow decline curve partially mitigates lower drilling activity
- NGL extraction volumes increased significantly with the Pioneer and Meeker I and II facilities beginning operations in 2008 and 1Q 2009

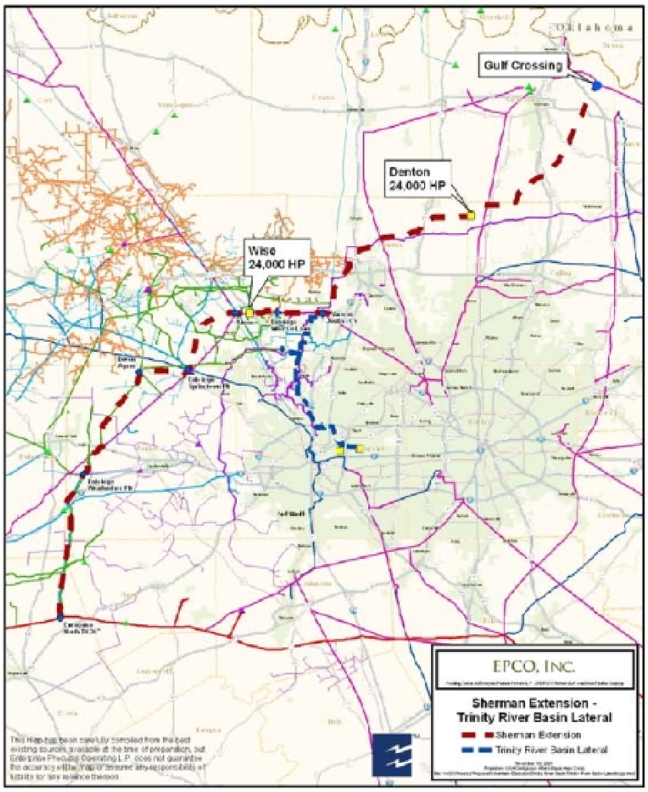
Rockies Overview *(continued)*



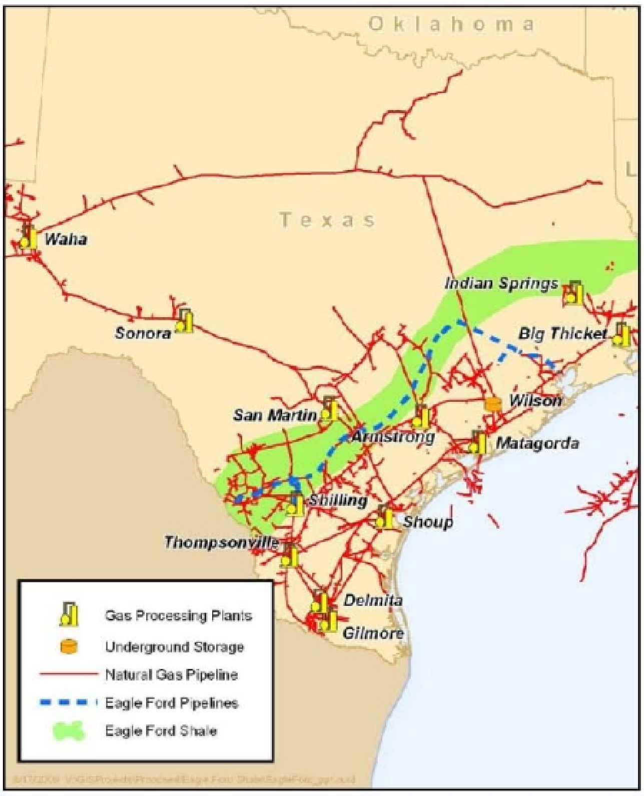
- Expect NGL transportation volumes on Mid-America Pipeline ("MAPL") to increase as new processing facilities begin service in the Piceance and Uintah basins
- Expanded MAPL's Rocky Mountain pipeline by 22% in 4Q 2007; currently running at or near capacity
- Volumes are supported by long-term shipper dedication agreements and higher NGL netbacks relative to most other regions

Barnett Shale Growth Projects

- Sherman Extension
  - New 1.1 Bcf/d, 178-mile pipeline extends EPD's Texas Intrastate System through growing Barnett Shale region to interconnect with Boardwalk's Gulf Crossing Project near Sherman, Texas
  - Signed long-term agreements with producers for 1 Bcf/d of capacity
  - Commenced operations February 2009, but service was limited through July 2009 due to pipeline integrity issues at Gulf Crossing
  - Currently flowing approximately 650 MMcf/d as pipeline ramps up to near full capacity
- Trinity River Basin Lateral
  - EPD is constructing a new 40-mile, 36" / 30" pipeline in the Trinity River basin area and Newark East Field into its Sherman Extension
  - Capable of flowing up to 1Bcf/d of natural gas and providing producers new pipeline takeaway capacity
  - Anchored by long-term agreements with major producers
  - In-service: year-end 2009 / beginning 2010

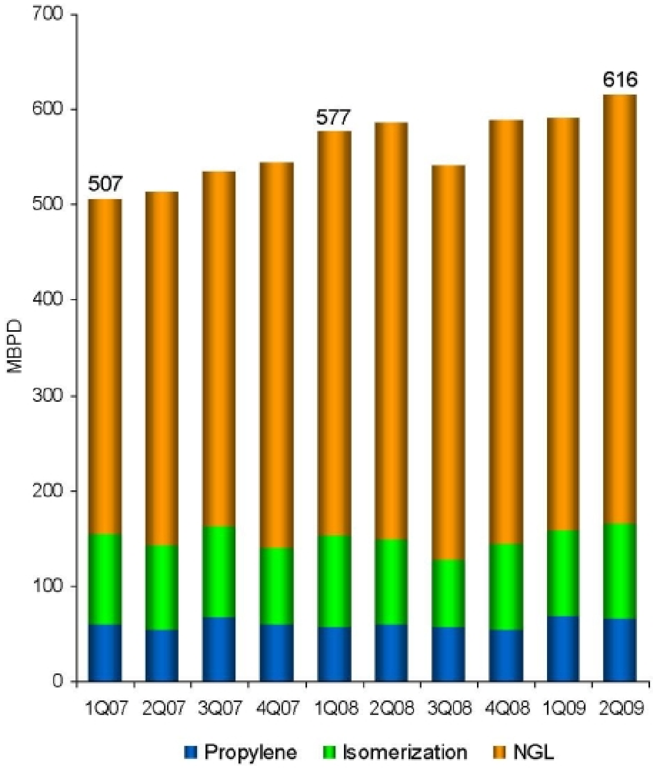


Eagle Ford Shale Opportunities



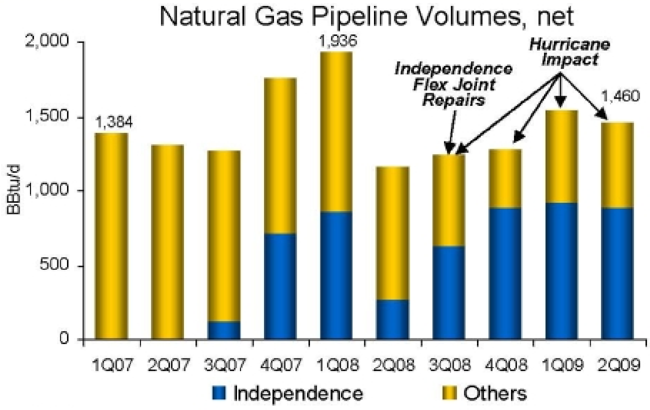
- **Shale play extends from Mexico border to the Louisiana border, near or underlying EPD assets**
  - Covers 15 million acres in Texas
  - Highly brittle shale well suited for fracturing
  - Potential for both shale oil (shallow) and natural gas (deeper)
- **Eagle Ford gas tends to be rich with up to 9 gallons of NGLs per million cubic feet of natural gas (GPM)**
  - Gas will need to be processed; ability to handle NGLs is paramount
  - EPD has natural gas and NGL infrastructure in place with available capacity (gas processing facilities, gathering pipelines and NGL fractionators)
- **Producers actively developing the play include Anadarko, ConocoPhillips, Apache, Petrohawk and others**

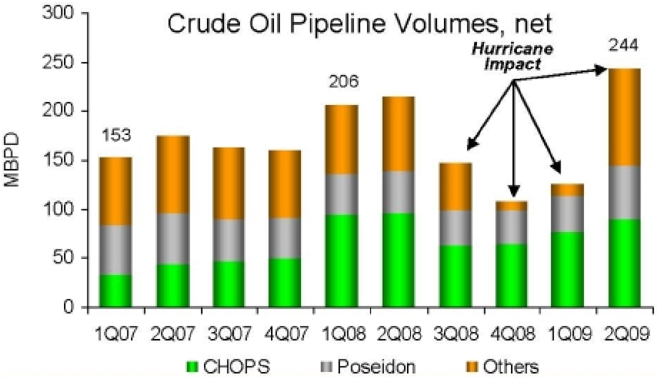
Fractionation Assets



- NGL industry's and EPD's NGL fractionation facilities are operating at or near capacity
  - EPD volumes have increased 46% to a record 449 MBPD over last 3 years
  - Integration enables EPD to optimize system-wide operating rates
    - Hobbs/Mont Belvieu/Louisiana
  - Recent contracts include "frac-or-pay" or capacity reservation charges
- In August EPD announced plans to build a new 75 MBPD NGL fractionator at Mont Belvieu to accommodate growing NGL volumes
  - Supported by long-term contracts
  - Increase EPD's NGL fractionation capacity to 600 MBPD
  - Expected completion 1H 2011

Offshore Assets





- Independence Hub accounted for approximately 15% of natural gas production from the Gulf of Mexico in the 1st half of 2009
- Expect oil volumes to increase from 2008 due to ramp up of production from Neptune Field, Atlantis and the start up of Shenzi and Tahiti in 1st half of 2009
- 2008 Hurricanes Gustav and Ike adversely impacted gross operating margin by approximately $100 million through 2Q 2009
  - Business interruption insurance claims through 2Q 2009 estimated at $45 million
- All major facilities have returned to service

Financial Snapshot

($millions; except per unit amounts) Description	Three Months Ended June 30, 2009	Three Months Ended June 30, 2008	Six Months Ended June 30, 2009	Six Months Ended June 30, 2008
Net Income Attributable to Enterprise Products Partners L.P.	$ 187	$ 263	$ 412	$ 523
Earnings Per Unit *(fully diluted)*	$ 0.32	$ 0.52	$ 0.73	$ 1.03
Adjusted EBITDA	$ 505	$ 514	$ 1,030	$ 1,019

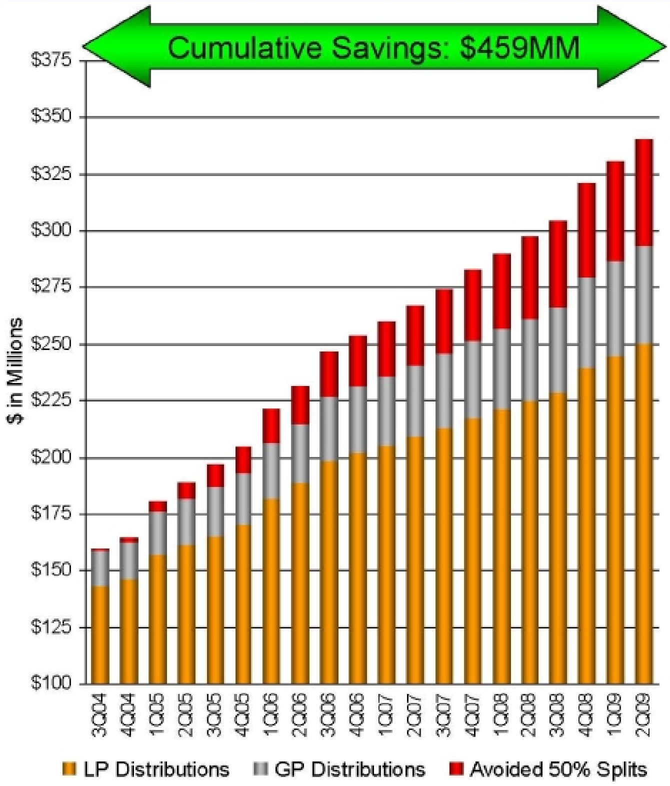
Declared Distributions Per Unit	$ 0.545	$ 0.515	$ 1.0825	$ 1.0225
Distribution Coverage	1.13x	1.38x	1.18x	1.47x
Retained DCF	$ 34	$ 86	$ 90	$ 212
Leverage: Debt* to Last 12 Months Adjusted EBITDA			4.3x	4.0x

* Debt reduced for minimum 50% equity content imputed by rating agencies for junior subordinated notes (hybrids).

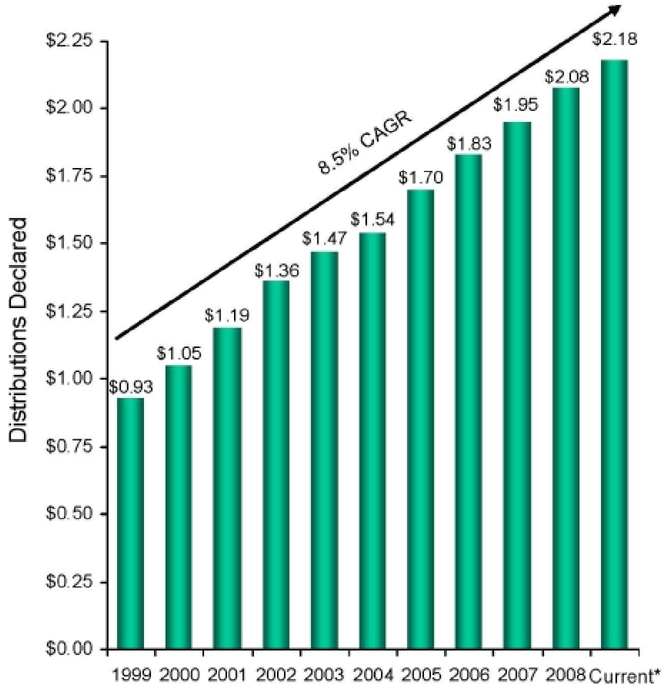
Substantial Financial Flexibility Added by Eliminating GP's 50% IDR



- "Landmark" action taken by EPD's GP in December 2002 to cap GP's IDRs at 25% for no consideration
- 2Q 2009 annualized savings of $188 million (equivalent to $0.41/unit)
- Enhances EPD's financial flexibility by retaining cash flow for debt retirement or capital investment
- Significantly lowers long-term cost of capital

History of Financial Discipline
Managing Distributable Cash Flow

Generated $6.7 Billion of DCF (1999 – 2Q 2009)
15% DCF Retained / Reinvested in Partnership



* Annualized

- Large footprint generates growth opportunities
  - Well positioned to benefit from the relative value, security and environmental benefits of domestic natural gas / NGL supplies relative to foreign-sourced crude oil
- Investment grade credit rating; focus on financial flexibility; demonstrated access to capital in difficult markets
- Balances cost of capital with total return to limited partners
- Significant management ownership and industry experience

Non-GAAP Reconciliations

Non-GAAP Financial Measures

This presentation utilizes the Non-GAAP financial measures of Gross Operating Margin, Adjusted EBITDA and Distributable Cash Flow. In general, we define Gross Operating Margin as operating income before (i) depreciation, amortization and accretion expense; (ii) operating lease expense for which we do not have the payment obligation; (iii) gains and losses from asset sales and related transactions and (iv) general and administrative costs. The GAAP measure most directly comparable to Gross Operating Margin is operating income.

In general, we define distributable cash flow as net income attributable to Enterprise Products Partners L.P. adjusted for: (i) the addition of depreciation, amortization and accretion expense; (ii) the addition of operating lease expenses for which we do not have the payment obligation; (iii) the addition of cash distributions received from unconsolidated affiliates less equity earnings from unconsolidated affiliates; (iv) the subtraction of sustaining capital expenditures and cash payments to settle asset retirement obligations; (v) the addition of losses or subtraction of gains from asset sales and related transactions; (vi) the addition of cash proceeds from asset sales, the return of investment from unconsolidated affiliates or related transactions; (vii) the addition of losses or subtraction of gains on the monetization of financial instruments recorded in accumulated other comprehensive income (loss), if any, less related amortization of such amount to earnings; (viii) the addition of transition support payments received from El Paso Corporation related to the GulfTerra merger; (ix) the addition of net income attributable to the noncontrolling interest associated with the public unitholders of DEP, less related distributions to be paid to such holders with respect to the period of calculation; and (x) the addition or subtraction of other miscellaneous non-cash amounts (as applicable) that affect net income or loss for the period. The GAAP measure most directly comparable to Distributable Cash Flow is net cash flows provided by operating activities.

We define Adjusted EBITDA as net income or loss attributable to Enterprise Products Partners L.P. less equity earnings of unconsolidated affiliates, plus distributions received from unconsolidated affiliates, interest expense, provision for income taxes and depreciation, amortization and accretion expense. Adjusted EBITDA is commonly used as a supplemental financial measure by senior management and by external users of our financial statements, such as investors, commercial banks, research analysts and rating agencies, to assess: (1) the financial performance of our assets without regard to financing methods, capital structures or historical cost basis; (2) the ability of our assets to generate cash sufficient to pay interest cost and support our indebtedness; and (3) the viability of projects and the overall rates of return on alternative investment opportunities. Since Adjusted EBITDA excludes some, but not all, items that affect net income or loss attributable to Enterprise Products Partners L.P. and because these measures may vary among other companies, the Adjusted EBITDA data presented in this press release may not be comparable to similarly titled measures of other companies. The GAAP measure most directly comparable to Adjusted EBITDA is net cash flows provided by operating activities.
